Shadow Over China:

The People's Republic of China Jeff Hay, 2012-10-26 This volume explores genocide and persecution in the People's Republic of China including the historical and cultural background of events from the rise of the communist People's Republic of China in 1949 to the present Issues surrounding events such as China's Great Leap Forward the Cultural Revolution the Tiananmen Square crackdown and the treatment of minority groups and political dissidents in China are richly examined Personal narratives from people touched by the events in China including childhood memories of growing up during the Great Leap Forward and the Cultural Revolution and the recent experiences of a Uighur activist **China's India War** Bertil Lintner, 2018-01-25 The Sino Indian War of 1962 delivered a crushing defeat to India not only did the country suffer a loss of lives and a heavy blow to its pride the world began to see India as the provocateur of the war with China merely defending its territory This perception that China was largely the innocent victim of Nehru's hostile policies was put forth by journalist Neville Maxwell in his book India's China War which found readers in many opinion makers including Henry Kissinger and Richard Nixon For far too long Maxwell's narrative which sees India as the aggressor and China as the victim has held court Nearly 50 years after Maxwell's book Bertil Lintner's China's India War puts the border dispute into its rightful perspective Lintner argues that China began planning the war as early as 1959 and proposes that it was merely a small move in the larger strategic game that China was playing to become a world player one that it continues to play even today The Impact of China's 1989 Tiananmen Massacre Jean-Philippe Béja, 2010-11-18 The 1989 pro democracy movement in China constituted a huge challenge to the survival of the Chinese communist regime This book assesses the impact of the movement and of the ensuing repression on the political evolution of the People's Republic of China It discusses how the events of 1989 are remembered and have affected China's international relations and diplomacy how human rights law enforcement policing and liberal thought have developed over two decades *To Govern China* Vivienne Shue, Patricia M. Thornton, 2017-10-26 How practically speaking is the Chinese polity as immense and fissured as it has now become actually being governed today Some analysts highlight signs of progress in the direction of more liberal open and responsive rule Others dwell instead on the many remaining obstacles to a hoped for democratic transition Drawing together cutting edge research from an international panel of experts this volume argues that both those approaches rest upon too starkly drawn distinctions between democratic and non democratic regime types and concentrate too narrowly on institutions as opposed to practices The prevailing analytical focus on adaptive and resilient authoritarianism a neo institutionalist concept fails to capture what are often cross cutting currents in ongoing processes of political change Illuminating a vibrant repertoire of power practices employed in governing China today these authors advance instead a more fluid open ended conceptual approach that privileges nimbleness mutability and receptivity to institutional and procedural invention and evolution *China's Challenges* Jacques deLisle, Avery Goldstein, 2014-10-24 When the fifth

generation of Communist Party leaders in China assumed top political positions in 2012 2013 they took the helm of a country that has achieved remarkable economic growth political stability and international influence Yet China today confronts challenges at least as daunting as any it has faced since the reform era began in the late 1970s In November 2013 the Chinese Communist Party's Central Committee announced ambitious reforms to address vital issues such as giving market forces a decisive role in the economy strengthening the social safety net assigning greater weight to factors other than economic growth and social order in evaluating local officials promoting urbanization and relaxing the one child policy China's Challenges brings together fourteen experts on China's social economic political legal and foreign affairs to examine some of the nation's pivotal policy issues Their wide ranging analyses cover economic and social inequality internal migration and population control imperatives to rebalance China's economy toward domestic demand and consumption problems of official corruption tensions between legal reform and social order and the strained relationships with neighboring countries and the United States that stem from China's rising power military modernization enduring territorial disputes and rising nationalism in domestic politics This timely volume offers a broad and comprehensive look at the issues facing China today and lays the groundwork for understanding the shifts to come How and how well China handles these challenges not only will define China's trajectory for years to come but will have repercussions far beyond China's borders Contributors Yong Cai Jacques deLisle Jane Duckett Andrew Erickson M Taylor Fravel Avery Goldstein Yasheng Huang Zai Liang Benjamin Liebman Melanie Manion Barry Naughton Daniela Stockmann Robert Sutter Guohui Wang
