Excerpt from Shakespeare and Astrology From a Student s Point of View If the prognostications of the Science of Planetary
In u ence as to its own future are to be considered worthy of atten tion we may regard ourselves as living on the eve of an
interest ing era at the present time Whether Astrology and its presages be or be not adapted to the use of intelligent people
is a ques tion on which even they agree to differ we all have what Arte mus Ward used to call our idiot syncrasies many there
are who hold that the question never attained the dignity of being one probably the position of those alone is safe who have
learned to reserve their judgment until that which forms the basis of so much adverse criticism is removed namely a lack of
acquaint ance with the subject Of one thing we on this planet may rest assured if the fortress of our reason is not yet ready to
capitulate to anything that comes with such queer credentials there is at least consid erable knocking at the gate going on at
present The signs in deed are plentiful that this aged once esteemed now jeered at science occupies not only wider ground
today than it has yet done in our modern life but that public interest in it is rapidly on the increase Astronomers are kept
busy preparing Ephemer ides of the Planets Places from year to year there are well estab lished publications of the kind
public library authorities see fit not only to inlay their vestibules with the Zodiacal Signs but also to include a considerable
amount of the literature on the subject in their lists teachers more or less qualified there are in plenty serious students
abound in short it would seem that Astrology is now ready for that vigorous opposition and misrepresentati on which is
always at hand when a great ques tion is ripening for consideration About the Publisher Forgotten Books publishes hundreds
