Books and Beyond Kenneth Womack, 2008-10-30 There is a strong interest in reading for pleasure or self improvement in America as shown by the popularity of Harry Potter and book clubs including Oprah Winfrey's. Although recent government reports show a decline in recreational reading the same reports show a strong correlation between interest in reading and academic achievement. This set provides a snapshot of the current state of popular American literature including various types and genres. The volume presents alphabetically arranged entries on more than 70 diverse literary categories such as cyberpunk fantasy literature flash fiction GLBTQ literature graphic novels manga and anime and zines. Each entry is written by an expert contributor and provides a definition of the genre an overview of its history a look at trends and themes a discussion of how the literary form engages contemporary issues a review of the genre's reception a discussion of authors and works and suggestions for further reading. Sidebars provide fascinating details and the set closes with a selected general bibliography. Reading in America for pleasure and knowledge continues to be popular even while other media compete for attention. While students continue to read many of the standard classics new genres have emerged. These have captured the attention of general readers and are also playing a critical role in the language arts classroom. This book maps the state of popular literature and reading in America today including the growth of new genres such as cyberpunk zines flash fiction GLBTQ literature and other topics. Each entry is written by an expert contributor and provides a definition of the genre an overview of its history a look at trends and themes a discussion of how the literary form engages contemporary issues a review of the genre's critical reception a discussion of authors and works and suggestions for further reading. Sidebars provide fascinating details and the set closes with a selected general bibliography. Moving Archives Linda M. Morra, 2020-01-15 The image of the dusty undisturbed archive has been swept away in response to growing interest across disciplines in the materials they house and the desire to find and make meaning through an engagement with those materials. Archival studies scholars and archivists are developing related theoretical frameworks and practices that recognize that the archives are anything but static. Archival deposits are proliferating and the architects practitioners and scholars engaged with them are scarcely able to keep abreast of them. Archives archival theory and archival practice are on the move. But what of the archives that were once safely housed and have since been lost or are under threat? What of the urgency that underscores the appeals made on behalf of these archives? As scholars in this volume argue archives their materialization their preservation and the research produced about them are moving in a different way they are involved in an emotionally engaged and charged process one that acts equally upon archival subjects and those engaged with them. So too do archives at once represent members of various communities and the fields of study drawn to them. *Moving Archives* grounds itself in the critical trajectory related to what Sara Ahmed calls affective economies to offer fresh insights about the process of archiving and approaching literary materials. These

economies are not necessarily determined by ethical impulses although many scholars have called out for such impulses to underwrite current archival practices rather they form the crucial affective contexts for the legitimization of archival caches in the present moment and for future use *Periods in Pop Culture* Lauren Rosewarne,2012-06-14 Menstruation seldom gets a starring role on screen despite being experienced regularly by nearly all women for a good many decades of their lives *Periods in Pop Culture* Menstruation in Film and Television by Lauren Rosewarne turns the spotlight on period portrayals in media examining the presence of menstruation in a broad range of contemporary pop culture Drawing on a vast collection of menstruation scenes from film and television this study examines and categorizes representations to unearth what they reveal about society and about our culture s continually fraught relationship with female biology Written from a feminist perspective menstrual representations are analyzed for what they reveal about sexual politics and society Rosewarne s thorough investigation covers a range of topics including menstrual taboos stigmas and fears as well as the inextricable link between periods and femininity sexuality ageing and identity *Periods in Pop Culture* highlights that the treatment of menstruation in the media remains an area of persistent gender inequality *Writing Life Stories* Bill Roorbach,2008-06-17 How to Make Memories into Memoirs Ideas into Essays and Life into Literature From drawing a map of a remembered neighborhood to signing a form releasing yourself to take risks in your work Roorbach offers innovative techniques that will trigger ideas for all writers *Writing Life Stories* is a classic text that appears on countless creative nonfiction and composition syllabi the world over This updated 10th anniversary edition gives you the same friendly instruction and stimulating exercises along with updated information on current memoir writing trends ethics internet research and even marketing ideas You ll discover how to turn your untold life stories into vivid personal essays and riveting memoirs by learning to open up memory access emotions shape scenes from experience develop characters and research supporting details This guide will teach you to see your life more clearly and show you why real stories are often the best ones *Out* ,1999-11 *Out* is a fashion style celebrity and opinion magazine for the modern gay man **Lesbian Couples** D.Merilee Clunis,G.
