Royal Poxes And Potions The Lives Of Court Physicians Surgeons And Apothecaries:

Royal Poxes and Potions Raymond Lamont-Brown,2002 This book looks at the role of the royal doctor from the time of George I to the present day It includes the drama of George II and his madness Sir Frederick Treves who was involved with the Elephant Man Joseph Merrick and Sir William Gull who remains a suspect in the Jack the Ripper case Sons, Servants and Statesmen John van der Kiste,2011-10-21 How was Queen Victoria influenced by her closest male ministers relatives advisers and servants John Van der Kiste is the first to explore this aspect of Victoria s life focusing on four roles mentors family ministers and servants A soldier s daughter Victoria lost her father at the age of eight months Although her uncle Leopold did his best to be a substitute father the absence of her real father probably influenced her throughout her life not least in choosing her husband Her close and faithful relationship with Albert is one of the great royal love stories but her relationships with her sons were much more stormy However with most of her heads of government she enjoyed relatively cordial relations in widowhood she showed a decided partiality for Disraeli who acquired for her the title Empress of India but disliked Gladstone complaining that he speaks to me as if I were at a public meeting Queen Victoria s relationships with her servants are also explored from the liberal influence exerted over the increasingly conservative queen by her private secretary Ponsonby to the outspoken John Brown and the Indian Munshi who both antagonised those around her

Romantic Autopsy Arden Hegele,2022 This book considers a moment at the turn of the nineteenth century when literature and medicine seemed embattled in rivalry to find the fields collaborating to develop interpretive analogies that saw literary texts as organic bodies and anatomical features as legible texts **Twilight of Splendor** Greg King,2007-06-04 Features the court of Britain s longest reigning monarch Queen Victoria and the Victorian era with coverage of the people pageantry and power of Queen Victoria s court Beginning with the Queen s 1897 Diamond Jubilee this book describes her long reign It paints a portrait of a unique ruler at the height of empire Encyclopedia of the Black Death Joseph P. Byrne,2012-01-16 This encyclopedia provides 300 interdisciplinary cross referenced entries that document the effect of the plague on Western society across the four centuries of the second plague pandemic balancing medical history and technical matters with historical cultural social and political factors Encyclopedia of the Black Death is the first A Z encyclopedia to cover the second plague pandemic balancing medical history and technical matters with historical cultural social and political factors and effects in Europe and the Islamic world from 1347 1770 It also bookends the period with entries on Biblical plagues and the Plague of Justinian as well as modern era material regarding related topics such as the work of Robert Koch and Louis Pasteur the Third Plague Pandemic of the mid 1800s and plague in the United States Unlike previous encyclopedic works about this subject that deal broadly with infectious disease and its social or historical contexts including the author s own this interdisciplinary work synthesizes much of the research on the plague and related medical history published in the last decade in accessible compellingly written entries Controversial subject areas such as whether plague was bubonic plague

