Royal Wisdom Kate Petrella,2011-03-18 I've had lots of kids come up and ask for my autograph I've had a grandmother stop and ask me if I know a good place to buy underwear Prince William Do you seriously expect me to be the first Prince of Wales in history not to have a mistress Prince Charles Being a princess isn't all it's cracked up to be Princess Diana I really need a gin and tonic Camilla Duchess of Cornwall They may be royalty but the first family of Great Britain has made more than their share of gaffes faux pas and verbal blunders In this book the quips that tabloids kill for are finally collected in one volume Whether they're covering up a scandal or smoothing a political mishap you'll find all of their royal wit and witticism both the good and the bad in this cunning collection Royalty in Quotes Ammonite Press,2012-08-16 While many of the British Royal family's words can be kind compassionate thought provoking self deprecating profound and amusing they can also be arrogant ignorant tactless offensive and downright batty With the aid of almost 200 photographs this book takes a tongue in cheek look at the ramblings of Britain's Royals **Royal Quotes** Noel St. George,1981-01-01 Wise Words from King Charles III Karen Dolby,2024-04-25 The very best of the King's wisdom and humour covering a huge range of topics that have been close to his heart Lighthearted and revelatory this is a wonderful celebration of royal wit and a fascinating glimpse into the life of our new monarch **Quotes of the Royal Family** Holly Wilson,2016-01-25 Collection of Royal Family Quotations **Britain's Television Queen** Bob Crew,2016-12-19 Focusing purely on Queen Elizabeth II's relationship with television this book shows how she was ahead of the game in helping to change the face of British television from the outset of her reign in 1953 when she let the cameras into Westminster Abbey The Queen embraced television at a time when Winston Churchill and her government advisors recommended that she should keep them out on the grounds that the cameras would destroy her royal mystique right through the 1950s which was Britain's television decade for reasons that are not generally understood today when Britain became the first nation in the world to have public service television In 1969 the Queen opened the doors to the cameras once again for the invention of Britain's first family reality TV fly on the wall programme showing how she and her husband the Duke of Edinburgh and their children Charles and Anne went about their daily lives thereby giving the seal of royal approval to reality TV ahead of the first programmes in the United States and the UK that followed in her wake Queen Elizabeth II can accurately be described as a television queen the first monarch to understand and embrace television and in particular reality TV which is why she was light years ahead of other royals and her government ministers Television was for her a right of passage and not until she ran into bad and stormy weather with Princess Diana in the 1980s and 1990s did she have any image problems with television These problems no longer remain today evidently as once again the television arrangements are in full swing for her Diamond Jubilee celebrations this June Queen Elizabeth II remains the most televised and visualised person in the world **James Joseph Sylvester** Karen Hunger Parshall,2006-05-17 This text offers a biography of James Joseph Sylvester his work A Cambridge student at first denied a

West Coast Jazz Ted Gioia, 1998-10 From the Preface by Ted Gioia All of these musicians fought their

way back over the next decade and their success in re establishing themselves as important artists was perhaps the first signal initially unrecognized as such that a re evaluation of the earlier West Coast scene was under way Less fortunate than these few were West Coasters such as Sonny Criss Harold Land Curtis Counce Carl Perkins Lennie Niehaus Roy Porter Teddy Edwards Gerald Wilson and those others whose careers languished without achieving either a later revival or even an early brief taste of fame Certainly some West Coast jazz players have been awarded a central place in jazz history but invariably they have been those who like Charles Mingus or Eric Dolphy left California for Manhattan Those who stayed behind were for the most part left behind The time has come for a critical re evaluation of this body of work With more than forty years of perspective since modern jazz came to California we can perhaps now begin to make sense of the rich array of music presented there during those glory years But to do so we need to start almost from scratch We need to throw away the stereotypes of West Coast jazz reject the simplifications catchphrases and pigeonholings that have only confused the issue So many discussions of the music have begun by asking What was West Coast jazz as if some simple definition would answer all our questions And when no simple answer emerged how could it when the same critics asking the question could hardly agree on a definition of jazz itself this failure was brandished as grounds for dismissing the whole subject My approach is different I start with the music itself the musicians themselves the geography and social situation the clubs and the culture I tried to learn what they have to tell us rather than regurgitate the dubious critical consensus of the last generation Was West Coast jazz the last regional style or merely a marketing fad Was there really ever any such thing as West Coast jazz If so was it better or worse than East Coast jazz Such questions are not without merit but they provide a poor start for a serious historical inquiry I ask readers hoping for quick and easy answers to approach this work with an open mind and a modicum of patience Generalizations will emerge broader considerations will become increasingly clear but only as we approach the close of this complex story after we have let the music emerge in all its richness and diversity By starting with some theory of West Coast jazz we run the risk of seeing only what fits into our theory Too many accounts of the music have fallen into just this trap Instead we need to see things with fresh eyes hear the music again with fresh ears
