service Military Review In these mainly nocturnal fights when the Japanese navy was at its apex America's small fast boat flotillas darted in among the enemy fleet like a barroom brawl with the lights turned out Bryant Larson and Rollin Westholm preceded Kennedy as commanders of PT 109 and their fights leading the ship and its brave crew hold second to none in the chronicles of US Navy daring As the battles moved on across the Pacific the PT boat flotillas gained confidence even as the Japanese too learned lessons on how to destroy them Under its third and final commander Kennedy PT 109 met its fate as a Japanese destroyer suddenly emerged from a dark mist and rammed it in half Two crewmen were killed immediately but Kennedy formerly on the swim team at Harvard was able to shepherd his wounded and others to refuge His unsurpassed gallantry cannot resist retelling yet the courage of the book's previous commanders have not until now seen the light of day This book provides the complete record of PT 109 in the Pacific as well as a valuable glimpse of how the American Navy's daring and initiative found its full playing field in World War II

HMS Hood Daniel Knowles, 2019-07-15 For over twenty years the battlecruiser HMS Hood toured the world as the most iconic warship in the Royal Navy Unmatched in her beauty and charisma Hood is one of history's greatest warships During the twilight years of the British Empire the Hood toured the world showing the flag as a symbol of British power As the Royal Navy's show ship Hood came to command a special place in the hearts and minds of the British public Such was the regard for HMS Hood that her destruction in the Denmark Strait on the morning of 24 May 1941 by the German battleship Bismarck created dismay across the world Within minutes of entering battle the Mighty Hood as she was affectionately known was destroyed by a catastrophic explosion which had echoes of Jutland a quarter of a century earlier Out of a crew of a crew of 1 418 only 3 survived The sinking of HMS Hood was the single largest disaster ever sustained by the Royal Navy This book charts the life and death of this legendary battlecruiser in both peace and war from her early origins through the interwar years to her destruction

Seapower States Andrew Lambert, 2018-11-27 A fascinating geopolitical chronicle A superb survey of the perennial opportunities and risks in what Herman Melville called the watery part of the world The Wall Street Journal In this volume one of the most eminent historians of our age investigates the extraordinary success of five small maritime states Andrew Lambert author of *The Challenge Britain Against America in the Naval War of 1812* winner of the prestigious Anderson Medal turns his attention to Athens Carthage Venice the Dutch Republic and Britain examining how their identities as seapowers informed their actions and enabled them to achieve success disproportionate to their size Lambert demonstrates how creating maritime identities made these states more dynamic open and inclusive than their lumbering continental rivals Only when they forgot this aspect of their identity did these nations begin to decline Recognizing that the United States and China are modern naval powers rather than seapowers is essential to understanding current affairs as well as the long term trends in world history This volume is a highly original big think analysis of five states whose success and eventual failure is a subject of enduring interest by a scholar at the top of his game An intriguing series of stories of communities thinking seriously about how to stand their own ground when outpowered how to do so in ways that are consistent with their values and sometimes how to negotiate the descent from being a great power when the cards just aren't in their favor any more These are timely questions Times Higher Education Supplement Lambert is without a doubt the most insightful naval historian writing today The Times
