Nueva Era De Las Desigualdades La:

La nueva era de las desigualdades Pierre Rosanvallon, Jean-Paul Fitoussi, 1997-03-01 Múltiples síntomas lo testimonian sin lugar a dudas las sociedades modernas experimentan un nuevo malestar Sus ciudadanos ya no saben muy bien quiénes son ni quiénes los relaciona a unos con otros Temen vivir mañana peor que hoy y desconfían cada vez más de sus dirigentes Esta crisis no puede reducirse a los meros efectos desestructurantes de la globalización económica Los problemas más visibles proceden es cierto de las conmociones que está entrando Pero hay otro padecimiento más subterráneo que remite a los efectos destructores del individualismo contemporáneo También aparecen nuevas formas de desigualdad Así fallan simultáneamente las instituciones que hacen funcionar el vínculo social y la solidaridad crisis del Estado providencia las formas de la relación entre economía y sociedad crisis del trabajo y las identidades individuales y colectivas crisis del sujeto Por no haber apreciado la importancia de esas conmociones las fuerzas políticas tradicionales se encuentran cada vez más apartadas de la sociedad De allí el riesgo de un aumento de la aceptación social de un populismo perverso o de posiciones francamente autoritarias Qué hacer entonces Entre la resignación paralizante y la utopía que conforta por su efecto de encantamiento sigue siendo posible otro camino Hoy existe espacio para la redefinición de un reformismo radical es decir que retome las cosas desde la raíz Analizando la realidad de las sociedades modernas a partir de la experiencia francesa este libro propone un análisis vigoroso de la creciente desigualdad social y de los caminos posibles para solucionarla *Desigualdad y globalización* Robert Castel, 2001 *The Oxford Handbook of the Sociology of Latin America* Xóchitl Bada, Liliana Rivera Sánchez, 2021 The essays included in this volume provide both an assessment of key areas and current trends in sociology specifically with regard to contemporary sociology in Latin America as well as a collection of innovative empirical studies The volume serves as an effective bridge of communication allowing sociological academics to mobilize and disseminate research dynamics from Latin America to the rest of the world Education Systems in Historical, Cultural, and Sociological Perspectives Daniel Tröhler, Ragnhild Barbu, 2012-03-26 For nearly half a century research on education systems has been increasingly popular However this popularity was long restricted primarily to internationally linked policy makers and education planners often backed up by international organizations such as the OECD but also by governmental or para governmental organizations within the individual countries These institutional affiliations provided education research with a specific character that often centres on notions such as excellence efficiency or standards The specific comparative character of this policy driven research agenda triggered the development of suitable research techniques such as comparative statistics and pertinent sub disciplines such as cognitive psychology Backed up by powerful global institutions this agenda purported to be rather unique and it tended to ignore the cultural complexity of the educational field and those research approaches that address this complexity This volume includes different historical cultural and sociological approaches to the education systems and to questions as to how research on education systems can be undertaken beyond the parameters of the existing research

agenda They demonstrate how pertinent problems of research on education systems can only be tackled taking an international and interdisciplinary approach with regard to both research questions and methods concerning education systems

Tackling Child Poverty in Latin America Alberto Minujin, Mónica González Contró, Raul Mercer, 2016-11-15 This book highlights current debates about concepts methods and policies related to poverty in Latin America It focuses on child and adolescent well being and the issue of inclusive societies Its goal is to promote new and critical thinking about these issues globally and in Latin America The authors emphasize the need to develop new conceptual and practical avenues that can address the issues of poverty marginalization exclusion and old and new inequalities in post neoliberal times The objective is to advance the rights of all children and adolescents in the region This urgent book represents a unique opportunity for practitioners policy makers researchers and students to get access to the most up to date perspectives on child poverty and inequality from a conceptual and practical point of view

