unrecognized form of human sexuality which can contribute new understandings to the range and breadth of what it means to be a sexual being This book will be of interest to anyone in the area of asexuality or sexuality psychoanalysts psychotherapists psychologists psychiatrists university lecturers researchers students or those simply curious about the possibilities of the human sex drive *Lacan and Critical Feminism* Rahna McKey Carusi,2020-12-29 This book takes a critical feminist approach to Lacan s fundamental concepts merging discourse and sexuation theories in a novel way for both psychoanalysis and feminism and exploring the possibility of a feminist subject within a non masculine logic In Lacan and Critical Feminism Carusi merges Lacan s theories of discourse and sexuation not only from a gender sexuality angle but also from a literary feminist and women s studies framework By drawing examples from literature film art and socio political movements to focus on discourse and sexuation the text examines how tropes impact the subject s positionality within any discourse mode The book also uses women s collective experience and action to illustrate ways that women have repositioned dominant narratives discursively This text represents essential reading for researchers interested in the relationship between Lacan and feminist theory *Evolving Lacanian Perspectives for Clinical Psychoanalysis* Raul Moncayo,2018-03-26 This book presents an evolving Lacanian reading of the psychoanalytic theory of narcissism of the phases within Oedipus transference and within different types of analytic treatments Sexual difference between psychical masculinity and femininity is formulated as a negative dialectic both sexes are not without having and not having the phallus across levels of logical organization and the three registers of experience Many clinical examples and vignettes are offered to illustrate Lacanian theory the permutations within sexuation as well as the various principles of Lacanian clinical practice The Lacanian multiform criterion for the practice of psychoanalysis is presented as an alternative to the post Freudian notions of a standard frame or a holding environment The criterion extends the use of psychoanalysis to a larger group of clinical socio economic and multicultural populations Finally the book explores the criteria used for the authorization of the analyst and how supervision differs from analysis and from the teacher student and lover beloved relationships **Sociology Through the Projector** Bulent Diken,Carsten Bagge Laustsen,2008-10-01 Sociology through the Projector takes issue with the question of how contemporary film can help answering the general abstract but still urgent question what is the social today This book explains the performative relation to contemporary social theory in which cinema functions as a tool for social diagnosis There is much to be learned about social theory through an encounter with films as films are part and parcel of the society they portray Increasingly more lay knowledge about social problems and facts stems from cinema as it offers to large audiences a popular and pedagogical introduction to social knowledge Social theory cannot avoid a critical engagement with cinema as cinema interprets invents displaces and distorts the object of sociological inquiry This book will provide a deeper understanding of contemporary social theory as the chosen films will work as a pedagogical route into contemporary social theory The films represent a mix of European and American blockbusters and more aesthetically orientated films The authors

question several dominant topics and concerns within social theory and film studies Firstly by cross examining a series of concepts such as identity representation memory and surveillance filming social behaviour which are of concern to both film theory and social theory Secondly by trying to develop imaginative approaches to standard social concerns such as exclusion gender roles and inequalities power infantilisation and commodification of the social and psychological bonds This book will be a great resource for students and researchers of Sociology Contemporary Social Theory Film Studies and Cultural Studies

Lacan and Fantasy Literature Josephine Sharoni, 2017-07-03 Eschewing the all pervading contextual approach to literary criticism this book takes a Lacanian view of several popular British fantasy texts of the late 19th century such as Bram Stoker's Dracula revealing the significance of the historical context the advent of a modern democratic urban society in place of the traditional agrarian one Moreover counter intuitively it turns out that fantasy literature is analogous to modern Galilean science in its manipulation of the symbolic thereby changing our conception of reality It is imaginary devices such as vampires and ape men which in conjunction with Lacanian theory say something additional of the truth about primarily sexual aspects of human subjectivity and culture repressed by the contemporary hegemonic discourses
