My South Block Years J. N. Dixit, 1997-01-01 **My South Block Years** Jyotindra Nath Dixit, 1996 *Theorizing Indian Foreign Policy* Mischa Hansel, Raphaëlle Khan, Méliissa Levallant, 2017-04-21

Examined from a non Western lens the standard International Relations IR and Foreign Policy Analysis FPA approaches are ill adapted because of some Eurocentric and conceptual biases These biases partly stem from first the dearth of analyses focusing on non Western cases second the primacy of Western born concepts and method in the two disciplines That is what this book seeks to redress *Theorizing Indian Foreign Policy* draws together the study of contemporary Indian foreign policy and the methods and theories used by FPA and IR while simultaneously contributing to a growing reflection on how to theorise a non Western case Its chapters offer a refreshing perspective by combining different sets of theories empirical analyses historical perspectives and insights from area studies Empirically chapters deal with different issues as well as varied bilateral relations and institutional settings Conceptually however they ask similar questions about what is unique about Indian foreign policy and how to study it The chapters also compel us to reconsider the meaning and boundary conditions of concepts e g coalition government strategic culture and sovereignty in a non Western context This book will appeal to both specialists and students of Indian foreign policy and International Relations Theory

India in the World Order Baldev Raj Nayar, T. V. Paul, 2003

Table of contents *India's Nuclear Debate* Priyanjali Malik, 2014-03-21 Making the right wing Bharatiya Janata Party s nuclear tests in 1998 its starting point this book examines how opinion amongst India s attentive public shifted from supporting nuclear abstinence to accepting and even feeling a need for a more assertive policy by examining the complexities of the debate in India on nuclear policy in the 1990s The study seeks to account for the shift in opinion by looking at the parallel processes of how nuclear policy became an important part of the public discourse in India and what it came to symbolise for the country s intelligentsia during this decade It argues that the pressure on New Delhi in the early 1990s to fall in line with the non proliferation regime magnified by India s declining global influence at the time caused the issue to cease being one of defence making it a focus of nationalist pride instead The country s nuclear programme thus emerged as a

test of its ability to withstand external compulsions guaranteeing not so much the sanctity of its borders as a certain political idea of it that of a modern scientific and most importantly sovereign state able to defend its policies and set its goals

Indian Foreign Policy Atish Sinha, Madhup Mohta, 2007 Publisher description **India's Ocean** David

Brewster, 2014-03-26 This book assesses India's role as a major power in the Indian Ocean. Many see the Indian Ocean as naturally falling within India's sphere of influence but as this book demonstrates India has a long way to go before it could achieve regional dominance. The book outlines the development of Indian thinking on its role in the Indian Ocean and examines India's strategic relationships in the region including with maritime South Asia, the Indian Ocean islands, East Africa, the Middle East, Southeast Asia, and Australia. The book then discusses India's ambivalent relationship with the United States and explores its attitude towards China's growing power in the Indian Ocean. It concludes by discussing the region's evolving strategic order: does India have what it takes to become the leading power in the region? **Israeli Foreign Policy since the End of the Cold War** Amnon Aran, 2020-12-17 This is the first study of Israeli foreign policy towards the Middle East and selected world powers including China, India, the European Union, and the United States since the end of the Cold War. It provides an integrated account of these foreign policy spheres and serves as an essential historical context for the domestic political scene during these pivotal decades. The book demonstrates how foreign policy is shaped by domestic factors which are represented as three concentric circles of decision makers: the security network and Israeli national identity. Told from this perspective, Amnon Aran highlights the contributions of the central individuals, societal actors, domestic institutions, and political parties that have informed and shaped Israeli foreign policy decisions, implementation, and outcomes. Aran demonstrates that Israel has pursued three foreign policy stances since the end of the Cold War: entrenchment, engagement, and unilateralism, and explains why. **India in the Indo-Pacific** Aditi Malhotra, 2022-06-13 In view of the fast-changing world order, emerging countries are increasingly influencing the dynamics of regional securities. This timely and in-depth book examines India's reorienting strategic posture and describes how New Delhi's security policy in the Indo-Pacific region has evolved and expanded over the past two decades. The author argues that India's quest to leverage its geostrategic location to emerge as an Indo-Pacific actor faces multiple challenges which create a clear divide between the country's political rhetoric and action on the ground. The author critically examines these contradictions to better situate India's security role in an increasingly fluid Indo-Pacific region. China in India's Post-Cold War Engagement with Southeast Asia Chietigj Bajpae, 2022-02-17 This book examines the role of China in driving and sustaining India's post-Cold War engagement with Southeast Asia. In doing so, it provides a unique insight into the regional dimensions of the Sino-Indian relationship. India launched its Look East Policy in the early 1990s as part of a concerted effort to revive the importance of Southeast Asia in the country's foreign policy agenda. This study assesses the role of the China factor defined here as China's regional role which has been interpreted through the prism of the Sino-Indian relationship in the inception

and evolution of the policy More specifically it establishes the extent to which China has been raised as a priority in discourses of India's Look East Policy and how this has varied over time from the origins of the policy through to the most recent phase of the renamed Act East Policy Addressing the distinction between what policymakers signal in their official statements and their true or underlying motivations the book alludes to the fact that government officials may not always reflect true intentions in their official statements and it is often what is not said that may reveal more about their real motivations This is particularly relevant in the context of the Sino Indian relationship where diplomatic rhetoric often masks more competitive and confrontational aspects of the bilateral relationship An important analysis of the interplay between India's relations with Southeast Asia and China this book will be of interest to academics policymakers and students in the fields of International Relations Asian Security Southeast Asian politics and in particular Indian foreign policy the Sino Indian relationship and India's Look East Act East Policy

