Domenici, Senator Pete V. Domenici, Blythe J. Lyons, Julian J. Steyn, 2006 The senior Senator from New Mexico Pete V. Marchi, 2007 The Always Faithful part of the title has arisen from the Marine Corps motto Semper Fidelis Always Faithful A Marine's Tale gives a realistic view of the anguish a young

person endures in becoming a United States Marine as well as the trauma of war The story also helps the reader understand a certain Italian faction as well as the Italian American culture as it pertains to the Goomba perspective It is not a story about the Marine Corps nor a story about the Mob It is simply about an eighteen year old young man of Italian descent from Trenton New Jersey whose life is touched by both For this teen there is more to life than the customary demands placed on people his age These demands put him on a rollercoaster ride destined to resolve uncertainty Peer pressure sets the main character Joseph Mommalone on a journey which tests his honor in the Marines loyalty to strong Italian family traditions and ability to bear confinement Joe Momma s year long venture before during and after the 1991 Gulf War shows the way to heroism imprisonment vengeance and love He goes from the typical teen back on the block to the traumatic experience of Marine boot camp to the theatre of war where his few days of combat lead to heroism and everlasting friendship with two Marines After the war he and his comrades are recuperating from their wounds back in New Jersey while Joe Momma is being groomed into his uncle s crime family Circumstances land Joe Momma in the county jail where he is threatened by the FBI to reveal information about his mob connections Rather than face three to five years in the Trenton State Penitentiary he plans and successfully completes a daring escape from jail with the help of the two former Marines and his mentor Carmine Scalia who is also a former Marine Before he blends into the criminal underworld he seeks revenge on the cop who put him behind bars In doing so he discovers a plot by a Tucci Crime Family crew boss to destroy him Although the story portrays an adolescent from Trenton New Jersey it is targeted toward a mature audience and will touch the hearts of men and women alike While the book is Marine hardcore as well as street savvy it is sensitive to family values and portrays heroic deeds The book is easy reading full of wit sorrow happiness conflict compassion romance crime and adventure including a twist which will capture one s interest from beginning to end

Living Scared Linda Allone, 2007-11-28 This is the first thing we've done right with this kid argued Dr Epstein after I challenged his decision to alter my son's course of treatment Just listening to this world renowned pediatric neurosurgeon admit to all the negligent care that hurt James and trapped us in the hospital for months terrified me As Dr Epstein rambled on about finally being on the right track with James's care I wondered if I'd ever get my son out of this hospital alive This unimaginable nightmare all began in August 1982 when my youngest son James was admitted to New York Cornell Hospital in Manhattan New York He was diagnosed and treated with radiation for a brainstem glioma tumor The doctors told us that James would probably die in less than a year In 1985 James was admitted to NYU Medical Center in Manhattan New York for what the doctors said was a recurrence of his brain disease James was expected to undergo one surgery to remove the tumor and return home in seven to ten days As a result of repeated mistakes by doctors nurses and physical therapists James was forced to undergo eight surgeries including one surgery that was performed without our knowledge or consent Nine months later my son was discharged from NYU Medical Center permanently injured and totally disabled Sixteen years later we discovered that James never had a brainstem tumor Living Scared begins as a heart wrenching memoir but quickly develops into a hard hitting exposé that probes indifference complacent attitudes reckless behavior incompetence eroding ethics descending standards of practice and widespread corruption in medicine Medical Negligence Is A National Crisis Screaming newspaper headlines doctor operates on the wrong leg or surgical instrument left inside patient have become a commonplace occurrence as medical negligence spreads pervasively throughout our nation What once was so shocking to people now hardly raises an eyebrow because allowed behavior has become accepted behavior Sadly we have no one to blame for this atrocity but ourselves because our society has come to accept the avoidable mistakes that occur in all hospitals as human error and that's wrong An estimated 100 000 people die from hospital infections every year Another 100 000 people die from medical negligence Some 1.5 million people a year are injured as a result of medication mistakes Hospitals rarely blame doctors or nurses for the medical mistakes that occur in hospitals More often than not hospital administrators invariably blame the system each time a patient is injured or killed as a result of a medical mistake Disciplinary action against the doctor or nurse involved is rarely executed An example of this Chief Executive Sam Odle of Methodist Hospital in Indianapolis said Whenever something like this happens regarding a medication mix up that killed three infants on September 23 2006 it is not an individual responsibility it's an institutional responsibility The truth is human negligence is often responsible for a majority of the mistakes that occur in hospitals but hospital administrators will never admit to this fact Instead they shrewdly manipulate the public and minimize public outrage by blaming the system each

time a patient dies as a result of medical negligence This strategy works very well because the system is intangible and people don't seem to get as fired up when the system fails as opposed to a living breathing human who failed to do their job and was responsible for the death of a patient This nationwide crisis approaching epidemic proportions has prompted the U S government to issue a warning to all hospitals to clean up their act after a national survey showed that 47 percent of Americans were directly affected or knew of someone af
