My Nation The World:

Simply God Rick Richards, 2011-10-10 When pastors and evangelists preach they try to convince you to change your lifestyle now This is not their fault They know that they have to do this They have to get you close to God because time could be short That is not equipping and preparing Equipping and preparing means giving you the tools of the trade That is living Gods Word and how to plan to do this The Word teaches that pastors are to equip the servants All that time convincing and not equipping is destroying Gods world Jesus equipped and encouraged Gods children and changed the world What is our excuse We need to divert all our mental and physical abilities to become like Jesus and begin to feel these changes in our bodies We have to stop becoming people of behaviors Over many generations we have reacted to what we have seen and heard and to the pleasures the world has given us We dont look and listen to God anymore because he doesnt give us what we want when we want it When the world sees this it gives us what we want and we take it We are not patient enough God gives us what we need As long as the world dangles that carrot in front of our faces we will continue to pull that heavy burdensome load of sin and pain It is only by seeing and hearing what God does in this world to bless his children that will show us how his grace and greatness will tower above our fears Somalia in Pictures Janice Hamilton, 2007-01-01

Human Dignity and World Order Glen T. Martin, 2024-04-05 We must establish our world order on the principles of human dignity if we want a credible future for humanity This book shows how and why this is so It investigates the meaning of human dignity in relation to current scholarly work as well as in terms of the depths of our subjective lives from which the concept of dignity arises It contrasts the concept of dignity with our current world system engulfed in endless wars immense inequality systems of economic injustice and on going environmental destruction It shows the relationship between dignity human rights and global moral principles and lays out ten fundamental principles for a planetary ethics The book contrasts the holistic paradigm uncovered by 20th century science with the fragmented paradigm that persists at the heart of the present world system showing how and why a conversion to holism and dignity is both necessary and possible Human Dignity and World Order shows that we have not yet fully understood our human existential situation as temporal beings oriented toward the future who possess the largely untapped power of a liberating utopian imagination Through examining our fundamental human condition it unveils our vast potential for self transcendence and transformation leading toward a redeemed and credible human future in which we flourish on the Earth within a planetary civilization of freedom justice peace and sustainable prosperity This book also presents the Constitution for the Federation of Earth as a paradigm or model for practical action toward a credible human future Altogether the book constitutes a watershed in human self understanding opening possibilities for the future hitherto ignored or misunderstood Every thoughtful person concerned for our common human future needs to read this book Public Papers of the Presidents of the United States United States.
