Sexual Life In Sexual Greece:

Sexual Life in Ancient Greece Hans Licht,1963 **Sexual Life in Ancient Greece - With Thirty-Two Full-Page Plates** Hans Licht,2018-08-10 Hans Licht's *Sexual Life in Ancient Greece* provides a fascinating account of ancient Greek society with a focus on sexuality Exploring many different aspects of daily life from marriage customs and clothing to festivals and beauty contests it offers a fantastic overview of Greek society and ideals not to be missed by those with an interest in the subject Contents include Greek Ideals of Life Marriage and the Life of Women The Greek Woman Marriage Customs Additions and Supplementary Information The Human Figure Clothing Nakedness Gymnastics Beauty Contests and Further Remarks on Nakedness Bathing Festivals etc Many vintage books such as this are increasingly scarce and expensive It is with this in mind that we are republishing this volume now in an affordable modern high quality edition complete with a specially commissioned new introduction on Greek mythology *Sexual Life in Ancient Greece* Hans Licht (pseud.),1932

Sex and the Ancient City Andreas Serafim,George Kazantzidis,Kyriakos Demetriou,2022-05-09 This volume aims to revisit further explore and tease out the textual but also non textual sources in an attempt to reconstruct a clearer picture of a particular aspect of sexuality i e sexual practices in Greco Roman antiquity Sexual practices refers to a part of the overarching notion of sexuality specifically the acts of sexual intercourse the erogenous capacities and genital functions of male and female body and any other physical or biological actions that define one's sexual identity or orientation This volume aims to approach not simply the acts of sexual intercourse themselves but also their legal social political religious medical cultural moral and interdisciplinary e g emotional performative perspectives as manifested in a range of both textual and non textual evidence i e architecture iconography epigraphy etc The insights taken from the contributions to this volume would enable researchers across a range of disciplines e g sex gender studies comparative literature psychology and cognitive neuroscience to use theoretical perspectives methodologies and conceptual tools to frame the sprawling examination of aspects of sexuality in broad terms or sexual practices in particular *The Reign of the Phallus* Eva C. Keuls,1993-04-27 At once daring and authoritative this book offers a profusely illustrated history of sexual politics in ancient Athens where the phallus dominated almost every aspect of public life Complementing the text are 345 reproductions of Athenian vase paintings depicting the phallus *Sexual Life in Ancient Greece* Paul Brandt,1974 **The Sex Atlas** Erwin J. Haeberle,2020-05-18 No detailed description available for The Sex Atlas **Sex the Measure of All Things** Jonathan Gathorne-Hardy,2000 The life story of the sex researcher whose statistics were so extensive that only ten percent went into his two published books and most of the data is still being actively mined today Jacket *The Origins and Role of Same-Sex Relations in Human Societies* James Neill,2011-10-17 This groundbreaking work draws on a vast range of research into human sexuality to demonstrate that homosexuality is not a phenomenon limited to a small minority of society but is an aspect of a complex sexual harmony that the human race inherited from its animal ancestors Through a survey of the

patterns of sexual expression found among animals and among societies around the world and an examination of the functional role homosexual behavior has played among animal species and human societies alike the author arrives at some provocative conclusions that a homosexual or bisexual phase is a normal part of sexual development that same sex relations play an important balancing role in regulating human reproduction that many societies have institutionalized homosexual traditions in the past and that the harsh condemnation of homosexuality in Western society is a relatively recent phenomenon unique among world societies throughout history This well researched and meticulously documented book is the first that integrates into a coherent picture the startling revelations about human sexuality coming from the recent work of sexual researchers psychologists anthropologists and historians The view that emerges of an ambisexual human species whose complex sexual harmony is being thwarted by the imposition of an artificial understanding of nature represents a new way of thinking about sex *Sexual Life in Ancient Greece ...* Paul Brandt, Lawrence Hawkins Dawson, 1932
