Sexual Ecstasy from Ancient Wisdom Summum Bonum Amen Ra,1993 **Our Non-Christian Nation** Jay

Wexler,2023-05-25 Essential reading for anyone interested in understanding the contemporary battles over religion's role in our national politics and culture Phil Zuckerman author of Living the Secular Life Less and less Christian demographically America is now home to an ever larger number of people who say they identify with no religion at all These non Christians have increasingly been demanding their full participation in public life bringing their arguments all the way to the Supreme Court The law is on their side but that doesn't mean that their attempts are not met with suspicion or outright hostility In Our Non Christian Nation Jay Wexler travels the country to engage the non Christians who have called on us to maintain our ideals of inclusivity and diversity With his characteristic sympathy and humor he introduces us to the Summum and their Seven Aphorisms a Wiccan priestess who would deck her City Hall with a pagan holiday wreath and other determined champions of free religious expression As Wexler reminds us anyone who cares about pluralism equality and fairness should support a public square filled with a variety of religious and nonreligious voices The stakes are nothing short of long term social peace A timely at times funny and compelling piece of reportage looking at a variety of religious groups as well as a strong argument for the importance of a pluralistic society The Boston Globe In this brilliantly erudite and hugely entertaining romp through recent religious and legal history Jay Wexler shows why as our country becomes more religiously diverse non Christians need to get their voices heard and Christians need to help repair the wall between church and state A marvelous read Michael Shermer Skeptic **Aliens Adored** Susan J. Palmer,2004 Aliens Adored is the first full length in depth look at the Ra lian movement a fascinating new religion founded in the 1970s by the charismatic prophet Ra l Born in France as Claude Vorilhon the former race car driver founded the religion after he experienced a visitation from the aliens the elohim who in his cosmology created humans by cloning themselves This pioneering study provides a thorough analysis of the movement focusing on issues of sexuality millenarianism and the impact of the scientific worldview on religion and the environment Ra l's radical sexual ethics his gnostic anthropocentrism and shallow ecotheology offer us a mirror through which we see how our worldview has been shaped by the forces of globalization postmodernism and secular humanism
