Routine Justice Proessing Cases In Womens Court:

Routine Justice Marcia J. Lipetz, **Privatizing Correctional Institutions** Gary W. Bowman, Simon Hakim, Paul Seidenstat, With more than one million people behind bars the United States imprisons a larger share of its population than any other industrialized nation This has precipitated a serious overcrowding problem with federal and state prisons currently operating well beyond capacity Conventional efforts appear unable to cope with the increasing shortage of beds or with inadequate rehabilitation services A bold solution is required increasingly it is being seen to reside in the private sector This timely volume explores the issues of private versus public financing construction and management of medium and high security prisons Private prisons are not a new concept in the United States They have existed in several forms since the eighteenth century The opening chapters evaluate historical cases of prisons for profit examining the concerns of labor abuses of inmates and the source and resolution of disputes between private and public sectors These chapters argue that the experience gained through privatization does not justify current opposition from civil libertarians or labor unions Chapters dealing with the modern contracting out of complete management and limited services document the growing trend toward privatization and instances of public private partnership in prison industries The assembled evidence indicates clearly that privately run prisons have shown significant cost savings and good quality of provision for prisoners while still being profitable However the authors caution that these promising results must be reinforced by public safeguards in the contracting stage and monitoring to assure good service and security With the American prison system in disarray the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost It is essential to state that correctional services should attain several objectives and not merely cost minimization The analysis and recommendations presented here will aid in the task Privatizing Correctional Institutions will be of interest to law enforcement officials public policy analysts penologists and criminologists Ranching, Mining, and the Human Impact of Natural Resources Development Raymond L. Gold, This book is intended for people interested in the environment American society rural and urban affairs social impact assessment and urban structures generally It is also aimed at industrial and community planners and natural resource development firms and formulated to implement a social policy concerning resource development and public agencies Ranching Mining and the Human Impact of Natural Resources Development reports and observes people whose lives have been importantly affected by industrialization of rural communities in the American West Such community change research is rarely done but is invaluable for its real world groundings for a variety of social science theories This study evolved out of ethnographic research of Western communities done over a full decade Initially performed to meet requirements for social impact analysis these studies have a much larger concern namely identifying those areas of social change that contribute to the standing of small communities and how they persist in the face of seemingly overwhelming odds of the highly advanced

urban complex Professor Gold has written the first work which examines and accounts for the rise of local citizens groups to a sense of being a community Its account of this process covers both ordinarily slow and extraordinarily rapid areas of change in Western societies It places the Gemeinschaft in proper perspective as the foundation upon which all other aspects of community social structure are built In this regard it is a contribution to basic social theory showing clearly the interrelation between small community and large society elements of the structure and functioning of community life The work is subtly textured combining structural cultural and symbolic perspectives in its account of the experience of the community of Sagebrush Gold s monograph is one of a kind No other book brings together the story of social effects of natural resource development projects in the American West

Gender, Crime, and Punishment Kathleen

Daly,1994-01-01 Are men and women who are prosecuted for similar crimes punished differently If women are sentenced more leniently does it vary with race and class This work explores these issues and others by focusing on a variety of processed court cases such as homicide robbery and drug offences

Punishing the Mentally Ill Bruce A.

Arrigo,2012-02-01 A powerful sophisticated and original critique on how the disciplines of law and psychiatry behave and on how the mental health and justice systems operate Punishing the Mentally Ill reveals where how and why the identity and humanity of persons with psychiatric disorders are consciously and unconsciously denied Author Bruce A Arrigo contends that despite periodic and well intentioned efforts at reform the current law psychiatry system functions to punish the mentally ill for being different The book synthesizes a wide range of mainstream and critical literature in sociology law philosophy history psychology and psychoanalysis to establish a new theory of punishment at the law psychiatry divide To situate the analysis enduring psycholegal issues are explored including the meaning of mental illness definitions and predictions of dangerousness the ethics of advocacy the right to community based treatment the logic of forensic courtroom verdicts transcarceration and the execution of mentally disordered offenders among others Punishing the Mentally Ill shows that current mental disability law research programming and policy are seriously flawed and that wholesale reform is necessary if the goals of citizen justice social well being and humanism are to be realized

The Intermediary in the Criminal Justice System John Taggart,2025-07-25 This book undertakes a sociolegal examination of the intermediary role within the criminal justice system The intermediary special measure is one of the most innovative and controversial developments in the history of English criminal procedure But what does the role actually involve That is the central question explored in this book Despite increased academic attention into this new criminal justice actor the content of the intermediary role remains unclear Based centrally on empirical data gathered in England and Wales and Northern Ireland but also drawing upon comparative material from other jurisdictions the book examines how those executing the intermediary role understand its work and how other criminal justice actors perceive it The book then uses this as the basis for generating a theory of the intermediary role and its scope and content It also considers the future of the role and its

integration into the criminal justice system This book will appeal to those researching and studying in the areas of sociolegal studies criminal law and criminology as well as lawyers judges intermediaries and policy makers working in relevant areas
