Content from the Preface In an age where art in its various forms has been confused with the trivialization of human feelings and values this book rescues the deepest essence of the human being The stories told here enable us to enjoy insightful conversations among young doctors who share sincere friendship In the course of their professional daily routine they deal with their demons and wonder about life beyond Earth How much baggage do we carry What is the importance of our relationships in coping with the hardships of this life Is it possible that beings from other planets may visit us with the sole purpose of providing enlightenment The singularity of the events portrayed in this book unfolded when the young medical student Lucas has a meeting with his friends from outer space bringing us precious insights about life in other dimensions This journey of discovery and self awareness brings about the peculiarities of the harsh daily routine proper of the Brazilian hospital reality while telling the stories of friends who in midst adversities of the hospital life find in one another strength and courage to share their deepest secrets and worries as they prepare for a dream wedding in Scotland These issues are exacerbated by the moral values of society itself which lead the physician to come across the emotionally shocking emergencies of NICU 1 as well as the perception of the pediatric emergency room The events shown in this book depict realities which afflict doctors as human beings Being susceptible much like anyone else to the energetic negativities generated by facts proper of the hospital reality doctors try not to absorb them in order to carry on with their lives Their emotional and mental bodies are constantly shaken with such perverse warps in contemporary society Which has possibly been one of the preponderant factors influencing their psychophysical health which in its turn lead to a lower survival rate when compared to the general population Such burden rank doctors high in depression and suicide statistics when compared to other liberal professionals who most give up living so drastically Another relevant feature of this book is that it allows us to reflect on the need for a science connected to the vision of man as a multidimensional being whose psyche is eternal since it transcends the reality of matter which implies a science that does not only care for bodies but for the whole man This new science inserts in its concepts the importance of love gratitude goodness ethics and spirituality as healthy remedies for health happiness and quality of life The author s courage to bring such pertinent themes is consecrated when he approaches the topic of regression which is a therapeutic technique not yet inserted in the conventional scientific treaties but that has been expanding with notoriety in the scientific environment The Regressive Therapy to Past Lives Experiences allows the subject to delve deeply into the source of trauma and existential conflicts bringing to the own consciousness the energetic nuclei generated by them releasing the residues of the sensations feelings thoughts and images that generated these conflicts and traumas To have the honor of doing this afterword was a gift

Hamish Robertson,2018-01-19 This book is all about space travel It explores possibilities including teletransportation walking through walls and portals using the power of a God like matter called Petra She does most things for some species leaving the them little to do which creates a stale life with little reward for endeavour She lacks empathy unlike our God and is responsible for the incarceration of the transcendentals whom she uses to ease travel and interaction with what I call the Ultra World She is in no way evil but lacks empathy she sees only as a calculator and she is kind but her over involvement with life is seen as unbalancing there is less for the people to do so endeavour seems less rewarded A place where their houses refuse to be castles though they are made from the same brick The decent people of the galaxy find themselves facing a tyrant called Histler who threatens to destroy everything in his search for domination Closer to home there is Armageddon on Earth where salvation is found in space thanks to Jesus and a planet called Donfrice I have employed an idea of things echoing around our galaxy and I call it symbiotic symmetry Space is very large and to be lost can be very exhausting both mentally and physically Sanity however is saved with a spiral of accounts joining people and idea together This book is a tale of many journeys and of many people whose interaction involvement and development I hope will capture you Oh Yeah? Proof It!, Grade 5 ,2012-10-22 Oh Yeah Proof It provides the student an opportunity to grow their language arts skills while being Editor In Chief This helpful classroom resource enhances a student s understanding of the importance of proofreading Presented as a school newspaper students have the opportunity to edit a variety of newspaper articles including school news play reviews advertisements and even comics The activities not only help students identify mistakes in written text but also allow them to become more confident in their own writing reinforcing essential grammar spelling and other language arts skills A complete answer key is also provided for the student or teacher to check their work From Outer Space to Inner Space Dr. Edgar Mitchell,2023-01-01 The sixth man who walked on the moon shares his journey to the stars into the mind and beyond In February 1971 as Apollo 14 astronaut Edgar Mitchell hurtled Earthward through space he was engulfed by a profound sense of universal connectedness He intuitively sensed that his presence and that of the planet in the window were all part of a deliberate universal process and that the glittering cosmos itself was in some way conscious The experience was so overwhelming Mitchell knew his life would never be the same For the next thirty five years he embarked on another journey an inward exploration of the ineffable mystery of human consciousness and being Mitchell left NASA to form the Institute of Noetic Sciences IONS There he initiated research in areas of study previously neglected by mainstream science and constructed a theory that could explain not only the mysteries of consciousness but also the psychic event what spiritualists call a miracle and scientists dismiss altogether Mitchell also created a new dyadic model of reality revealing a self aware universe not predetermined by the laws of physics preordained by deities or infinitely malleable While human actions are generally subject to the laws of physics these laws are also influenced by the mind From Outer Space to Inner Space traces two remarkable journeys one through space and one through the mind Together they fundamentally alter the

way we understand the miracle and mystery of being and ultimately reveal humankind's role in its own destiny Previously published as *The Way of the Explorer* this edition includes a new foreword by Avi Loeb an afterword by Dean Radin and a postscript chapter by the author

Hawk Carse in Space Anthony Gilmore, 2011-05-01 Tales of Hawk Carse one of the greatest of space adventurers Includes the following stories *Hawk Carse* *Affair of the Brains* *The Bluff of the Hawk* *The Passing of Ku Sui* Excerpt *Hawk Carse* came to the frontiers of space when Saturn was the frontier planet which was years before the swift Patrol ships brought Earth's law and order to those vast regions A casual glance at his slender figure made it seem impossible that he was to rise to be the greatest adventurer in space that his name was to carry such deadly connotation in later years But on closer inspection a number of little things became evident the steadiness of his light gray eyes the marvelously strong fingered hands the wiry build of his splendidly proportioned body Summing these things up and adding the brilliant resourcefulness of the man the complete ignorance of fear one could perhaps understand why even his blood enemy the impassive Ku Sui a man otherwise devoid of every human trait could not face Carse unmoved in his moments of cold fury His name we know enters most histories of the period 2117-2148 A D for he has at last been recognized as the one who probably did most unofficially and not with the authority of the Earth Government to shape the raw frontiers of space to push them outward and to lay the foundations of the present tremendous commerce between Earth Vulcan Pluto Neptune Uranus Saturn and Jupiter But little of his fascinating character may be gleaned from the dry words of history and it is Hawk Carse the adventurer he of the spitting ray gun and the phenomenal draw of the reckless space ship maneuverings of the queer bangs of flaxen hair that from a certain year hid his forehead of the score of blood feuds and the one great feud that jarred nations in its final terrible settling it is with that man we are concerned here A number of his exploits never recorded are still among the favorite yarns spun by lonely outlanders in the scattered trading posts of the planets and among them is that of his final encounter with Judd the Kite It shows typically the cold deadliness the prompt repaying of a blood debt the nerveless daring that were the outstanding qualities of this almost legendary figure It began one crisp early morning on Iapetus and it ended on Iapetus with the streaks of ray guns searing the air and it explains why there are two square mounds of soil on Iapetus eighth satellite of Saturn
