Royalty Of Nature A Commentary On Shakespeares History Plays:

Royalty of Nature Beryl Pogson,195? **Royalty of Nature** Beryl Pogson,195? Shakespeare's History Plays Robert Watt,2014-06-11 Shakespeare's history plays are central to his dramatic achievement In recent years they have become more widely studied than ever stimulating intensely contested interpretations due to their relevance to central contemporary issues such as English national identities and gender roles Interpretations of the history plays have been transformed since the 1980s by new theoretically informed critical approaches Movements such as New Historicism and cultural materialism as well as psychoanalytical and post colonial approaches have swept away the humanist consensus of the mid twentieth century with its largely conservative view of the plays The last decade has seen an emergence of feminist and gender based readings of plays which were once thought overwhelmingly masculine in their concerns This book provides an up to date critical anthology representing the best work from each of the modern theoretical perspectives The introduction outlines the changing debate in an area which is now one of the liveliest in Shakespearean criticism Catalog of Printed Books of the Folger Shakespeare Library, Washington, D.C. Folger Shakespeare Library,1970 **Unconformities in Shakespeare's History Plays** K. Smidt,1982-07-08 **The Cambridge Companion to Shakespeare's History Plays** Michael Hattaway,2002-12-05 Shakespeare's history plays have been performed more in recent years than ever before in Britain North America and in Europe This 2002 volume provides an accessible wide ranging and informed introduction to Shakespeare's history and Roman plays It is attentive throughout to the plays as they have been performed over the centuries since they were written The first part offers accounts of the genre of the history play of Renaissance historiography of pageants and masques and of women's roles as well as comparisons with history plays in Spain and the Netherlands Chapters in the second part look at individual plays as well as other Shakespearean texts which are closely related to the histories The Companion offers a full bibliography genealogical tables and a list of principal and recurrent characters It is a comprehensive guide for students researchers and theatre goers alike Shakespeare's History Plays: Richard II to Henry V, the Making of a King C W R D Moseley,2016-10-09 Part I provides some contexts for what is inevitably our reading of the history plays so that perhaps we may guess at the impact they may have had on their contemporaries The author suggests by implication a way of approaching Elizabethan drama that may be generally useful Part II is a consideration of what the author thinks are some major issues in the Ricardian plays **Catalog of the Shakespeare Collection** Folger Shakespeare Library,1972 Class and Society in Shakespeare Paul Innes,2007-11-15 The Continuum Shakespeare Dictionaries provide authoritative yet accessible guides to the principal subject areas covered by the plays and poetry of Shakespeare The dictionaries provide readers with a comprehensive guide to the topic under discussion its occurrence and significance in Shakespeare's works and its contemporary meanings Entries range from a few lines in length to mini essays providing the opportunity to explore an important literary or historical concept or idea in depth Entries include apothecary bear baiting

Caesar degree gentry Henry V kingdom London masque nobility plague society treason usury whore and youth They follow an easy to use three part structure a general introduction to the term or topic a survey of its significance and use in Shakespeare's plays and a guide to further reading **The Natural History of Pliny** Pliny (the Elder.),1898

Shakespeare's History Plays: the Family and the State Robert B. Pierce,1971 Pierce systematically examines the nine history plays of Shakespeare in the 1590s in the approximate sequence of their composition He discovers in them a constant elaboration and rich development of the correspondence between the family and the state into an ever more subtle and effective dramatic technique Through a careful analysis of the language characterization and plots of the chronicles Pierce demonstrates how the family served as an analogue of those grave events that marked the turbulent reign of King John and the subsequent terrible century of civil strife and wars with the French that haunted the imaginations of Englishmen more than a hundred years later At times he finds Shakespeare depicts the family as a miniature of the kingdom and the life of the family becomes a direct or ironic comment on the larger life of the commonwealth At others the family is inextricably bound up in a political situation by means of characters who are portrayed both in their public roles and as members of their families *The Definitive Shakespeare Companion* Joseph Rosenblum,2017-06-22 This expansive four volume work gives students detailed explanations of Shakespeare's plays and poems and also covers his age life theater texts and language Numerous excerpts from primary source historical documents contextualize his works while reviews of productions chronicle his performance history and reception Shakespeare's works often served to convey simple truths but they are also complex multilayered masterpieces Shakespeare drew on varied sources to create his plays and while the plays are sometimes set in worlds before the Elizabethan age they nonetheless parallel and comment on situations in his own era Written with the needs of students in mind this four volume set demystifies Shakespeare for today's readers and provides the necessary perspective and analysis students need to better appreciate the genius of his work This indispensable ready reference examines Shakespeare's plots language and themes his use of sources and exploration of issues important to his age the interpretation of his works through productions from the Renaissance to the present and the critical reaction to key questions concerning his writings The book provides coverage of each key play and poems in discrete sections with each section presenting summaries discussions of themes characters language and imagery and clear explications of key passages Readers will be able to inspect historical documents related to the topics explored in the work being discussed and view excerpts from Shakespeare's sources as well as reviews of major productions The work also provides a comprehensive list of print and electronic resources suitable for student research *The Drama of Memory in Shakespeare's History Plays* Isabel Karremann,2015-10-20 This book analyses the drama of memory in Shakespeare's history plays Situating the plays in relation to the extra dramatic contexts of early modern print culture the Reformation and an emergent sense of nationhood it examines the dramatic devices the theatre developed to engage with the memory crisis triggered by these historical

