**Cassell's Educator for the Young, etc. [Another edition of "The Child's Educator."]** John CASSELL,1865      *My Play is Study* ,1851      The Authentic Dissertation Donald Trent Jacobs,2009-05-07 The Authentic Dissertation is a road map for students who want to make their dissertation more than a series of hoop jumping machinations that cause them to lose the vitality and meaningfulness of their research Students and tutors are presented with practical guidance for the kind of alternative dissertations that many educators believe are needed to move Doctoral and Master s level work beyond the

limitations that currently stifle authentic contributions for a better world Drawing on his Cherokee Creek ancestry and the Raramuri shamans of Mexico the author explores how research can regain its humanist core and find its true place in the natural order once more Four Arrows provides a degree of credibility that will help graduate students legitimize their ideas in the eyes of more conservative university committees This inspiring book will also help academics who sincerely want to see these alternative forms but are concerned about the rigor of alternative dissertation research and presentation The featured dissertation stories tap into more diverse perspectives more authentic experience and reflection and more creative abilities They are in essence spiritual undertakings that Honour the centrality of the researcher s voice experience creativity and authority Focus more on important questions than on research methodologies per se Reveal virtues generosity patience courage respect humility fortitude etc Regard the people s version of reality The goal of this book is not to replace the historical values of academic research in the western tradition but to challenge some of these values and offer alternative ideas that stem from different sometimes opposing values

**The Challenge of Teaching** Gretchen Geng, Pamela Smith, Paul Black, 2016-10-11 This book presents thirty one accounts by final year pre service teachers providing guidance and insights for less advanced teacher education students and illustrating the use of life history and narrative stories as methods for pre service teachers to explore educational issues in classroom practice This life history approach identifies those political economic and social forces that have impinged on the individual at different points in their life and contributed to the process of changing their identities These stories are not written by established specialists in the areas they deal with but instead by novice teachers at the beginning of their paths towards mastering the intricacies of teaching and learning in school settings As such the book provides a mentoring framework and a means of helping pre service teachers share their valuable experiences and insights into aspects such as how to manage practicum requirements It helps establish a supportive relationship among pre service teachers providing them with access to valuable peer experiences In addition it helps pre service teachers make sense of their own practicum experiences and reflect on their own beliefs and professional judgement to develop their approaches and solve problems in their own classroom practice

Slow Knowledge and the Unhurried Child Alison Clark, 2022-12-30 This book explores the relationship with time in early childhood by arguing for the valuing of slow pedagogies and slow knowledge Alison Clark points to alternative practices in Early

Childhood Education and Care that enable a different pace and rhythm against the backdrop of the acceleration in early childhood and the proliferation of testing and measurement. Diverse approaches are explored to enable an unhurried child and less hurried adults. *Slow Knowledge and the Unhurried Child* is divided in three parts. Part 1 Reasons to be slow looks at the pressures in Early Childhood Education and Care to speed up and for children to be readied for the next stage. The book then explores different relationships with time for young children and educators. Part 2 Slow pedagogies and practices explore some of the forms slow practices can take including outdoors in the studio in everyday routines through stories in pedagogical documentation and in slow research. Part 3 Moving forward shows what a timefull approach to ECEC can look like whilst debating the challenges and possibilities that exist. The book serves as a catalyst for urgent discussion about the need to slow down in early childhood education and teacher education and explores case studies of where slow early childhood education are already happening. It will be a key reading for researchers practitioners and policy makers about the relationship with time in early childhood and the importance of taking a longer view. Western understandings of childhood have defined disabled children against child development norms and have provided the rationale for segregated or special welfare and education provision. In contrast, disabled children's childhood studies begins with the view that studies of

children's impairment are not studies of their childhoods Disabled children's childhood studies demands ethical research practices that position disabled children and young people at the centre of the inquiry outside of the shadow of perceived norms The Palgrave Handbook of Disabled Children's Childhood Studies will be of interest to students and scholars across a range of disciplines as well as practitioners in health education social work and youth work *Handbook of Autoethnography* Tony E.
