*The Cinema of Víctor Erice* Linda C. Ehrlich, 2007-02-01 To coincide with the recent DVD release of *The Spirit of the Beehive* this paperback collection of essays focuses on the work of acclaimed Spanish director Víctor Erice. Originally published in hardcover under the title *An Open Window* this expanded edition draws on original essays, reprints and new translations from an international group of writers. New to this edition are four essays from noted film scholars including editor Linda C. Ehrlich as well as three added essays from the filmmaker himself. Both the original and new material provide a deeper appreciation of Erice's three feature length films *The Spirit of the Beehive* *El espíritu de la colmena* 1973 *El Sur* 1982 and *Dream of Light* aka *The Quince Tree Sun* *El sol del membrillo* 1992 as well as his shorter works including his most recent accomplishment *La morte rouge* 2006. This anthology examines the aesthetic, historical and sociological forces at work in Erice's films and includes an extensive interview with the director. This broad array of writings provides insight into not only three unforgettable films but also into twentieth century Spanish society as well as world cinema. *The Cinema of Víctor Erice: An Open Window* will serve as an important resource to measure the career of this director who along with Buñuel, Saura and Almodóvar has helped show the world the creative range of Spanish cinema. With additional essays, translations and illustrations this paperback edition explores new avenues of expression pursued by one of the most poetic of modern filmmakers.

**Nuestro tiempo**, 1911      **Nuestro mundo**, 1927      **Las posibilidades económicas de nuestros nietos**  
John Maynard Keynes, 2015-11-19 Por primera vez la obra de John Maynard Keynes, el economista más influyente del siglo XX, puesta a disposición del gran público. Sin duda hoy la mayoría de los ciudadanos cree en el poder de los gobiernos y de las intervenciones públicas a la hora de evitar las depresiones, el desempleo masivo y el empobrecimiento. Sin embargo, prácticamente nadie sabe que esta idea y su correspondiente desarrollo técnico es de John Maynard Keynes, uno de los padres de la economía como ciencia y probablemente el economista más citado cuya obra, sin embargo, es para muchos desconocida. Más de seis décadas después de su muerte queda de él y del keynesianismo. Para responder a esta pregunta, Joaquín Estefanía rescata de sus Ensayos de persuasión los textos de mayor calado político, accesibles a cualquier lector y enormemente representativos de la vigencia de Keynes. En su amplia introducción a los siete ensayos que conforman la segunda parte de este libro de impresionante actualidad en el siglo XXI, Joaquín Estefanía analiza en qué medida Keynes y su obra siguen siendo guías para el futuro. La lúcida semblanza que hace del creador de la macroeconomía retrata a este como un pensador clave y contracorriente. Keynes rechaza frontalmente el comunismo, no le gustan ni el conservadurismo ni el laborismo de su poca y cree que hay que hacer algo. Reseña de Joaquín Estefanía y su relectura amena y estimulante de los textos más asequibles y certeros de John Maynard Keynes. Josep Maria Ureta. *El Periódico de Catalunya*. Magistral crónica de las ideas muy bien escrita que contagia rápidamente al lector. Alternativas económicas      **Authentic Reconstruction** John Bold, Peter Larkham, Robert Pickard, 2017-12-14 Notions of authenticity lie at the heart of many questions about heritage and identity in the built

environment These questions are most pertinent when buildings have been destroyed in disaster or war and the built fabric is being reconstructed to reinstate traditional or historic appearances in place of what was lost Authentic Reconstruction examines this idea of reconstruction using it as a prompt to examine a range of deeper issues on heritage and the built environment From post WWII reconstruction programmes through to the rebuilding of historic cultural landscapes lost in natural disasters this collection of essays by heritage specialists provides a wide range of case studies and discussions Each presents responses to crises and lessons learned in order to extrapolate general guidelines for future actions by politicians architects and planners in reconstructing buildings The book also looks beyond disaster and war noting how authenticity bears on political intentions and image building exploring how reconstruction is used to tell a political or historical story so conditioning the ways in which the built environment is perceived and appreciated by its users This is not just about the buildings as bricks and mortar but about perceptions of identity and the social and historical values which buildings and spaces embody for a richly diverse population This book will be valuable to all who are concerned with heritage as practitioners or consumers particularly those concerned with reconstruction and the creation of authentic places and experiences architects architectural historians town planners preservationists conservationists and those involved in heritage management and material culture
