

ONCE MORE UNTO THE BREACH

Once more unto the breach,
dear friends, once more; Or
close the wall up with our
English dead.

In peace there's nothing so
becomes a man as modest
stillness and humility: But
when the blast of war blows
in our ears, Then imitate the
action of the tiger; Stiffen the
sinews, summon-up the
blood, disguise fair nature
with hard-favour'd rage; then
lend the eye a terrible aspect;

Let pry through the portage
of the head like the brass
cannon; let the brow o'er-
whelm it as fearfully as doth
a galled rock o'erhang and
jutty his confounded base,
swill'd with the wild and
wasteful ocean

Now set the teeth and stretch
the nostril wide, hold hard
the breath and bend up every
spirit To his full height. On,
on, you noblest English.
Whos blood is fet from fathers
of war-proof!.

Fathers that, like so many
Alexanders, have in these parts
from morn till even fought and
sheathed their swords for lack
of argument: Dishonour not your
mothers; now attest that those
whom you call'd fathers did
beget you.

Be copy now to men of grosser
blood, and teach them how to
war. And you, good yeoman,
whose limbs were made in
England, show us here the
mettle of your pasture; let us
swear that you are worth your
breeding; which I doubt not;
For there is none of you so
mean and base, that hath not
noble lustre in your eyes.

I see you stand like greyhounds in
the slips, straining upon the start.
The game's afoot: Follow your
spirit, and upon this charge
Cry 'God for Harry, England, and
Saint George!'

Andrea Simmons, 2015-02-05 The role of the information security manager has changed. Have you? The challenges you face as an information security manager (ISM) have increased enormously since the first edition of *Once more unto the breach* was published. What seemed exceptional in 2011 is the norm in 2015: vulnerabilities have been experienced across all operating systems, millions of individuals have been affected by data breaches, and countless well-known companies have fallen victim to cyber attacks. It's your duty to ensure that your organisation isn't next. The ISM's information security responsibilities now cover all aspects of the organisation and its operations and relate to the security of information in all forms, locations, and transactions across the organisation and beyond. Topics covered include Project management, Physical security, Password management, Consumerisation, BYOD, Audit log management, Vulnerability management, Cloud computing, Incident reporting, Penetration testing, Linking information security with records management, Privacy impact assessments, Internal auditing. In this revised edition of *Once more unto the breach*, Andrea C. Simmons uses her extensive experience to provide an important insight into the changing role and responsibilities of the ISM, walking you through a typical ISM's year and highlighting the challenges and pitfalls of an information security programme. One of the key failures of security change management is that it is perceived as a project instead of a programme and is therefore mistakenly assumed to have an end. *Once more unto the breach* explains why information security is an ongoing process, using the role of project manager on a programme of change to highlight the various incidents and issues that arise on an almost daily basis and often go unnoticed. A major challenge for the ISM is achieving all-important buy-in from their colleagues. *Once more unto the breach* explains how to express the importance of the tasks you are undertaking in language that executive management will understand. You'll also discover the importance of having a camera with you at all times. For too long, security has been seen as more of an inhibitor than an enabler. *Once more unto the breach* is an invaluable resource that will help you improve this perception and achieve better overall information protection results as a result. About the author: Andrea C. Simmons is an information governance specialist with extensive experience in the private and public sectors. She has made significant contributions to the development of standards and industry research and is currently working on a PhD in information assurance. She writes articles and blogs and presents at conferences, seminars, and workshops. Andrea is a member of many professional bodies and has just been awarded Senior Member status by the Information Systems Security Association (ISSA).
