year of the pandemic Then This book reinterviews selected storytellers from the first book and asks them to share their experiences from 2020 to 2023 Now The book parades a list of storytellers from various walks of life who were asked to pen down how their personalities have changed over the past four years of the pandemic These stories are accompanied by photographs that curate the lives and experiences of the storytellers Many of these photographs also showcase changes in Filipino culture and society From these stories the book shares insights on how well Filipino society survived the global crisis through the resilience and other admirable traits of Filipinos The two volume book project gives readers an opportunity to observe pattern nuances in behavioral changes that occurred in the country This book will appeal to those who want to know what happened to society particularly to the Philippines during these troubled times It will also appeal to those who desire to know sociological transformations teachers students and the young and old from various positions in society The book will interest those who want to learn more about societal changes in the Philippines Suresh Nanwani is Professor in Practice in the School of Government and International Affairs at Durham University United Kingdom He is an author a writer and an editor and has more than 35 years of development work experience in international organizations He is a certified Mediator with the Center for Effective Dispute Resolution United Kingdom and an Associate Certified Coach with the International Coaching Federation William Loxley is a former Principal Education Specialist at the Asian Development Bank and Executive Director of the International Association for the Evaluation of Academic Achievement IEA headquartered in the Netherlands He is now retired and living in the Philippines where he advises on education pertaining to improving cognitive and emotional thinking skills among the youth He was also a Peace Corps Volunteer in the Philippines

Productive Math Struggle John J. SanGiovanni, Susie Katt, Kevin J. Dykema, 2020-03-09 Seldom has a book been as timely or as necessary as Productive Math Struggle is today One of the remarkable accomplishments of SanGiovanni Katt and Dykema's work lies in how they seamlessly connect the research on high quality tasks high expectations identity and equity to productive math struggle This is perhaps their greatest contribution The authors see productive math struggle as a critical feature of mathematics classrooms that support access equity and empowerment specifically arguing that every student is worthy of struggle From the Foreword by Matt Larson Ph D Past President 2016 2018 National Council of Teachers of Mathematics Associate Superintendent for Instruction Lincoln Public Schools Nebraska Struggle is hard Productive struggle is power All students face struggle and they should it is how they learn and grow The teacher's job is not to remove struggle but rather to value and harness it helping students develop good habits of productive struggle But what's missing for many educators is an action plan for how to achieve this especially when it comes to math Persevering through difficult challenges to reach new learning is the core of Productive Math Struggle When left unsupported struggle can become unproductive and demoralizing negatively influencing students mathematical identities The authors guide teachers through six specific actions including valuing fostering building planning supporting and reflecting on struggle to create a game plan for overcoming obstacles by

sharing Actionable steps activities and tools for implementation Instructional tasks and vignettes representative of each grade level Real world examples showcasing classroom photos and student work samples A book study guide is available under the Free Resources tab that helps math educators to learn together on how to incorporate productive math struggle in their classrooms Revolving around the idea that math is a way of thinking and understanding and not just the pursuit of answers and procedures this book empowers students to embrace productive struggle to build essential skills for learning and living both inside and outside the classroom
