Saskatchewan canola farmer who in turn claimed his crops had been involuntarily contaminated by the company's GM technology a class action application by two Saskatchewan organic canola farmers launched against Monsanto and Aventis later Bayer for the loss of their organic market due to contamination with GMOs and two cases in Mississippi in which Monsanto sued farmers for saving seeds containing its patented GM technology Pechlaner argues that well funded corporate lawyers have a decided advantage over independent farmers in the courts and in creating new forms of power and control in agricultural production Corporate Crops demonstrates the effects of this intersection between the courts and the fields where profits not just a food supply are reaped **Organic Farming, Pest Control and Remediation of Soil Pollutants**
