Sensors and the Environment Ian Chow-Miller,2016-12-15

Robots don't have senses but they do have sensors that enable them to interact with their environment. This book describes the many kinds of sensors, how they work, and how to use them to get your robot to do what you want. There is also an example of the way sensors are used to get machines to perform complex tasks. Sense of Place, Health and Quality of Life Allison Williams, 2016-12-05. A significant body of theoretical and empirical studies describes sense of place as an outcome of interconnected psychological, social, and environmental processes in relation to physical place. Sense of place has been examined particularly in human geography in terms of both the character intrinsic to a place as a localized, bounded, and material entity and the sentiments of attachment/detachment that humans experience and express in relation to specific places. Scholars in a wide range of disciplines are increasingly exploring the relationship between place and health, and recently the field of public health has been encouraged to recognize sense of place as a potential contributing factor to well-being. It is evident that over the last few decades sense of place has developed into a versatile construct. This important book brings together work related to sense of place and health, broadly defined, from the perspective of a variety of fields and disciplines. It will give the reader an understanding of both the range of applications of this construct within approaches to human health as well as the breadth of research methodologies employed in its investigation. **The Complete Book of 2010s Broadway Musicals** Dan Dietz, 2020-09-10. This volume contains detailed information about every musical that opened on Broadway from 2010 through the end of 2019. This book discusses the decade's major successes, notorious failures, and musicals that closed during their pre-Broadway tryouts. In addition to including every hit and flop that debuted during the decade, this book highlights revivals and personal appearance revues.