India Stephen P. Cohen, 2004-05-13 For years Americans have seen India as a giant but inept state That negative image is now obsolete After a decade of drift and uncertainty India is taking its expected place as one of the three major states of Asia Its pluralist secular democracy has allowed the rise of hitherto deprived castes and ethnic communities Economic liberalization is gathering steam with six percent annual growth and annual exports in excess of 30 billion India also has a modest capacity to project military power The country will soon have a two carrier navy and it is developing a nuclear armed missile capable of reaching all of Asia This landmark book provides the first comprehensive assessment of India as a political and strategic power since India's nuclear tests its 1999 war with Pakistan and its breakthrough economic achievements Stephen P Cohen examines the domestic and international causes of India's emergence he discusses the way social structure and tradition shape Delhi's perceptions of the world and he explores India's relations with neighboring Pakistan and China as well as the United States Cohen argues that American policy needs to be adjusted to cope with a rising India and that a relationship well short of alliance but far more intimate than in the past is appropriate for both countries

China-India Relations , Coalition Politics and Hindu Nationalism Katharine Adeney, Lawrence Saez, 2007-04-11 This new collection examines the emergence of the Bharatiya Janata Party BJP in India and the ways in which its Hindu nationalist agenda has been affected by the constraints of being a dominant member of a coalition government Religious influence in contemporary politics offers a fertile ground for political sociological analysis especially in societies where religion is a very important source of collective identity In South Asian societies religion can and often has provided legitimacy to both governments and those who oppose them This book examines the emergence of the BJP and the ways in which its Hindu nationalist agenda has been affected by the constraints of being a dominant member of a coalition government The collected authors take stock of the party's first full term in power presiding over the diverse forces of the governing NDA coalition and the 2004 elections They assess the BJP's performance in relation to its stated goals and more specifically how it has fared in a range of policy fields centre state relations foreign policy defence policies the second

generation of economic reforms initiatives to curb corruption and the fate of minorities Explicitly linking the volume to literature on coalition politics this book will be of great importance to students and researchers in the fields of South Asian studies and politics *Indian Migrants in Tokyo* Megha Wadhwa,2020-10-29 How does an extended stay in Japan influence Indian migrants sense of their identity as they adapt to a country very different from their own The number of Indians in Japan is increasing The links between Japan and India go back a long way in history and the intricacy of their cultures is one of the many factors they have in common Japanese culture and customs are among the most distinctive and complex in the world and it is often difficult for foreigners to get used to them Wadhwa focuses on the Indian Diaspora in Tokyo analysing their lives there by drawing on a wealth of interviews and extensive participant observation She examines their lifestyles fears problems relations and expectations as foreigners in Tokyo and their efforts to create a home away from home in Japan This book will be of great interest to anthropologists and sociologists concerned with the impact of migration on diaspora communities especially those focused on Japan India or both **Political Conflict and Arms Control** Nasir

Mehmood,2023-01-24 This book offers a comprehensive analysis of the evolution and development of arms control processes as an integral part of the Pakistan India grand dialogue which took place from 1988 to 2008 and it examines the larger political context and its impact on arms control processes Nasir Mehmood prioritizes four types of political conflicts Jammu and Kashmir hostile domestic politics dissimilar military doctrines and China as a third party Mehmood determines their connection and function in restricting arms control during three major rounds of broader security dialogue between Pakistan and India 1988 1994 1997 1999 and 2004 2008 Through these major rounds of dialogue there are patterns of interaction within and across three sub cases This volume which offers a systematic survey of bilateral arms control processes within the local settings and includes critical theoretical and policy insights shall be of interest to students and scholars interested in security studies and international relations theory with a focus on the strategic horizon of South Asia **China-India**

Relations Amardeep Athwal,2007-10-10 This book examines the dynamics of the modern relationship between China and India As key emerging powers in the international system India and especially China have received much attention However most analysts who have studied Sino Indian relations have done so through a neorealist lens which emphasizes the conflictual and competitive elements within the overall relationship This has had the effect of obscuring how the China India relationship is currently in the process of transformation Drawing on a detailed and systematic analysis of the interlinked and increasingly important issues of maritime security in the Indian Ocean region energy demands and concerns and economic growth and interchange Amardeep Athwal shows that not only is there an absence of mutual threat perception but Sino Indian bilateral trade is increasingly being framed institutionally and China and India are also beginning to coordinate policy in important areas such as energy policy He concludes that neorealist accounts of Sino Indian relations have difficulty in explaining these recent developments However rather than rejecting neorealist explanations in their entirety he points

towards a theoretical pluralism with an appeal to soft realism and theories of neoliberalism and peaceful change China India Relations will be of interest to scholars of international relations and politics international business and Asian studies

Kashmir and Sindh Suranjan Das,2001 Professor Das provides a fascinating study on the issue of ethnic politics in multi ethnic Third World countries and the non convergence of state and nation in this discussion of the Kashmir and Sindh questions The artificial de colonization process in the South Asian sub continent resulted in the construction of national frontiers for its two successor states that did not rest on a synchronization of ethnic and state boundaries Consequently cross border loyalties amongst significant sections of the population survived the boundaries imposed between the two successor states When in the context of centralizing nation building strategies ethnic political assertions occur in outlying or frontier areas of these nation states the distinction between domestic and external affairs or between home and foreign politics tends to lose its significance in the traditional sense Political actors from across the borders of neighbouring state can then deny the marks of their different objective nationalities and treat themselves as members of a single loyalty group Thus ethnic politics transcends its domestic contours and helps foment regional tensions In such circumstances ethnic assertions tend to constitute vital local or domestic ingredients that define the national security priorities within a particular region The current insurrection in Kashmir and turmoil in Sindh superbly demonstrate this pattern
