No Choice Canadian Women Tell Their Story Of Illegal Abortion:

No Choice The Childbirth by Choice Trust, 2023-05-24 Twenty five years after its publication in 1998 No Choice remains an essential read in Canada and around the world where abortion rights are still under threat These stories spanning six decades illustrate the terrifyingly dangerous means that people will resort to in order to end a pregnancy This digital edition includes the original foreword from Doris Anderson a new foreword and a review from Michele Landsberg No Choice should be required reading for every student every daughter every elected man or woman who dares to think of meddling ever again with women s reproductive rights

Abortion Shannon Stettner, Kristin Burnett, Travis Hay, 2017-12-01 When Henry Morgentaler Canada s best known abortion rights advocate died in 2013 activists and scholars began to reassess the state of abortion in this country In Abortion some of the foremost researchers in Canada challenge current thinking by revealing the discrepancy between what people are experiencing on the ground and what people believe the law to be after the 1988 Morgentaler decision Grouped into four themes History Experience Politics and Reproductive Justice these essays showcase new theoretical frameworks and approaches from law history medicine women s studies and political science as they document the diversity of abortion experiences across the country from those of Indigenous women in the pre Morgentaler era to a lack of access in the age of so called decriminalization Together the contributors make a case for shifting the debate from abortion rights to reproductive justice and caution against focusing on choice or medicalization without understanding the broader context of why and when people seek out abortions

Beyond Bylines Barbara M. Freeman, 2012-08-01 Beyond Bylines Media Workers and Women s Rights in Canada explores the ways in which several of Canada s women journalists broadcasters and other media workers reached well beyond the glory of their personal bylines to advocate for the most controversial women s rights of their eras To do so some of them adopted conventional feminine identities while others refused to conform altogether openly and defiantly challenging the gender expectations of their day The book consists of a series of case studies of the women in question as they grappled with the concerns close to their hearts higher education for women healthy dress reforms the vote equal opportunities at work abortion lesbianism and Aboriginal women s rights Their media reflected their respective eras intellectual magazines daily and weekly newspapers radio feminist public relations alternative women s periodicals and documentary film made for television Barbara Freeman takes an interdisciplinary approach combining biography history and communication studies to demonstrate how their use of different media both enabled and limited these women in their ability to be daring advocates for gender equality She shows how a number of these women were linked through the generations by their memberships in activist women s organizations

Without Apology Shannon Stettner, 2016-08-26 Until the late 1960s the authorities on abortion were for the most part men politicians clergy lawyers physicians all of whom had an interest in regulating women s bodies Even today when we hear women speak publicly about abortion the voices are usually those of the leaders of women s and abortion rights organizations women who

hold political office and on occasion female physicians We also hear quite frequently from spokeswomen for anti abortion groups Rarely however do we hear the voices of ordinary women women whose lives have been in some way touched by abortion Their thoughts typically owe more to human circumstance than to ideology and without them we run the risk of thinking and talking about the issue of abortion only in the abstract Without Apology seeks to address this issue by gathering the voices of activists feminists and scholars as well as abortion providers and clinic support staff alongside the stories of women whose experience with abortion is more personal With the particular aim of moving beyond the polarizing rhetoric that has characterized the issue of abortion and reproductive justice for so long Without Apology is an engrossing and arresting account that will promote both reflection and discussion Gender, Health, and Popular Culture Cheryl Krasnick Warsh, 2011-07-07 Health is a gendered concept in Western cultures Customarily it is associated with strength in men and beauty in women This gendered concept was transmitted through visual representations of the ideal female and male bodies and ubiquitous media images resulted in the absorption of universal standards of beauty and health and generalized desires to achieve them Today genuine or self styled experts from physicians to newspaper columnists to advertisers offer advice on achieving optimal health Topics in this collection are wide ranging and include childbirth advice in Victorian Australia and Cold War America menstruation films Canadian abortion tourism the Pap smear the Body Worlds exhibition and fat liberation Masculinity is explored among drunkards in antebellum Philadelphia and family memoirs during the 1980s AIDS epidemic Seemingly objective public health advisories are shown to be as influenced by commercial interests class gender and other social differentiations as marketing approaches are and the message presented is mediated to varying degrees by those receiving it This book will be of interest to scholars in women s studies health studies marketing media studies social history and anthropology and popular culture **Abortion and Mothering: Research, Stories, and Artistic Expressions**

