My Life Among the Savage Nations of New Spain Andrés Pérez de Ribas, 1968 My Life Among the Savage Nations of New Spain Andrés Pérez de Ribas, 1968 **Beyond the Devil's Road** Jeremy Beer, 2024-09-17 The explorations of Francisco Garces an intrepid Franciscan friar of the eighteenth century led to the opening of the first overland route from Mexico to California produced new knowledge of unmapped terrain and unknown peoples and revived dreams of Spanish imperial expansion Beyond the Devil's Road tells for the first time the full story of this extraordinary man's epic life and journey and his critical place in the history of the American Southwest From the moment he took up residence at the lonely mission of San Xavier del Bac in 1768 Garces stood out among his fellow Spaniards for both the affection he showed the region's Native peoples and his bravery Traveling thousands of miles through modern Arizona California and Nevada to gather information for his superiors and preach to the unbaptized he engaged the Indians of the Southwest with a respect for their ways and customs unprecedented among his peers presaging a new and better model for cultural encounters Along the way he contacted more Indigenous groups than any other missionary of his time often as the first European to do so Garces also paved the way and served as a guide for the famous expeditions of Juan Bautista de Anza in 1774 and 1775-76 bringing the first Spanish settlers to California before the road he'd helped to open led to his death in the Quechan uprising of 1781 Consulting archives on three continents including previously untapped sources and Garces's extensive diaries and letters long obscured by unyielding language and handwriting Beer crafts a nuanced and thoroughly engaging account of this incomparable explorer groundbreaking missionary and central actor in New Spain's final sustained effort to expand its dominion into the lands that would become the American Southwest *Polemics of Possession in Spanish American Narrative* Rolena Adorno, 2007-01-01 DIV *Why Have You Come Here?* Nicholas P. Cushner, Professor of History Nicholas P. Cushner, 2006-08-03 Why Have You Come Here examines how the Jesuits behaved toward the indigenous population and analyzes the way in which native belief systems were replaced by Christianity It also seeks to understand how the European Indian encounter changed their material culture The Marana Community in the Hohokam World Suzanne K. Fish, Paul R. Fish, John Henry Madsen, 1992 This account of Classic Period settlement in the Tucson Basin between A.D. 1100 and 1300 is the first comprehensive description of the organization of territory subsistence and society in a Hohokam community of an outlying region Broad recovery of settlement patterns reveals in unique detail the developmental history of the Marana Community and its hierarchical structure about a central site with a platform mound Remains of diverse agricultural technologies demonstrate the means for supporting populations of previously unrecognized size **Early Earthquakes of the Americas** Robert L. Kovach, 2004-03-25 There is emerging interest amongst researchers from various subject areas in understanding the interplay of earthquake and volcanic occurrences archaeology and history This discipline has become known as archeoseismology Ancient earthquakes often leave their mark in the myths legends and literary accounts of ancient

peoples the stratigraphy of their historical sites and the structural integrity of their constructions Such information leads to a better understanding of the irregularities in the time space patterns of earthquake and volcanic occurrences and whether they could have been a factor contributing to some of the enigmatic catastrophes in ancient times This book focuses on the historical earthquakes of North and South America and describes the effects those earthquakes have had with illustrated examples of recent structural damage at archaeological sites It is written at a level that will appeal to students and researchers in the fields of earth science archaeology and history **On the Lips of Others** Patrick Thomas

Hajovsky,2015-06-01 An interdisciplinary study investigating how the name and portrait of Moteuczoma a k a Moctezuma Montezuma II were represented in Aztec monuments and colonial manuscripts and how the concept of fame operated in the Aztec world **The Cambridge History of the Native Peoples of the Americas** Bruce G. Washburn,Richard E. W. Adams,Murdo J. MacLeod, Frank Salomon,Stuart B. Schwartz,1996 Library holds volume 2 part 2 only Historic Native Peoples of Texas William C. Foster,2009-02-17 An incredibly detailed account of Indigenous lifeways during the initial rounds of European exploration in south central North America Several hundred tribes of Native Americans were living within or hunting and trading across the present day borders of Texas when Cabeza de Vaca and his shipwrecked companions washed up on a Gulf Coast beach in 1528 Over the next two centuries as Spanish and French expeditions explored the state they recorded detailed information about the locations and lifeways of Texas s Native peoples Using recent translations of these expedition diaries and journals along with discoveries from ongoing archaeological investigations William C Foster here assembles the most complete account ever published of Texas s Native peoples during the early historic period AD 1528 to 1722 Foster describes the historic Native peoples of Texas by geographic regions His chronological narrative records the interactions of Native groups with European explorers and with Native trading partners across a wide network that extended into Louisiana the Great Plains New Mexico and northern Mexico Foster provides extensive ethnohistorical information about Texas s Native peoples as well as data on the various regions animals plants and climate Accompanying each regional account is an annotated list of named Indigenous tribes in that region and maps that show tribal territories and European expedition routes A very useful encyclopedic regional account of the Europeans and Native peoples of Texas who encountered one another during the relatively unexamined two hundred years before the Spanish occupation of Texas and the French establishment of Louisiana Southwestern Historical Quarterly **Aztecs, Moors, and Christians** Max Harris,2010-01-01 In villages and towns across Spain and its former New World colonies local performers stage mock battles between Spanish Christians and Moors or Aztecs that range from brief sword dances to massive street theatre lasting several days The festival tradition officially celebrates the triumph of Spanish Catholicism over its enemies yet this does not explain its persistence for more than five hundred years nor its widespread diffusion In this insightful book Max Harris seeks to understand Mexicans puzzling and enduring passion for festivals of moros y cristianos He

begins by tracing the performances roots in medieval Spain and showing how they came to be superimposed on the mock battles that had been a part of pre contact Aztec calendar rituals Then using James Scott s distinction between public and hidden transcripts he reveals how in the hands of folk and indigenous performers these spectacles of conquest became prophecies of the eventual reconquest of Mexico by the defeated Aztec peoples Even today as lively descriptions of current festivals make plain they remain a remarkably sophisticated vehicle for the communal expression of dissent *The Jesuit Missions of Northern Mexico* Charles W. Polzer,1991

