Becoming a Queen in Early Modern Europe Katarzyna Kosior, 2019-03-18 Queens of Poland are conspicuously absent from the study of European queenship an absence which together with early modern Poland's marginal place in the historiography results in a picture of European royal culture that can only be lopsided and incomplete Katarzyna Kosior cuts through persistent stereotypes of an East West dichotomy and a culturally isolated early modern Poland to offer a groundbreaking comparative study of royal ceremony in Poland and France The ceremonies of becoming a Jagiellonian or Valois queen analysed in their larger European context illuminate the connections that bound together monarchical Europe These ceremonies are a gateway to a fuller understanding of European royal culture demonstrating that it is impossible to make claims about European queenship without considering eastern Europe

Protest or Propaganda Aarnoud R van der Deijl, 2008-08-31 In this study the war stories from the Old Testament book of Kings are compared to ten extrabiblical texts Narratological analysis is applied to deconstruct the ideology of the respective literary compositions The Old Testament ideology of war seems to be neither typically Israelite as Gerhardt von Rad put it nor commonly Ancient Near Eastern as Manfred Weippert thought it to be This poses the question whether the reading experience of biblical war stories is so very different from for instance Assyrian royal inscriptions both in terms of its literary value and its ideological bias Narratological analysis turns out to be a strong tool for explaining the similarities and distinctive features of the respective