Heather Jackson, Jessica Shaw, 2021-11-15 Abortion and Mothering Research Stories and Artistic Expressions is a collection of academic research personal narratives and art that comments on different perspectives on abortion and mothering Scholarly research is balanced with voices and experiences from outside of academia through the inclusion of personal narratives poetry and art The collection is rooted in the idea that there are not women who have abortions and women who have babies but that they are the same women at different points in their lives By considering the intersection of abortion and mothering and the liminal spaces in between the reader is challenged to explore some of the culturally and socially constructed complexities that surround the decisions that people make about to their reproductive lives **Unsafe**

Abortion and Women's Health Colin Francome, 2016-03-09 Unsafe abortion remains one of the most neglected sexual and reproductive health problems according to the World Health Organisation In recent years it has been estimated that nearly 44 million abortions occur annually leading to around 47 000 deaths At this rate a woman will die of an unsafe abortion every 11 minutes Bringing together a wealth of information from around the world this book argues that the time has come for a

great change in legislation advocating a shift towards the legalization of abortion to improve the health of women in poorer countries With attention to circumstances in each of the major continental regions an outline of the global situation is provided to reveal the major trends in the provision and procurement of abortion as well their effects Presenting data drawn from over a hundred countries covering over ninety per cent of the world s population based on published statistical information changes to legal frameworks court cases and the accounts of local commentators and activists Unsafe Abortion and Women s Health will be of interest to scholars and students of the sociology of medicine gender and reproductive health social and health policy and feminist studies

Just Watch Us Christabelle Sethna, Steve Hewitt, 2018-03-21 From the late 1960s to the mid 1980s in the midst of the Cold War and second wave feminism the RCMP security service prompted by fears of left wing and communist subversion monitored and infiltrated the women s liberation movement in Canada and Quebec Just Watch Us investigates why and how this movement was targeted weighing carefully the presumed threat its left wing ties presented to the Canadian government against the defiant challenge its campaign for gender equality posed to Canadian society Based on a close reading of thousands of pages of RCMP documents declassified under Canada s Access to Information Act and the corresponding Privacy Act Just Watch Us demonstrates that the security service s longstanding anti Communist focus distorted its threat assessment of feminist organizing Combining gender analysis and critical approaches to state surveillance Christabelle Sethna and Steve Hewitt consider the machinations of the RCMP including its bureaucratic evolution intelligence gathering operations and impact as well as the evolution of the women s liberation movement from its broad transnational influences to its elusive quest for unity among women across lines of ideology and identity Significantly the authors also grapple with the historiographical methodological and ethical difficulties of working with declassified security documents and sensitive information A sharp eyed inquiry into spy policies and tactics in Cold War Canada Just Watch Us speaks to the serious political implications of state surveillance for social justice activism in liberal democracies

Feminist Figure Girl Lianne McTavish, 2015-01-08 Analyzes the author s transformation from academic to figure competitor Feminist Figure Girl chronicles the transformation of art history professor Lianne McTavish from a university professor into an extraordinarily tanned and crystal encrusted bikini wearing figure girl Figure competitions seek a softer appearance than traditional forms of bodybuilding but still require rigorous weightlifting an extreme protein diet and many hours of posing in high heels While training for a figure show McTavish combined autoethnographic methods participant observation and feminist theory to find new ways of thinking about physique culture and the female body The author who specializes in critical visual culture and the history of the body explores such contemporary issues as body image fat studies identity politics and postfeminism while rethinking fitness culture diet regimes feminist politics reproductive activism performance art and the social function of photography Written in a lively personal style reminiscent of McTavish s popular blog she clearly explains the complex ideas stemming from the theoretical work of such writers as Judith Butler Simone de

