Nouvelle histoire de la France moderne Janine Garrisson,1991 *Vernacular Literature and Current Affairs in the Early Sixteenth Century* Jennifer Britnell,2018-05-08 This title was first published in 2000 The printed writings of the most important authors of the sixteenth century are characterised by frequent references to current affairs This collection brings together essays by literary scholars and historians of the era to discuss various ways in which those writing in the vernacular during the early sixteenth century responded to contemporary events The papers in this volume also demonstrate how the spread of literacy was of fundamental significance for the economics of book production and for ways in which political power was exercised and expressed as well as for the development of new literary forms of critical and occasional writing

Queen's Apprentice Joseph F. Patrouch,2010 This study seeks to examine a number of themes relating to the roles of the women s court of the central European Habsburgs These include its role in helping consolidate their holdings in central Europe and the Holy Roman Empire and structure their relations with the rest of Europe **Renaissance Et**

Réforme ,1993 *Queen Jeanne and the Promised Land* David Bryson,1999-09-08 Jeanne III d Albret 1528 1572 queen of Navarre is a subject of great controversy and fascination yet only two modern monographs have been written about her and both are general biographies This book fills the gap for scholars by concentrating on Jeanne s leading role during the Wars of Religion in the vast territory of Guyenne in southwestern France Part One The Promised Land portrays the growth of Protestantism in Guyenne the rise of the Albret dynasty and Jeanne s evangelisation In part Two Exodus Queen Jeanne emerges as a Huguenot war leader in the attempt shown in Part Three Sanctuary to create a Protestant Guyenne by force of arms The book makes extensive use of contemporary sources including unpublished diplomatic and military dispatches and a controversial collection of copies of Jeanne s private correspondence **Nouvelle histoire de la France moderne** ,1991

Attending to Early Modern Women Susan Dwyer Amussen,Adele F. Seeff,1998 This volume continues and amplifies a series of conversations initiated in 1990 at the conference Attending to Women in Early Modern England sponsored by the University of Maryland s Center for Renaissance and Baroque Studies on the College Park campus The volume celebrates the work of the almost 400 scholars who contributed as plenary speakers workshop leaders and participants to Attending to

Early Modern Women held in April 1994 once again at the University of Maryland at College Park The Counts of Laval
Malcolm Walsby, 2017-03-02 The Lavals were one of the most important families in late medieval France rising to a position of unsurpassed eminence by the mid sixteenth century Yet at the very point where they reached this position of unrivalled importance all was put at risk by the dual challenges of dynastic failure and the Reformation The vagaries of dynastic failure threatened their hard won success and these problems were compounded by the decision of crucial members of the family to support Protestantism in the middle of the century By the end of the sixteenth century the fortunes of the family were in ruins and the brief eminence of Lavals in western France was over This monograph offers a fresh look at several of the critical questions facing historians of late medieval and early modern France It re examines the clientage of a rising and enterprising family and explores the cultural patronage of a noble court The book also provides a new insight into the nature of noble Protestantism notably analysing the connections between nobles patterns of family loyalty and religious conviction Finally it considers the events of wars of religion in western France from the perspective of a noble leadership that simultaneously played a vital role in sustaining the cause and did much to undermine it This latter issue is examined in particular through the analysis of the relationship between the houses of Laval and Rohan two Protestant families with shared loyalties but with rival dynastic ambitions This study is based on a complete re examination of the archive base in both Paris and the west of France and in English archives For many centuries the destruction of the archives of the family of Laval during the French Revolution has prevented historians from undertaking a serious study of the family Indeed this book is the first monograph to be published on the Comtes de Laval since the manuscript volume written by Le Blanc de La Vignole in the seventeenth century At the same time it engages with the historiography of both French and Anglo Saxon historiographical traditions What the fuck ?! Normative Zentrierung Rudolf Suntrup, Jan R. Veenstra, 2002. Für die Beschreibung vereinheitlichender Zentrierungsbewegungen im religiös-kirchlichen, staatlichen und gesellschaftlichen Leben während des Übergangs vom Spätmittelalter zur Frühen Neuzeit hat sich das Konzept der normativen Zentrierung weit über die reformationsgeschichtliche Forschung hinaus als außerordentlich fruchtbar erwiesen. Die in diesem Sammelband vereinten Tagungsbeiträge behandeln das Thema in theoretischer Exposition sowie in Studien zu den Erscheinungsformen der Normierung im religiösen Leben auf dem Gebiet der Kommunikationsmedien sowie im Umfeld des Hofes und der Stadt. The religious, social and political life of the late medieval and early modern period was marked in increasing measure by a general cultural tendency to converge upon central norms. This concept of normative centering does much more than merely accommodate the traditional historiography of the period which included the Reformation; it touches rather on a variety of topics including lay piety, urban culture, book production, court life and foreign policies. The essays collected in this volume explore both the theoretical and practical ramifications of this innovative concept.

Szabari,2024-03-05 It is well known that Renaissance culture gave an empowering role to the individual and thereby to agency But how does race factor into this culture of empowerment Canonical French authors like Rabelais and Montaigne have been celebrated for their flexible worldviews and interest in the difference of non French cultures both inside and outside of Europe As a result this period in French cultural history has come to be valued as an exceptional era of cultural opening toward others Agents without Empire shows that such a celebration is at the very least problematic Szabari argues that before the rise of the French colonial empire medieval categories of race based on the redemption story were recast through accounts of the Ottoman Empire that were made accessible in a sudden and unprecedented manner to agents of the French crown Spying performed by Frenchmen in the Ottoman Empire in the sixteenth century permeated French culture in large part because those who spied also worked as knowledge producers propagandists and artists The practice changed what it meant to be cultured and elite by creating new avenues of race and gender specific consumption for French and European men that affected all areas of sophisticated culture including literature politics prints dressing personal hygiene and leisure Agents without Empire explores race making in this period of European history in the context of diplomatic reports travel accounts natural history propaganda religious literature poetry theater fiction and cheap print It intervenes in conversations in whiteness studies race theory theories of agency and matter and the history of diplomacy and spying to offer a new account of race making in early modern Europe
