Shadowrun ,1990-04 **The Grimoire** Contemporary Books,1990-07 An expansion of the magic rules from Shadowrun
Forthcoming Books Rose Army,1990 *The Publishers Weekly* ,1995 *Grimoire II* Paul R. Hume,Fasa,FASA
Corporation,1993-04 **Notes from the Field** William Jevning,2010-02-21 From the most ancient time of human existence
stories of strange man animals have been passed down in legends and myth These stories have been told in all parts of the
world and are remarkably similar How could such stories be created and why Could the collective unconscious memory of
humanity hold within it lurking shadows of creatures we once knew Creatures that today exist only as legend and myth could
there be more is there more Fossil records firmly establish that once there did exist a giant ape like creature called
Gigantopithecus Scientists have determined that this ape like creature was between 10 and 12 feet in height and weighed
approximately 1 200 pounds This creature actually did exist but no one really knows much more about it other than its
weight and height and no one knows anything about its behavioral characteristics Could it have been the ancestor to the
sasquatch of today no one really knows nor does it matter The simple fact that such creatures did exist at one time makes the
possibility of ape like giants existing today real Notes From the Field Tracking North America s sasquatch is a study into this
issue it covers ancient descriptions from different parts of the world and tracks this creature to modern times and discusses
recent field discoveries **National Audubon Society Pocket Guide: Familiar Animal Tracks of North America** John
Farrand,National Audubon Society,1993-02-09 A photographic guide to tracks made by animals plus facts about each kind
Half-Human Monsters and Other Fiends Ruth Owen,2013-01-01 Could half human half ape creatures really roam the
Himalayan Mountains and the forests of North America If tales of Bigfoot Yeti and Sasquatch are just stories why do so many
people report seeing these monsters in remote areas around the world What would it be like to come upon a footprint of the
Abominable Snowman or catch sight of Mothman and how can you tell if the creature lurking down the path is part human
and part beast In *Half Human Monsters and Other Fiends* young readers will read historical stories and modern day accounts
of encounters with half human monsters Kids will get all the facts they need to help them spot Bigfoot Mothman ghouls and
other supernatural creatures Children will also investigate the truth behind the stories exploring the fears and superstitions
of different cultures and looking at the scientific facts that might explain the seemingly unexplainable If you love a nerve
racking story but also want to investigate the truth behind the myths this is the book for you **Varmints** Chad
Arment,2010-06-01 *Varmints* is a cryptozoological survey of mystery carnivore folklore stories and sightings in North
America Black panthers maned felines giant polar bears dwarf grizzlies and many more alleged predators have been reported
though most are dismissed out of hand by wildlife officials Cryptozoology researchers and enthusiasts alike will find cases
worth exploring and some tantalizing leads for future investigation **Animals of North America** Christina