and the geographic source of plague are treated in a balanced and unbiased manner The Pox Kevin Brown,2006-09-21 From almost the time when man first discovered the pleasures of sin he has also experienced the torments of the Pox Drawing on references from art and literature stories of famous sufferers and medical documents this book presents the history of syphilis and gonorrhoea and their treatment from the Renaissance to the antibiotic age Creating the National Health Service Marvin Rintala,2004-11-23 The origins of the NHS are the subject of this study that presents evidence on the key players who participated in the founding of the system The author also traces those who opposed the NHS Royal Poxes and Potions Raymond Lamont-Brown,2011-10-24 Royal Poxes and Potions is a fascinating look at the relationship between monarchs and their doctors and reveals the complex and influential position that they held Acclaimed biographer Raymond Lamont Brown casts light on a previously overlooked aspect of the monarchy and the secrets it conceals From the instigation of the royal doctor in medieval times and up to the present day the tales of secrets murder medical incompetence and revolutionary operations make compelling reading Included here is Sir William Gull court physician to Queen Victoria who was a suspect in the Jack the Ripper case and Sir Frederick Treves who was not only court physician to the four succeeding monarchs but was also the man who helped to rescue the Elephant Man Joseph Merrick from a fairground freak show **Henry VIII** John Matusiak,2013-08-01 This compelling new account of Henry VIII is by no means yet another history of the old monster and his reign The monster displayed here is at the very least a newer type more beset by anxieties and insecurities and more tightly surrounded by those who equated loyalty with fear self interest and blind obedience This ground breaking book also demonstrates that Henry VIII s priorities were always primarily martial rather than marital and accepts neither the necessity of his all consuming quest for a male heir nor his need ultimately to sever ties with Rome As the story unfolds Henry s predicaments prove largely of his own making the paths he chooses neither the only nor the best available For Henry VIII was not only a bad man but also a bad ruler who failed to achieve his aims and blighted the reigns of his two immediate successors Five hundred years after he ascended the throne the reputation of England s best known king is being rehabilitated and subtly sanitized Yet Tudor historian John Matusiak paints a colourful and absorbingly intimate portrait of a man wholly unfit for power **Dragon's Blood & Willow Bark** Toni Mount,2015-04-15 A time when butchers and executioners knew more about anatomy than university trained physicians travel back to a time of such unlikely remedies as leeches roasted cat and red bed curtains *How Fat Was Henry VIII?* Raymond Lamont-Brown,2016-04-04 Ever wondered how fat Henry VIII really was Or what made Mary I Bloody Over many hundreds of years British royalty has had its fair share of accidents rumours scandals misrepresentations and misconceptions For instance could Richard III be innocent of the deaths of the Princes in the Tower And what really happened between Queen Victoria and her Highland servant John Brown In today s world where newspapers clamour to report new revelations about the Royal Family this informative and quirky book gives the inquisitive reader an in depth look at the secrets of our past royals For anyone curious about what went

on behind the palace walls Raymond Lamont Brown answers those intriguing confusing and mysterious questions we might have about our monarchs City of Light, City of Poison: Murder, Magic, and the First Police Chief of Paris Holly

Tucker,2017-03-21 An artful reconstruction of seventeenth century Paris with riveting storytelling The New Yorker In the late 1600s Louis XIV assigns Nicolas de la Reynie to bring order to Paris after the brutal deaths of two magistrates Reynie pragmatic and fearless discovers a network of witches poisoners and priests whose reach extends all the way to the king's court at Versailles Based on court transcripts and Reynie's compulsive note taking Holly Tucker's engrossing true crime narrative makes the characters breathe on the page as she follows the police chief into the dark labyrinths of crime ridden Paris the halls of royal palaces secret courtrooms and torture chambers **A Magnificent Obsession** Helen

Rappaport,2012-03-13 As she did in her critically acclaimed The Last Days of the Romanovs Helen Rappaport brings a compelling documentary feel to the story of this royal marriage and of the queen's obsessive love for her husband a story that began as fairy tale and ended in tragedy After the untimely death of Prince Albert the queen and her nation were plunged into a state of grief so profound that this one event would dramatically alter the shape of the British monarchy For Britain had not just lost a prince during his twenty year marriage to Queen Victoria Prince Albert had increasingly performed the function of King in all but name The outpouring of grief after Albert's death was so extreme that its like would not be seen again until the death of Princess Diana 136 years later Drawing on many letters diaries and memoirs from the Royal Archives and other neglected sources as well as the newspapers of the day Rappaport offers a new perspective on this compelling historical psychodrama the crucial final months of the prince's life and the first long dark ten years of the Queen's retreat from public view She draws a portrait of a queen obsessed with her living husband and after his death with his enduring place in history Magnificent Obsession will also throw new light on the true nature of the prince's chronic physical condition overturning for good the 150 year old myth that he died of typhoid fever *Smoking Ears and Screaming Teeth* Trevor

Norton,2012-09-27 A witty celebration of the great eccentrics who have performed dangerous scientific experiments on themselves for the benefit of humankind Many scientists have followed the advice of the great Victorian doctor Jack Haldane to never experiment on an animal if a man will do and never ask anyone to do anything you wouldn't do yourself He and his father inhaled poisonous gasses to test the efficacy of the prototype gas mask they had invented When breathing gasses under pressure he suffered the smoking ears and screaming teeth of the title The stories in Norton's new book are astonishing disturbing or absurd The zoologist Frank Buckland made a concentrated effort to widen the nation's diet by personally testing everything that crossed his path from boiled elephant's trunk to slug soup Some medics deliberately contracted deadly blood diseases in the hope of finding cures Then there was the surgeon who was fired and subsequently won the Nobel Prize for thrusting a catheter into his own beating heart **Eponyms and Names in Obstetrics and**
