*The Mind Unlocked* Marc Arginteanu, M.D., 2023-11-21 A popular claim in recent years is that a person only uses 10% of their brain and while this is not remotely true it is accurate that the human brain contains massive untapped capabilities Brains remain the most magnificent biological machines and the latest neurobiological research on nutrition sleep music and exercise aims to help people keep theirs in top shape The human mind is more than just electrochemical signals it s a fountain of consciousness transcending physicality This work backed by decades of experience includes the latest neuroscience research and vignettes based on the author s actual patients Containing mental hacks to explain how to overcome mental limitations it explores how simple changes like breaking bad habits having a better work life balance and more could help the human mind go from being just fine tuned to being enlightened and limitless With these hacks a designer brain is just around the corner

Tanner, Boy Orphan Fred Tanner, 2005 This book is about a family finding themselves in a desperate situation after the loss of their mother With help from caring individuals a home was found for the children at the Methodist Children s Home in Winston Salem NC Pop Woosley and his dedicated and understanding care givers provided the education and leadership that directed the children toward an opportunity for a better life The life of the boy Fred Tanner and what his physical and emotional experiences were well documented as he describes the daily life at this home where he lived for 16 years In some instances living in an orphanage is much better than living in some family situations The structured living environment was so designed that one home mother could manage the behavior of 30 boys The boys had the opportunity to get into boyhood mischief and that they did Boys had their own understanding of orphan humor Some boys lived the life that would rival Huckleberry Finn and Tom Sawyer while some boys were mellow and studious Through sports work responsibility scouting and some social events the boys were mellowed somewhat into responsible young boys Hard work and discipline were a matter of fact and became the life habits of most of that were raised at this home Opportunity for further education was made available through work programs and college assistance to those that wished to attend Most all boys served a tour in the military Children and their parents many in not much better situations than we were gave their pennies and nickles so that we could have a pair of shoes or a decent set of clothes This was most humiliating Other people of means were kind enough to see the need of over four hundred children

excuses and am certainly not going to ask anyone to help me to jump under a train That's just not fair on others and it makes a mess I was born just after World War Two and after serving my apprenticeship where I was trained as a carpenter and joiner I launched myself onto the world stage which was trying to drag itself into the twentieth century I was diagnosed as having multiple sclerosis over thirty five years ago and have battled through a fun packed and enjoyable life ever since Now having had to retire after forty three years in an ever changing construction industry through the problems caused mainly by my illness and also falling off rooftops I have just got to put it all into writing People have asked me why I am writing books and I must confess that my only reason appears to be that I need to Whilst fame and fortune sound very nice I think that I have left all that far too late and don't want to be famous anyway I also stopped believing in fairies long ago but if I could derive some sort of an income from my efforts that would be nice Although Granny used to say Be careful what you wish for My major feelings are that I need to tell some of my stories I would also hope for people to see things through the eyes of a person with firsthand experience of some of the issues involved without the whole saga becoming some sort of black comedy or yet another hand wringing exercise which will only give the chattering classes more ammo to fill their sorry lives with I hope my life has been worth more than that At this time I have also finished writing a book about post war life in Britain as seen through the eyes of an eight year old boy In my opinion these stories reflect a very important part of twentieth century social history and also provide opportunities for a new book on nearly every page My memories keep me writing and they are memories which are very real and unfortunately often denied to people whose experiences of life only include the late twentieth and early twenty first century I know that people say that we have had the best of it but as a raggy arsed guttersnipe brought up in post war Britain I had a very happy childhood which has been followed by a very full and happy life AND FURTHERMORE IT ISN'T OVER YET Regards Fraser Scott
