Migration Policies And Eu Enlargement:

Migration Policies and EU Enlargement The Case of Central and Eastern Europe OECD,2001-01-26 This conference proceedings shows that the migration flows within and from the CEECs are much more complex than a straightforward westward flow towards the European Union and North America Migration Policies and EU Enlargement Organisation for Economic Co-operation and Development,2001 This conference proceedings shows that the migration flows within and from the CEECs are much more complex than a straightforward westward flow towards the European Union and North America **EU External Migration Policies in an Era of Global Mobilities: Intersecting Policy Universes** Sergio Carrera,Arie Pieter Leonhard den Hertog,Marion Panizzon,Dora Kostakopoulou,2018-12-10 This collective volume draws on the themes of intersectionality and overlapping policy universes to examine and evaluate the shifting functions frames and multiple actors and instruments of an ongoing and revitalized cooperation in EU external migration and asylum policies with third states The contributions are based on problem driven research and seek to develop bottom up policy oriented solutions while taking into account global EU based and local perspectives and the shifting universes of EU migration border and asylum policies In 15 chapters we explore the multifaceted dimensions of the EU external migration policy and its evolution in the post crisis geopolitical environment of the Global Compacts Labor Migration, EU Enlargement, and the Great Recession Martin Kahanec,Klaus F. Zimmermann,2016-05-11 This volume extends and deepens our knowledge about cross border mobility and its role in an enlarged EU More specifically its main purpose is to enlighten the growing and yet rather uninformed debate about the role of post enlargement migration for economic adjustment in the crisis stricken labor markets of the Eurozone and the EU as a whole The book addresses the political economy aspects of post enlargement migration including its broader political contexts redistributive impacts but also nationalization of the enlargement agenda It also covers the experience of receiving and sending countries with post enlargement migration and its role during the current crisis Renowned experts in the field study whether and how post enlargement mobility has enabled the EU to absorb asymmetric economic shocks how it has affected the European welfare systems and whether it has contributed to the sustainability of the Eurozone The authors also evaluate brain circulation as a sought after vehicle of improved allocative efficiency of EU labor markets and propose a policy agenda for mobility in an enlarged EU EU Enlargement, Region Building and Shifting Borders of Inclusion and Exclusion James Wesley Scott,2016-04-22 The 2004 entry of 10 Central and Eastern European countries along with Malta and Cyprus into the EU has caused a huge shift in the EU s external boundaries The socio economic and political transformations that this shift has caused not only suggest new regional development opportunities but also many potential problems and tensions While the EU insists that enlargement will not signify new divisions processes of inclusion and exclusion and the imposition of visa restrictions on non EU citizens could pose obstacles to co operation conjuring fears of an emerging fortress Europe that effectively divides the continent

