Whose History? Linda Symcox,2002 In the 1990s the debate over what history and more importantly whose history should be taught in American schools resonated through the halls of Congress the national press and the nation s schools Politicians such as Lynne Cheney Newt Gingrich and Senator Slade Gorton and pundits such as Rush Limbaugh John Leo and Charles Krauthammer fiercely denounced the findings of the National Standards for History which subsequently became a major battleground in the nation s ongoing struggle to define its historical identity To help us understand what happened Linda Symcox traces the genealogy of the National History Standards Project from its origins as a neo conservative reform movement to the drafting of the Standards through the 18 months of controversy and the debate that ensued and the aftermath Broad in scope this case study includes debates on social history world history multiculturalism established canons national identity cultural history and liberal education Symcox brilliantly illuminates the larger issue of how educational policy is made and contested in the United States revealing how a debate about our children s education actually became a struggle between competing political forces

Integrative Strategies for the K-12 Social Studies Classroom Timothy Lintner,2013-03-01 While the concept of integration or an interdisciplinary curriculum has been around for decades the purposeful practice of integration is a relatively new educational endeavor Though classroom teachers often say they integrate there generally seems to be a lack of understanding of what this thing called integration is theory and what it is supposed to look like in the classroom practice Arguably no other discipline has felt the pressure to integrate more than

social studies Marginalized by federal initiatives such as No Child Left Behind and suffering from a general crisis of credibility social studies has been pushed further and further to the proverbial back burner of educational importance Yet regardless of perspective or position social studies remains ripe for integration The crux of this book is to provide educators insights and strategies into how to integrate social studies with other discipline areas Calling upon national experts in their respective fields each chapter chronicles the broad relationship between individual content areas and social studies Multiple examples of integrative opportunities are included At the end of each chapter is a series of grade specific integrative lesson plans ready for implementation This book was purposefully designed as a how to hands on ready reference guide for educators at all stages and all levels of teaching *Circular - Office of Education United States.