Rules and Precepts of the Jesuit Missions of Northwestern New Spain Charles W. Polzer,2016-10-18 An exceptionally valuable research tool for scholars The noted Jesuit historian has translated the rules and precepts that governed the mission expansion in the 1600s and 1700s in northwestern Mexico and has added authoritative commentary to make this work literally a manual on the missions Catalog of Copyright Entries. My Life Among the Indians George Catlin,2017-11-27 George Catlin was a fascinating figure of the nineteenth century an artist explorer who ventured deep into the wilds of the newly discovered Americas to paint the rapidly vanishing indigenous populations their leaders warriors medicine men and scenes from their modes of life The gifts Catlin received over the years from these remote peoples formed the basis for a vast important collection which Catlin loaned to the world s biggest museums together with his portraits This new hardcover edition of My Life Among the Indians is illustrated with examples of Catlin s art from this period *The Spanish Borderlands Frontier, 1513-1821* John Francis Bannon,1974 The classic history of the Spanish frontier from Florida to California

The Lessening Stream Michael F. Logan,2006-09-01 Newcomers to Tucson know the Santa Cruz River as a dry bed that can become a rampaging flood after heavy rains Yet until the late nineteenth century the Santa Cruz was an active watercourse that served the region s agricultural needs until a burgeoning industrial society began to tap the river s underground flow The Lessening Stream reviews the changing human use of the Santa Cruz River and its aquifer from the earliest human presence in the valley to today Michael Logan examines the social cultural and political history of the Santa Cruz Valley while interpreting the implications of various cultures impacts on the river and speculating about the future of water in the region Logan traces river history through three eras archaic modern and postmodern to capture the human history of the river from early Native American farmers through Spanish missionaries to Anglo settlers He shows how humans first diverted its surface flow then learned to pump its aquifer and today fail to fully understand the river s place in the urban environment By telling the story of the meandering river from its origin in southern Arizona through Mexico and the Tucson Basin to its terminus in farmland near Phoenix Logan links developments throughout the river valley so that a more complete picture of the river s history emerges He also contemplates the future of the Santa Cruz by confronting the serious problems posed by groundwater pumping in Tucson and addressing the effects of the Central Arizona Project on the river valley Skillfully interweaving history with hydrology geology archaeology and anthropology The Lessening Stream makes an important

contribution to the environmental history of southern Arizona It reminds us that because water will always be the focus for human activity in the desert we desperately need a more complete understanding of its place in our lives Gathering the Desert Gary Paul Nabhan, 2016-10-01 Winner of the John Burroughs Association's John Burroughs Medal for natural history writing and a Southwest Book Award from the Border Regional Library Association To the untrained eye a desert is a wasteland that defies civilization yet the desert has been home to native cultures for centuries and offers sustenance in its surprisingly wide range of plant life Gary Paul Nabhan has combed the desert in search of plants forgotten by all but a handful of American Indians and Mexican Americans In Gathering the Desert readers will discover that the bounty of the desert is much more than meets the eye whether found in the luscious fruit of the stately organpipe cactus or in the lowly tepary bean Nabhan has chosen a dozen of the more than 425 edible wild species found in the Sonoran Desert to demonstrate just how bountiful the land can be From the red hot chiltepin of Mexico to the palms of Palm Springs each plant exemplifies a symbolic or ecological relationship which people of this region have had with plants through history Each chapter focuses on a particular plant and is accompanied by an original drawing by artist Paul Mirocha Word and picture together create a total impression of plants and people as the book traces the turn of seasons in the desert **The Millennial New World** Frank Graziano, 1999 This is a study of millennialism the idea that something climactic will happen in the year 2000 in Latin America from the pre-Columbian period up to the present **Sanctuaries of Earth, Stone, and Light** Gloria Fraser Giffords, 2022-08-23 Over nearly three centuries Jesuit Franciscan and Dominican missionaries built a network of churches throughout the new world of New Spain Since the early twentieth century scholars have studied the colonial architecture of southern New Spain but they have largely ignored the architecture of the north However as this book clearly demonstrates the colonial architecture of Northern New Spain an area that encompasses most of the southwestern United States and much of northern Mexico is strikingly beautiful and rich with meaning After more than two decades of research both in the field and in archives around the world Gloria Fraser Giffords has authored the definitive book on this architecture Giffords has a remarkable eye for detail and for images both grand and diminutive Because so many of the buildings she examines have been destroyed she sleuthed through historical records in several countries and she discovered that the architecture and material culture of northern New Spain reveal the influences of five continents As she examines objects as large as churches or as small as ornamental ceramic tile she illuminates the sometimes subtle sometimes striking influences of the religious social and artistic traditions of Europe from the beginning of the Christian era through the nineteenth century of the Muslim countries ringing the Mediterranean from the seventh through the fifteenth centuries and of Northern New Spain's indigenous peoples whose art influenced the designs of occupying Europeans Sanctuaries of Earth Stone and Light is a pathbreaking book featuring 200 stunning photographs and over 300 illustrations ranging from ceremonial garments to detailed floor plans of the churches