developments Against the established view that the theatre was a cultural site that served primarily to salvage memories Isabel Karremann also considers the uses and functions of forgetting on the Shakespearean stage and in early modern culture Drawing on recent developments in memory studies new formalism and performance studies the volume develops an innovative vocabulary and methodology for analysing Shakespeare s mnemonic dramaturgy in terms of the performance of memory that results in innovative readings of the English history plays Karremann s book is of interest to researchers and upper level students of Shakespeare studies early modern drama and memory studies

Ecocriticism and Early Modern English Literature Todd A. Borlik,2011-05-11 In this timely new study Borlik reveals the surprisingly rich potential for the emergent green criticism to yield fresh insights into early modern English literature Deftly avoiding the anachronistic casting of sixteenth and seventeenth century authors as modern environmentalists he argues that environmental issues such as nature s personhood deforestation energy use air quality climate change and animal sentience are formative concerns in many early modern texts The readings infuse a new urgency in familiar works by Shakespeare Sidney Spenser Marlowe Raleigh Jonson Donne and Milton At the same time the book forecasts how ecocriticism will bolster the reputation of less canonical authors like Drayton Wroth Bruno Gascoigne and Cavendish Its chapters trace provocative affinities between topics such as Pythagorean ecology and the Gaia hypothesis Ovidian tropes and green phenomenology the disenchantment of Nature and the Little Ice Age and early modern pastoral poetry and modern environmental ethics It also examines the ecological onus of Renaissance poetics while showcasing how the Elizabethans sense of a sophisticated interplay between nature and art can provide a precedent for ecocriticism s current understanding of the relationship between nature and culture as mutually constructive Situating plays and poems alongside an eclectic array of secondary sources including herbals forestry laws husbandry manuals almanacs and philosophical treatises on politics and ethics Borlik demonstrates that Elizabethan and Jacobean authors were very much aware of and concerned about the impact of human beings on their natural surroundings

The Locus of Tragedy Arthur Cools,Thomas Crombez,Johan Tael,Rosa Slegers,2008-12-31 Ask for the tragic and Europe will answer Leaving behind the philosophers enthusiasm of the nineteenth century tragedy and the tragic now seem little more than vague containers However it appears that we still discover a tragic essence in our personal lives Time and again tragedy is being registered written down and staged This book wants to open a contemporary philosophical perspective on the tragic What is the locus of tragedy Does it relate to metaphysics the gods destiny and chance Or is it a matter of ethics of the Law and its transgression Does man himself occupy the locus of tragedy because of his unreasonable and boundless desires as many philosophers have suggested Is man today still able to account for his tragic condition Or do we locate the tragic first and foremost in the esthetic imagination Is not the theatrical genre of tragedy the locus authenticus of all things tragic Is there more to the tragic than drama and play

Notes and Queries ,1863

Coriolanus David George,2022-02-10 First published in 2004 David George s majestic compendium of criticism relating

to Shakespeare's *Coriolanus* was recognised as a major contribution to teaching and scholarship on the play. This new edition has been updated with a new supplementary introduction by the author tracing criticism on the play since that first publication including materialist psychoanalytic and feminist readings as well as further readings of the play's politics. As with all titles in the series this edition increases our knowledge of how Shakespeare's plays were received and understood by critics, editors and general readers. The volume offers in separate sections both critical opinions about the play across the centuries and an evaluation of their positions within and their impact on the reception of the play. The chronological arrangement of the text excerpts engages the readers in a direct and unbiased dialogue whereas the substantial introduction offers a critical evaluation from a current stance including modern theories and methods. Thus the volume makes a major contribution to our understanding of the play and of the traditions of Shakespearean criticism surrounding it as they have developed from century to century.

Shakespeare's Sceptered Isle Brian Carroll, 2022-06-01 This work searches Shakespeare's history and Roman plays to find the raw materials of English national consciousness and identity. The messages of Shakespeare's history plays are not principally the plots or facts of the dramas but the attitudes and imaginings they elicited in audiences. Reading Shakespeare through the lens of national identity is a study almost as old as the plays themselves and many scholars have found various articulations of nationhood in Shakespeare's plays. This book argues that Shakespeare's histories furnished modern England with a curriculum for constructing a national identity, a confidence of language and culture and a powerful new medium through which to communicate and express this negotiated identity. Highlighting the application of semiotics it studies the playwright's use of symbols, metonymy, symbolic codes and metaphor. By examining what Shakespeare and playgoers remembered and forgot as well as the ways ideas were framed, this book explores how a national identity was crafted, contested and circulated.
