Shadow Play Shadow And Light In Contemporary Art A Homage To Hans Christian Andersen:

Grasping Shadows William Chapman Sharpe, 2017-08-04 Grasping Shadows offers the most thorough examination of the cultural uses of shadows Exploring a myriad of major literary and artistic evocations of shadows Grasping Shadows puts forth a unifying theory for how shadows function and how they transformed our relationship to darkness and light Vera Röhm Vera Röhm, Eugen Gomringer, Stephen Bann, 2006 Both a sculptor and a photographer German born Vera Röhm is best known for her unorthodox approach to visual art Using a repertoire of only elementary geometrical shapes Röhm's incisions mutilations and cross sections of various materials evoke the very real challenges of restoration and reconstruction Vera Röhm is the first comprehensive collection of this contemporary artist's work to be presented to an English speaking public It explores the changing shape of Röhm's art in such installations as Integrations and Shadow Objects as her photographs of the Jaipur Observatory and works such as the cube series bearing the inscription Night is the Earth's Shadow which form part of a significant corpus of work connected with language Accompanied by essays from renowned poet and critic Eugen Gomringer and the art historian Stephen Bann Vera Röhm is lavishly illustrated with images from her exhibitions Luc Tuymans Eva Meyer-Hermann, 2018-01-09 This first volume in a catalogue raisonné of Tuymans's paintings surveys nearly 200 works from the vital early years of his career Credited with a key role in the revival of painting in the 1990s Belgian artist Luc Tuymans b 1958 continues to produce subtle and at times unsettling works that engage with history technology and everyday life This first volume in a catalogue raisonné of Tuymans's paintings surveys nearly 200 works that were vital to his artistic development The years 1972 to 1994 witnessed the maturation of his signature method of painting from preexisting imagery such as magazine images Polaroids and television footage as well as his first solo exhibition Also dating from this period are many of his seminal canvases along with ten poignant portraits of the ailing human body and the enigmatic series Superstition that comprised his first works exhibited in the United States The catalogue features brilliant new photography of each of the paintings and an illustrated chronology with archival images and installation shots of the works in this volume This publication is a testament to Tuymans's persistent assertion of the relevance and importance of painting a conviction that he maintains even in today's digital world when his work continues to be a touchstone for artists and scholars Alibis Kathy Halbreich, Mark Benjamin Godfrey, Lanka Tattersall, Magnus Schaefer, 2014 Working across an unusually broad range of media including painting photography film drawing and sculpture Sigmar Polke German 1941 2010 is widely regarded as one of the most influential and experimental artists of the post war generation Published in conjunction with an exhibition at The Museum of Modern Art this richly illustrated publication provides an overview of Polke's cross disciplinary innovations and career It features more than 500 illustrations and 18 contributions by scholars and artists that examine the full range of Polke's exceptionally inventive oeuvre Authors such as exhibition curators Kathy Halbreich Mark Godfrey and Lanka Tattersall artists John Kelsey and Jutta Koether and renowned professors Benjamin Buchloh and Christine Mehring discuss a

wide range of topics that include Polke's engagement with German history abstraction and the paranormal his continuous questioning of conventional artistic disciplines and social norms and his experiments with materials and tools as diverse as toxic pigments patterned fabrics images taken from a vast range of sources and the Xerox machine Four lead essays trace broad themes in Polke's work across mediums and across his career while twelve shorter texts each focus on a single work or aspect of Polke's practice which allows for a concentrated consideration of critical issues such as Polke's use of language or textiles that have never been discussed before in any depth A richly illustrated chronology presents a cultural frame for Polke's work and an interview with Benjamin Buchloh offers insight on Polke's first retrospective held in 1976 The catalogue includes contributions by a wide range of authors with great expertise most of whom have never published on Polke before thus broadening the scope of scholarship on Polke and offering new thinking about this chameleon like artist
