Shakespeare Varied Perspectives New World Literature Series:

Early Modern Drama and the Eastern European Elsewhere Monica Matei-Chesnoiu, 2009 This study explores how Eastern European spaces and meanings are constituted in specific cultural contexts in early modern English drama Focusing on the ways in which these texts integrate the articulation of Eastern European space and geography into a variety of interpretative conventions the book develops ways of thinking critically and reflexively about the production of knowledge and identity in Shakespeare and his contemporaries through representations of space in drama **Shakespeare in the Romanian**

Cultural Memory Monica Matei-Chesnoiu, 2006 This book with a foreword by Arthur F Kinney covers the major issues of the stage history and translation in the negotiation between Romanian culture and Shakespeare raising questions about what a Shakespeare play becomes when incorporated in a different and allegedly liminal culture The study reflects the growing cross fertilization of approaching Shakespeare in Romanian translations productions literary adaptations and criticism looking at the way in which Romania's collective cultural memory is constructed re-examined and embedded in the adoption of Shakespeare in certain periods While it posits the problematics in the historical development of Shakespeare's presence in Romanian culture the study gives a detailed history of the translations and productions of the plays focusing on the most significant aspects of their literary social and political appropriation over the past two centuries The Routledge Research Companion to Shakespeare and Classical Literature Sean Keilen, Nick Moschovakis, 2017-03-31 In this wide ranging and ambitiously conceived Research Companion contributors explore Shakespeare's relationship to the classic in two broad senses The essays analyze Shakespeare's specific debts to classical works and weigh his classicism's likeness and unlikeness to that of others in his time they also evaluate the effects of that classical influence to assess the extent to which it is connected with whatever qualities still make Shakespeare himself a classic arguably the classic of modern world literature and drama The first sense of the classic which the volume addresses is the classical culture of Latin and Greek reading translation and imitation Education in the canon of pagan classics bound Shakespeare together with other writers in what was the dominant tradition of English and European poetry and drama up through the nineteenth and even well into the twentieth century Second and no less central is the idea of classics as such that of books whose perceived value exceeding that of most in their era justifies their protection against historical and cultural change The volume's organizing insight is that as Shakespeare was made a classic in this second antiquarian sense his work's reception has more and more come to resemble that of classics in the first sense of ancient texts subject to labored critical study by masses of professional interpreters who are needed to mediate their meaning simply because of the texts growing remoteness from ordinary life language and consciousness The volume presents overviews and argumentative essays about the presence of Latin and Greek literature in Shakespeare's writing They coexist in the volume with thought pieces on the uses of the classical as a historical and pedagogical category and with practical essays on the place of ancient classics in today's Shakespearean classrooms

Shakespeare Scholars in Conversation Michael P. Jensen, 2019-07-15 Twenty four of today's most prominent Shakespeare scholars discuss the best known works in Shakespeare studies along with some nearly forgotten classics that deserve fresh appraisal. An extensive bibliography provides a reading list of the most important works in the field. A filmography then lists the most important Shakespeare films along with the films that influenced Shakespeare filmmakers. Interviewees include Sir Stanley Wells, Sir Jonathan Bate, Sir Brian Vickers, Ann Thompson, Virginia Mason Vaughan, George T. Wright, Lukas Erne, MacDonald P. Jackson, Peter Holland, James Shapiro, Katherine Duncan Jones, and Barbara Hodgdon. Shakespeare Vikram Chopra, 1996 Contributed articles The Classic and Creativity Jiang Zhuyu, 2025-09-04 This book explores the complex dialectical interplay between the classic and creativity through a unique comparative lens that bridges Chinese and Western literary traditions. The interplay between the classic and creativity has been a fundamental question in literary criticism, although readers may be more familiar with discussions from the Western literary tradition such as T. S. Eliot's seminal essay *Tradition and the Individual Talent*. In this comparative study, the author examines the parallel discussions in both Chinese and Western literary traditions, highlighting the inherently dialectical relationship between classics and creativity. She introduces the rich traditions of poetry and poetics from ancient China to modern times; equally illuminating is her commentary on Western literary critics such as Alexander Pope, William Wordsworth, T. S. Eliot, and Oscar Wilde. Her engagement with literary works such as Shakespeare's *The Tempest* and the *Book of Poetry*, and with literary practices such as adaptation and commentary, is also remarkable as she addresses the contemporary challenges of studying the classics in an age of world literature. Clear and accessible, this work in East-West comparative poetics will be valuable to scholars and students of literary theory, comparative literature, and world literature. Bringing Forth the Bard Zoe Enser, 2022-05-06 Foreword by Professor Emma Smith. The more you explore the plays of Shakespeare, the more you realise how they are an interrelated network of ideas and themes linked to his context, his audience, and his understanding of the world. In *Bringing Forth the Bard*, Zoe Enser equips busy teachers with the core knowledge that will enable them to make links between the themes, characters, language, and allusions in Shakespeare's oeuvre. Each chapter includes tips on how to bring his plays to life in the classroom and features case studies from practising teachers in a range of contexts to illustrate how they can ensure that their students develop an appreciation of his work, moving beyond the requirements of exams and empowering them to engage in the discussion around his influence and enduring appeal. Underpinned by the author's academic enquiries on the subject at both undergraduate and master's level, the book enables teachers to access the information they need in order to enrich their teaching beyond a single play and begin to unpick the threads of Shakespeare's work as a whole. The link between subject knowledge and pedagogical approaches runs throughout the book, focusing on the Shakespeare plays most popularly taught in the classroom and how we can enrich students' understanding of these by looking both at the links across the domain and the bigger picture his work presents. Zoe builds a detailed schema of Shakespeare's work, his world, his

ideas and his influences and offers signposts to further reading and provides an appendix which will support teachers to rapidly find references to the plays they are teaching and the ideas related to them Suitable for teachers of English in all phases