Beauvoir Michel Foucault Iris Marion Young Edmund Husserl and Maurice Merleau Ponty The book also includes many photos documenting McTavish's physical transformation Dieting and exercising with the goal of posing onstage in a bikini and heels is not what many think of when they think of feminism but then those people have never read Feminist Figure Girl Lianne McTavish brings figure competitions and feminism two seemingly opposed things together in this intellectually challenging deeply personal book This is a must read for anyone with a passion for feminism and fitness Caitlin Constantine editor of the Fit and Feminist blog Gender Stereotyping Rebecca Cook, Simone Cusack, 2011-07-19 Drawing on domestic and international law as well as on judgments given by courts and human rights treaty bodies Gender Stereotyping offers perspectives on ways gender stereotypes might be eliminated through the transnational legal process in order to ensure women's equality and the full exercise of their human rights A leading international framework for debates on the subject of stereotypes the Convention on the Elimination of All Forms of Discrimination against Women was adopted in 1979 by the UN General Assembly and defines what constitutes discrimination against women It also establishes an agenda to eliminate discrimination in all its forms in order to ensure substantive equality for women Applying the Convention as the primary framework for analysis this book provides essential strategies for eradicating gender stereotyping Its proposed methodology requires naming operative gender stereotypes identifying how they violate the human rights of women and articulating states obligations to eliminate and remedy these violations According to Rebecca J Cook and Simone Cusack in order to abolish all forms of discrimination against women priority needs to be given to the elimination of gender stereotypes While stereotypes affect both men and women they can have particularly egregious effects on women often devaluing them and assigning them to subservient roles in society As the legal perspectives offered in Gender Stereotyping demonstrate treating women according to restrictive generalizations instead of their individual needs abilities and circumstances denies women their human rights and fundamental freedoms **No Choice** Childbirth by Choice Trust, 1998 **Abortion & Common Sense** Ruth Dixon-Mueller, Paul K. B. Dagg, 2002 ABORTION COMMON SENSE cuts through the rhetoric and misinformation surrounding the abortion debate to look at the facts Four of every ten women in the United States will have at least one abortion in their lifetimes Worldwide 46 million women terminate their pregnancies every year some safely some dangerously Demonstrating that placing arbitrary restrictions on girls and women's access to safe early abortion is illogical unworkable and unfair the authors urge that the humane treatment of problem pregnancies be integrated into health and family planning programs as a routine element of good medical care and of an equitable and rational social policy Sampling of reviews a near perfect primer on reproductive health and policy issues accessible to the lay public Conscience A NewsJournal of Catholic Opinion For the helping professional the information and perspectives presented are invaluable Cognica Canadian Counselling Association I would hope that every medical student has the opportunity to read this book Wendy Savage British Medical Women's Federation balanced and well researched with global and culturally sensitive perspectives Journal of the

Abortion Understanding the Debate author Kathlyn Gay addresses this topic in a balanced fashion She explains the history of the procedure as well as the laws and court cases regarding abortion Gay presents the different viewpoints evenhandedly explaining the positions of those who describe themselves as pro life as well as those who use the term pro choice and she explores the possibility of common ground between the two sides Book jacket *The Changing Voice of the Anti-Abortion Movement* Paul Saurette,Kelly Gordon,2016-04-06 When journalists academics and politicians describe the North American anti abortion movement they often describe a campaign that is male dominated aggressive and even violent in its tactics religious in motivation anti women in tone and fetal centric in arguments and rhetoric Are they correct In *The Changing Voice of the Anti Abortion Movement* Paul Saurette and Kelly Gordon suggest that the reality is far more complicated particularly in Canada Today anti abortion activism increasingly presents itself as pro women using female spokespersons adopting medical and scientific language to claim that abortion harms women and employing a wide range of more subtle framing and narrative rhetorical tactics that use traditionally progressive themes to present the anti abortion position as more feminist than pro choice feminism Following a succinct but comprehensive overview of the two hundred year history of North American debate and legislation on abortion Saurette and Gordon present the results of their systematic five year quantitative and qualitative discourse analysis supplemented by extensive first person observations and outline the implications that flow from these findings Their discoveries are a challenge to our current assumptions about the abortion debate today and their conclusions will be compelling for both scholars and activists alike **Revue Canadienne de Recherche en Sciences Infirmières** ,2001 *La interrupción voluntaria del embarazo* Martha Patricia Castañeda Salgado,2003-01-01 Personal and Political Lorraine Greaves,2018-10-16 Details the innovative courageous and creative activism of the second wave women s health movement in Canada between 1960 and 2010 This activism re claimed women s bodies created women centered spaces and services and challenged a medically dominated healthcare system Feminists challenged diagnoses treatments laws policies and research as well as the care women were offered the way they saw their bodies and themselves Legions of women and a few men made changes ranging from abortion rights to preserving women s hospitals to the legalization of midwifery to requiring gendered research Changes that still resonate in the 21st century
