Reading and Loving

Leila Berg, 2017-11-22 Originally published in 1977 Learning to read is probably the central educational achievement of any child's life. It is also a central concern for parents and teachers. Leila Berg, known for her work in children's literature, believes that the enjoyment of books and the acquisition of reading and writing is not primarily an academic or a technical skill but grows from a warmly physical and emotional base of shared enjoyment with another human being. This book traces the varied ways that babies learn to communicate and discusses the place of books in the lives of different groups in the community. It examines the types of books used in school and demonstrates that in many cases books themselves provide the major inhibition to the development of reading through their stilted and often formalistic vocabulary. The author's aim is that all children's first experience of reading should be a loving and sensuous one so that they can come to discover the power of books themselves.

Sweet Legacy Tera Lynn Childs, 2025-05-13 Three sisters. One destiny. Nothing to lose. Greer has always known she was privileged though she had no idea how rare her second sight was even among her triplet monster-fighting sisters. But when a god starts messing with her mind, can Greer step up in her pretty high heels to prevent anything derailing their mission? Grace loves her adopted brother Thane, but now that he's back and part of her sisters' team, it's clear his past is full of dark and dangerous secrets. She wants to trust him, but every clue raises more questions. Will his secrets put them and their fight to save the world at risk? Gretchen knows she can count on her sisters to help her stop the monsters. But after bonding with some beasties in the abyss, she realizes her role as a huntress carries a far heavier burden than she ever imagined. How can she be sure what her birthright demands of her now? As monsters and gods descend on San Francisco in battle, ready to drive the sisters to unravel ancient riddles, locate the lost door between realms, and claim their immortal legacy before it's too late.

On the World and Ourselves Zygmunt Bauman, Stanislaw Obirek, 2015-09-14 Unde malum from where does evil come? That is the question that has plagued humankind ever since Eve, seduced by the serpent, tempted Adam to taste the forbidden fruit of the tree of knowledge of good and evil. Throughout history, the awareness of good and evil has always been linked to the awareness of choice and to the freedom and responsibility to choose. This is what makes us human. But the responsibility to choose is a burden that weighs heavily on our shoulders, and the temptation to hand this over to someone else, be they a demagogue or a scientist who claims to trace everything back to our genes, is a tempting illusion like the paradise in which humans have at last been relieved of the moral responsibility for their actions. In the second series of their conversations, Zygmunt Bauman and Stanislaw Obirek reflect on the life challenges confronted by the denizens of the fragmented, individualized society of consumers and the form taken in such a society by the fundamental aspects of the human condition, such as human responsibility for the choice between good and evil, self-formation and self-assertion, the need for recognition, or the call to empathy, mutual respect, human dignity, and tolerance.