Illustrated with case studies from Central and Eastern European border areas this book examines capacities for region building across national borders in within the context of EU enlargement synthesizing the various insights provided by local information and suggesting ways forward for the future development of the EU's Wider Europe strategy EU Labour Migration Since Enlargement Bela Galgoczi, Janine Leschke, Andrew Watt, 2009 The debate about the opening up of labour markets in the enlarged European Union is crucial for the ongoing process of European integration The contributions to this book shed light on the dimensions characteristics and impacts of labour migration between selected sending Hungary Latvia and Poland and receiving Austria Germany Sweden and the UK countries **Labor, Employment, and Social Policies in the EU Enlargement Process** Lodovico Pizzati, Bernard Funck, 2002 The process of transition to a market economy and integration into the EU has strained the labour markets of central and eastern European countries and these developments pose a number of challenges to their social policies This volume presents the contributions given at an international labour conference held in Austria in June 2001 to investigate these issues It provides the latest labour trends in EU accession countries and compares them to previous experiences of European integration It reviews existing labour market policies and social protection mechanisms and discusses alternative strategies for employment creation in the region **The Boundaries of EU Enlargement** J. DeBardeleben, 2007-12-14 The 2004 and 2007 enlargements pushed the EU's external border further east as well as closer to unstable areas in the western Balkans With future enlargements unlikely in the short term the EU faces new challenges in securing stable relationships with these neighbouring countries while not fostering false hopes of early accession The Responsiveness of Social Policies in Europe Fenger, Menno, van der Steen, Martijn, 2013-09-18 Modern welfare states are confronted with a wide variety of social and economic developments including individualization secularization globalization and changing preferences and ideologies of citizens Using in depth analysis gathered over 15 years this book closely analyzes the consequences of these significant changes for social policies offering theoretical and practical insights about their responsiveness It includes a comparative analysis of recent developments in social assistance sheltered work and labour market policies in the Netherlands showing how policy makers are continually trying to incorporate societal transformations into social policies while being obstructed by the path dependent development of welfare state institutions The insights from the case studies are related to developments in other European countries in the areas of social assistance sheltered work and labour market policies and show how policy makers and politicians deal with multiple challenges interests and perspectives on social policies This book is essential reading for academics and students interested in the institutional development of social policies EU Labor Markets After Post-Enlargement Migration Martin Kahanec, Klaus F. Zimmermann, 2009-10-10 Selected by Princeton University as Noteworthy Book in Industrial Relations and Labor Economics for 2010 Are immigrants from the new EU member states a threat to the Western welfare state Do they take jobs away from the natives And will the source countries suffer from severe brain drain or

demographic instability In a timely and unprecedented contribution this book integrates what is known about post enlargement migration and its effects on EU labor markets Based on rigorous analysis and hard data it makes a convincing case that there is no evidence that the post enlargement labor migrants would on aggregate displace native workers or lower their wages or that they would be more dependent on welfare While brain drain may be a concern in the source countries the anticipated brain circulation between EU member states may in fact help to solve their demographic and economic problems and improve the allocative efficiency in the EU The lesson is clear free migration is a solution rather than a foe for labor market woes and cash strapped social security systems in the EU Labour Migration in the European Union Gönül Oğuz,2020-03-12 No analysis of migration in Europe today can avoid consideration of the role of the EU institutions as well as the member states in policy making This is because the obstacles for labour mobility which have confronted the EU in the post enlargement period have been multi dimensional in nature have encompassed many different aspects of European integration process and have operated at many different levels Recent developments in the free movement of labour in Europe entail a comprehensive analysis of the dynamic of migration policy process contextualising institutional change cooperation control and competition between the EU institutions and the member states This book provides a picture of how governance of labour migration is constructed managed negotiated and decided at the European level It brings together in an informed and well organized way some of the key issues in the face of current migration crises and Brexit

Immigration Under New Labour Will Somerville,2007-09-26 Will Somerville presents a comprehensive account of immigration policy since 1997 providing an in depth account of policy and legislation since Tony Blair and New Labour were first elected Current Trends in International Migration in Europe John Salt,Council of Europe,2005-01-01 This is the 14th annual report for the Council of Europe describing the main trends in international immigration in Europe It covers migration statistics stocks of foreign population flows of foreign population labour migration the problem of asylum migration of expertise irregular migration and recent initiatives in international co operation The Romanian Journal of European Studies no.5-6/2007 , *Handbook of Regional and Urban Economics* ,2025-08-01 Regional and urban economics in the last ten years has benefited from the simultaneous development of new theoretical techniques new sources of geographic information systems GIS data rapid advances in computing power machine learning and artificial intelligence and renewed public policy interest in transportation infrastructure and appropriate policies towards places left behind by globalization and technological change This volume reviews this recent wave of research and highlights promising areas for further research Chapters include Quantitative Regional Economics Quantitative Urban Economics Optimal Spatial Policies Spatial Dynamics Transportation Housing Supply and Housing Affordability Spatial Sorting and Inequality Local Labor Markets Spatial Environmental Economics Spatial Economics for Low and Middle Income Countries and New Data and Insights for Regional and Urban Economics Comprehensive coverage of frontier research topics such as quantitative regional economics

quantitative urban economics and spatial dynamics Contributions from some of the leading research scholars in regional and urban economics Advanced treatment of optimal spatial policies including place based policies and transport infrastructure investments **Territoriality and Migration in the E.U. Neighbourhood** Margaret Walton-Roberts,Jenna

