Sexuality And Space:

Sexuality & Space Beatriz Colomina, Jennifer Bloomer, 1992 Both timely and well worth the time Thomas Keenan Newsline aia Award Winner Oculus Bestseller **Notes on Sexuality and Space** Samuel Ray Jacobson, Massachusetts Institute of Technology. Department of Architecture, 2013 Very little has been written on sexuality in architectural scholarship **Sexuality Space** Princeton Architectural Press 1992 contains the proceedings of an eponymous 1990 conference at Princeton University and was both the first and last book length publication dedicated to a comprehensive discourse on sexual identity within the discipline of architecture While symposium organizer and proceedings editor Beatriz Colomina writes in the proceedings introduction that the occasion s effort to raise the question of Sexuality and Space was but one small event in an ongoing discourse that discourse failed to materialize To the extent that feminist theorists conspicuously ignored in architectural discourse and practice are addressed by **Sexuality Space** the interdisciplinary exchange in which theories of sexuality are reread in architectural terms and architecture is reread in sexual terms by its essays asserts the very silence that its inquiry ostensibly alleviated By carefully examining the constative impact of literary style within the publication **Sexuality Space** that is by looking at how the use of language therein impacts that document s inscription of its intellectual and historical context I have come to a better understanding of how that publication was both the beginning and end of the conversation it sought to inaugurate **Notes on Sexuality and Space** investigates three related essays from that publication Laura Mulvey s Pandora Topographies of the Mask and Curiosity Beatriz Colomina s The Split Wall Domestic Voyeurism and Mark Wigley s Untitled The Housing of Gender Each investigated essay has been given a corresponding chapter My method has been close reading or the sustained interpretation of brief passages of text Paying close attention to individual words syntax and the order in which ideas unfold as they are read I have developed a comprehensive narrative of how these three essays together both instantiate and negate a shared discourse To these ends this thesis raises serious questions about what it means to have historiography after silence and what it means to re open an already closed discourse

Lesbianism, Cinema, Space Lee Wallace, 2011-01-13 In this cutting edge volume Wallace identifies a unique trend in post Production Code films that deal with lesbian content stories of lesbianism invariably engage with an apartment setting a spatial motif not typically associated with lesbian history or cultural representation Through the formal analysis of five lesbian apartment films Wallace demonstrates how the standard repertoire of visual techniques and spatial devices the elements of mise en sc ne favoured locations and sets classical systems of editing and the implied story world itself are used to scaffold female sexual visibility With its sustained focus on the filmic syntax surrounding lesbian representation on screen in the post Production Code era the book comprises an original contribution to queer film studies In addition Wallace also deploys its discussion of lesbianism and cinematic space to critique a number of tendencies in contemporary social theory particularly the theoretical identification of public sex cultures as the basis for a queer counterpublic sphere **Sexuality,**

Rurality, and Geography Andrew Gorman-Murray, Barbara Pini, Lia Bryant, 2012-12-27 This international edited collection contributes to knowledge about the geographies of sexualities experienced and imagined in rural spaces The book draws attention to the heterogeneity of rural contexts and the diversity of meanings about sexualities within and across these spaces The collection examines four key themes First Intimacies and Institutions focuses on how intimate relationships are governed by societal discursive and institutional structures and regulated by social political and legal frames of citizenship and belonging The chapters present historical and contemporary case studies of the constitution and management of intimate sexual lives and relationships in rural and non metropolitan spaces Second Communities explores how sexual identities are socially constructed and relationally performed in rural communities scrutinizing the complex interplay of belonging and alienation inclusion and exclusion for sexual subjects and communities within rural spaces Analyzing films literature and interviews the chapters examine sexuality and community and queer notions of rural family and community Third Mobilities examines movement migration at different scales Cross national data provides insights into similarities and differences in rural migration and homemaking for lesbians gay men and same sex families The chapters consider how movement coming out and memories of time and place inflect home identity and belonging for rural lesbians and gay men Fourth Production and Consumption investigates the commodification of rural sexualities The chapters interrogate the management of animal bodies and sexualities in industrial agriculture for consumer pleasure and commercial ends how heterosexuality and sexual relations are transacted in mining communities and the global commodification of rural masculine sexualities This book is timely It provides important new insights about ruralities and sexualities filling a gap in theoretical and empirical understandings about how sexualities in diverse rural spaces are given meaning This collection begins the processes of furthering discussion and knowledge about the inherently dynamic and constantly changing nature of the rural and the multiple varied and complex sexual subjectivities lived through corporeal experiences and virtual and imagined lives

