The Art of Classic Planning Nir Haim Buras, 2020-01-28 An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable demonstrating how we can restore function and beauty to our urban spaces for the long term Nearly everything we treasure in the world's most beautiful cities was built over a century ago Cities like Prague Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture walkable neighborhoods and human scale Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years not because of traffic population growth or other practical hurdles but because of ill considered theories emerging from Modernism and reactions to it The errors of urban design over the last century are too great not to question The solutions being offered today sustainability walkability smart and green technologies hint at what has been lost and what may be regained but they remain

piecemeal and superficial In *The Art of Classic Planning* architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers *The Art of Classic Planning* restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L'Enfant's Washington Haussmann's Paris and Burnham's Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world *The Art of Classic Planning* celebrates the enduring principles of urban design and invites us to return to building beautiful cities

The Science of Leonardo Fritjof Capra, 2008-12-02 Leonardo da Vinci's scientific explorations were virtually unknown during his lifetime despite their extraordinarily wide range He studied the flight patterns of birds to create some of the first human flying machines designed military weapons and defenses studied optics hydraulics and the workings of the human circulatory system and created designs for rebuilding Milan employing principles still used by city planners today Perhaps most importantly Leonardo pioneered an empirical systematic approach to the observation of nature what is known today as the scientific method Drawing on over 6 000 pages of Leonardo's surviving notebooks acclaimed scientist and bestselling author Fritjof Capra reveals Leonardo's artistic approach to scientific knowledge and his organic and ecological worldview In this fascinating portrait of a thinker centuries ahead of his time Leonardo singularly emerges as the unacknowledged father of modern science From the Trade Paperback edition