Hennebry,2013-08-16 This volume brings together an interdisciplinary group of scholars around an important question how has migration changed in Europe as the European Union has enlarged and what are the consequences for countries and for migrants themselves inside and outside of these redrawn jurisdictional and territorial borders By addressing this question the book contributes to three current debates with respect to EU migration management 1 that recent developments in EU migration management represent a profound spatial and organizational reconfiguration of the regional governance of migration 2 the trend towards the externalization or subcontracting of migration control and 3 how the implications of Europe s changing immigration policy are increasingly felt across the European neighborhood and beyond Based on new empirical research the authors in this collection explore these three processes and their consequences for both member and non member EU states for migrants themselves and for migration systems in the region The collection indicates that despite the rhetoric of social and spatial integration across the EU region as one wall has come down new walls have gone up as novel migration and security policy frameworks have been erected making European immigration more complex and potentially more influential beyond the EU zone than ever *The Politics of Migration and Immigration in Europe* Andrew

Geddes,2003-03-26 This text fulfills a major gap by comprehensively reviewing one of the most salient policy issues in Europe today migration and immigration It is the first book to address the question of whether we can legitimately speak of a European politics of migration that links states in terms of their policy response to each other and to an evolving EU policy The book carefully differentiates between different types of migration introduces the main concepts and debates and provides a broad comparative framework from which to assess the role and impact of individual states and the European Union EU and European integration to this key contemporary issue Topical and up to date the author fully reviews the politics and policies of immigration across the breadth and depth of Europe including the older immigration countries of France Germany and the United Kingdom the newer southern European countries and the enlargement states of East and Central Europe The Politics of Immigration and Migration in Europe is essential reading for all undergraduate and post graduate students of European politics political science and the social sciences more generally Andrew Geddes lectures at the School of Politics and Communications Studies University of Liverpool This book will be essential reading for students of migration and European integration but will also be important for decision makers and indeed anyone who wants to understand one of the burning issues of our times Stephen Castles Professor of Migration and Refugee Studies Director of the Refugee Studies Centre University of Oxford [South-North Migration of EU Citizens in Times of Crisis](#) Jean-Michel

Lafleur,Mikolaj Stanek,2016-12-08 This open access book looks at the migration of Southern European EU citizens from

Portugal Spain Italy Greece who move to Northern European Member States Belgium France Germany United Kingdom in response to the global economic crisis Its objective is twofold First it identifies the scale and nature of this new Southern European emigration and examines these migrants socio economic integration in Northern European destination countries This is achieved through an analysis of the most recent data on flows and profiles of this new labour force using sending country and receiving country databases Second it looks at the politics and policies of immigration both from the perspective of the sending and receiving countries Analysing the policies and debates about these new flows in the home and host countries this book shows how contentious the issue of intra EU mobility has recently become in the context of the crisis when the right for EU citizens to move within the EU had previously not been questioned for decades Overall the strength of this edited volume is that it compiles in a systematic way quantitative and qualitative analysis of these renewed Southern European migration flows and draws the lessons from this changing climate on EU migration **Moving Beyond**

Demographics - Perspectives For A Common European Migration Policy , Trade Unions and Migrant Workers
Stefania Marino, Judith Roosblad, Rinus Penninx, 2017-12-29 This timely book analyses the relationship between trade unions immigration and migrant workers across eleven European countries in the period between the 1990s and 2015 It constitutes an extensive update of a previous comparative analysis published by Rinus Penninx and Judith Roosblad in 2000 that has become an important reference in the field The book offers an overview of how trade unions manage issues of inclusion and solidarity in the current economic and political context characterized by increasing challenges for labour organizations and rising hostility towards migrants