Closet Space Michael P. Brown, 2005-08-29 Is the closet just a metaphor Closet Space provides a highly original account of the spatial metaphor of the closet and is the first geography text to focus on this important issue Using a variety of research techniques and materials the book explores the closet through texts including the oral histories of gay men in the UK and US the sexualised landscape of a New Zealand city the national census of Britain and the US international travel guides and travelogues and refers to the work of Butler Lefebvre and Foucault *Gender, Sexuality, and Space Culture* Kat Deerfield, 2019-08-28 Gender Sexuality and Space Culture explores how traditional ideologies of gender and sexuality have influenced the culture of space travel The time since humans first began exploring outer space has been marked by both great technological development and great social upheaval Yet while the rapid technological advancement of the mid to late twentieth century made human spaceflight a reality the field has shown some resistance to cultural change over the same period Ideas about the body in space and the future of humanity are at the core of the development of human spaceflight This

book examines how these have been constructed as specifically a male body and a heterosexual future These presumptive norms are not unusual but this book argues that the unique attributes of outer space can be productively used in advancing theories of culture beyond the extra terrestrial *Cities and Sexualities* Phil Hubbard, 2013-03-01 From the hotspots of commercial sex through to the suburbia of twitching curtains urban life and sexualities appear inseparable Cities are the source of our most familiar images of sexual practice and are the spaces where new understandings of sexuality take shape In an era of global business and tourism cities are also the hubs around which a global sex trade is organised and where virtual sex content is obsessively produced and consumed Detailing the relationships between sexed bodies sexual subjectivities and forms of intimacy *Cities and Sexualities* explores the role of the city in shaping our sexual lives At the same time it describes how the actions of urban governors city planners the police and judiciary combine to produce cities in which some sexual proclivities and tastes are normalised and others excluded In so doing it maps out the diverse sexual landscapes of the city from spaces of courtship coupling and cohabitation through to sites of adult entertainment prostitution and pornography Considering both the normative geographies of heterosexuality and monogamy as well as urban geographies of radical queer sex this book provides a unique perspective on the relationship between sex and the city *Cities and Sexualities* offers a wide overview of the state of the art in geographies and sociologies of sexuality as well as an empirically grounded account of the forms of desire that animate the erotic city It describes the diverse sexual landscapes that characterise both the contemporary Western city as well as cities in the global South The book features a wide range of boxed case studies as well as suggestions for further reading at the end each chapter It will appeal to undergraduate students studying Geography Urban Studies Gender Studies and Sociology *Space, Place, and Sex* Lynda Johnston, Robyn Longhurst, 2010 This accessible and engaging book explores the ways that space place and sex are inextricably linked from the micro to the macro level from the individual body to the globe Drawing on queer feminist gender social and cultural studies Lynda Johnston and Robyn Longhurst highlight the complex nature of sex and sexuality and how they are connected to both virtual and physical spaces and places Their aim is to enrich our understanding of sexual identities and practices whether they be lesbian gay bisexual transsexual asexual queer or heterosexual They show that bodies are defined and connected through media such as television movies ads and the Internet as well as through real places such as homes churches sports arenas city streets beaches and wilderness Drawing on a diverse array of historical and contemporary examples the authors argue convincingly that sexual politics permeate all places and spaces at every level of geographical scale Thus they illustrate sexuality affects the way people live in and interact with space and place as space and place in turn affect people's sexuality *Space, Place, and Sex* Lynda Johnston, Robyn Longhurst, 2010 This accessible and engaging book explores the ways that space place and sex are inextricably linked from the micro to the macro level from the individual body to the globe Drawing on queer feminist gender social and cultural studies Lynda Johnston and Robyn Longhurst highlight the complex nature of sex and sexuality

and how they are connected to both virtual and physical spaces and places Their aim is to enrich our understanding of sexual identities and practices whether they be lesbian gay bisexual transsexual asexual queer or heterosexual They show that bodies are defined and connected through media such as television movies ads and the Internet as well as through real places such as homes churches sports arenas city streets beaches and wilderness Drawing on a diverse array of historical and contemporary examples the authors argue convincingly that sexual politics permeate all places and spaces at every level of geographical scale Thus they illustrate sexuality affects the way people live in and interact with space and place as space and place in turn affect people s sexuality
