Hill,2023-07-13 In 1900 a handful of New Zealand police detectives watched out for spies seditionists and others who might pose a threat to state and society The Police Force remained the primary instrument of such human intelligence in New Zealand until 1956 when a decade into the Cold War a dedicated Security Service was created Over the same period New Zealand s role within signals intelligence networks evolved from the Imperial Wireless Chain to the UKUSA intelligence alliance now known as Five Eyes The first of two volumes chronicling the history of state surveillance in New Zealand **Secret History** opens up the secret world of security intelligence through to 1956 It is the story of the surveillers who in times of war and peace turmoil and tranquillity monitored and analysed perceived threats to national interests It is also the story of the surveilled those whose association with organisations and movements led to their public and private lives being documented in secret files **Secret History** explores a hidden and intriguing dimension of New Zealand history one which sits uneasily with cherished national notions of an exceptionally fair and open society      **State Authority, Indigenous Autonomy** Richard S. Dunstall,2013-06-17 This book is a major contribution to the comparative histories of crime and criminal justice focusing on the legal regimes of the British empire during the nineteenth and early twentieth centuries Its overarching theme is the transformation and convergence of criminal justice systems during a period that saw a broad shift from legal pluralism to the hegemony of state law in the European world and beyond      **Millennialism and Violence** Michael Barkun,2012-12-06 As

the world approaches the year 2000 many societies are experiencing an unprecedented growth in millenarian movements that anticipate an imminent and total transformation of the world Many of these movements have been associated with violence either as a means for producing change or as a response to confrontations with state authority This book draws together research on this topic from political science psychology sociology and history in an attempt to understand the relationship between millenarian movements and episodes of violence      **Nga Tini Whetu** Mason Durie,2011-12-01 Nga

Breward,2001-12-13 This pioneering study of Australian New Zealand and Pacific Christianity opens up new perspectives on Christianization and modernization in this richly complex region The reception of Christianity into Pacific cultures has produced strongly Christian societies Based on research in widely scattered archives this book not only deals with regional interactions but pays careful attention to developments in microstates and to the variety of indigenous religious movements which were earlier regarded as deviations from Christian orthodoxy but are now seen as significant adaptations of Christian teaching In Australia and New Zealand too European Christian beginnings have been given local emphases producing Churches with distinctive identities Lay leadership is emphasized not only in the Churches but as part of the Christian presence in the realms of politics business and culture The broad liturgical theological constitutional and pastoral developments of the 19th and 20th centuries are mapped as a context for the striking changes which have taken place since the 1960s The dynamics of religious change and conflict the ambiguities of religious authority and the destructive effects of Christian colonialism on indigenous communities especially Australian aborigines are all frankly dealt with The decline of the institutional impact of the Churches in Australia and New Zealand is explored as is the growth of partnership between government and Churches in education social welfare and overseas aid and development Interchange in personnel and ideas

is strikingly illustrated in the missionary activities of the regional Churches and their cultural impact The author s involvement in Church and community leadership ecumenism and theological education makes this volume in The Oxford History of the Christian Church a valuable addition to the series describing both continuities with world Christianity and little known local developments      **The Certainty of Doubt** Miles Fairburn,William Hosking Oliver,1996 Essays written by Peter Munz s friends and colleagues to celebrate his 75th birthday themes include history the philosophy of history the philosophy of science and the problems of knowledge reflect ing Munz s intellectual interests and achievements Back cover

*Encyclopedia of Religion and Nature* Bron Taylor,Jeffrey Kaplan,2005-01-01 No Marketing Blurb      *Missions and Empire* Norman Etherington,2005-07-14 The explosive expansion of Christianity in Africa and Asia during the last two centuries constitutes one of the most remarkable cultural transformations in the history of mankind Because it coincided with the spread of European economic and political hegemony it tends to be taken for granted that Christian missions went hand in hand with imperialism and colonial conquest In this book historians survey the relationship between Christian missions and the British Empire from the seventeenth century to the 1960s and treat the subject thematically rather than regionally or chronologically Many of these themes are treated at length for the first time relating the work of missions to language medicine anthropology and decolonization Other important chapters focus on the difficult relationship between missionaries and white settlers women and mission and the neglected role of the indigenous evangelists who did far more than European or North American missionaries to spread the Christian religion belying the image of Christianity as the white man s religion

European Police Forces and Law Enforcement in the First World War Jonas Campion,Laurent López,Guillaume Payen,2019-11-08 This book offers a global history of civilian military and gendarmerie style policing around the First World War Whilst many aspects of the Great War have been revisited in light of the centenary and in spite of the recent growth of modern policing history the role and fate of police forces in the conflict has been largely forgotten Yet the war affected all European and extra European police forces Despite their diversity all were confronted with transnational factors and forms of disorder and suffered generally from mass conscription During the conflict societies and states were faced with a crisis situation of unprecedented magnitude with mass mechanised killing on the battle field and starvation occupation destruction and in some cases even revolution on the home front Based on a wide geographical and chronological scope from the late nineteenth century to the interwar years this collection of essays explores the policing of European belligerent countries alongside their empires and neutral countries The book s approach crosses traditional boundaries between neutral and belligerent nations centres and peripheries and frontline and rear areas It focuses on the involvement and wartime transformations of these law enforcement forces thus highlighting underlying changes in police organisation identity and practices across this period      **Between Indigenous and Settler Governance** Lisa Ford,Tim Rowse,2013 This book addresses the history current development and future of indigenous self governance in five settler colonial nations Australia