Nuevo ensayo político-social de la República Mexicana. Recuento de las desigualdades y la pobreza en México, 1790-1930. vol. 1 Mario Luis Fuentes Alcalá, Saúl Arellano Almanza, 2023-04-05 Este libro es el primer tomo de una extensa investigación en proceso de desarrollo en el cual se indaga en torno a las desigualdades las condiciones de pobreza y de marginación que han caracterizado a la población nacional desde 1790 hasta nuestros días Los autores utilizan como fuente de información a los Censos de Población y Vivienda por lo que el libro también puede considerarse como una historia general de los censos en nuestro país y una historia particular de la estructura social Se trata de una investigación novedosa porque muestra que la estructura de los censos en su lógica interna responde en cada uno de ellos a una visión de poder preguntar implica definir de manera previa qué es lo que al grupo gobernante le interesa saber y eso presupone una definición de lo que entiende por el poder el Estado el Gobierno y la sociedad

La nueva era de la humanidad Pascal Picq, 2020-01-16 No nos damos cuenta de la ruptura que suponen el alargamiento de la vida el uso creciente de prótesis y trasplantes la manipulación genética de embriones y seres vivos la digitalización generalizada el uploading la transferencia del contenido del cerebro biológico a un ordenador los robots la internet de las cosas el big data En definitiva la superación de los límites en los cuales han estado encerrados los seres humanos a lo largo de los tiempos Una nueva era apunta ya que paradójicamente deber afrontar las consecuencias del éxito del Homo sapiens que está comportando la destrucción de la biodiversidad y el medioambiente En un diálogo apasionante dos mundos hablan en este libro sobre los desafíos del futuro Por un lado un prestigioso paleontólogo Pascal Picq formado en la cultura analítica y por otro una joven estudiante africana nativa digital El primero analiza los cambios que se están operando como si analizara el paso del paleolítico al neolítico mientras la joven le cuestiona y formula todo tipo de preguntas seremos inmortales dónde quedan los ideales del humanismo cómo se conjugan los derechos humanos con las discriminaciones que pueden comportar el acceso a xenotrasplantes o a la criogénesis Un repaso apasionante a los logros del transhumanismo pero también a los múltiples debates que plantea

Pathologies of inequality in Latin America

José Antonio Alonso, Rodolfo Gutiérrez, 2025-06-30 In the last two decades increasing inequalities in a broad range of countries have prompted many scholars to consider inequality as the main cause for social unrest weakened institutions or people's disaffection toward democracy. However, this interpretation often relies on fragile theoretical foundations and conceptual ambiguity. To clarify these possible correlations, the present volume focuses on Latin America as a region characterized by a persistently high level of inequality. It aims to disentangle the different meanings of inequality, taking into account that it is a complex phenomenon whose measure depends on the variables adopted to measure distributive asymmetries. Consider the complex of internal and external factors that impact distributive patterns, including those related to institutional arrangements and bargain power among different social actors. Examine the main effects of inequality, particularly on social services and subjective wellbeing, violence and insecurity, as well as institutional weakening. Finally, evaluate the effectiveness of different policies against inequality, the design of welfare systems, the pre-distributive and redistributive impacts of fiscal measures, and the creation of a culture of tolerance about inequality.

Desigualdad en Chile Claudia Mora, 2013 En palabras de Carlos Pe a los seres humanos venimos al mundo provistos de dotaciones o recursos muy desiguales. Algunos de ellos son fruto del azar natural, una discapacidad, por ejemplo, o por la inversa, una especial aptitud física. Otros son resultado de la historia, por ejemplo, la clase social en que se vino al mundo. Esas diversas dotaciones sitúan a su poseedor en un determinado lugar del espacio social, dirán en qué parte de las múltiples e invisibles escalas del prestigio y del poder podrá descansar. Este libro intenta a la luz del conocimiento acumulado responder esas preguntas.

Persistence and Emergencies of Inequalities in Latin America Pablo Vommaro, Pablo Baisotti, 2022-02-21 This book adopts a multidimensional approach to analyze both the historical and emerging factors that contribute to make Latin America and the Caribbean the most unequal region in the world. Social inequality is a historical characteristic of the region, but at the beginning of the 21st century, a handful of progressive governments seemed to be adopting policies that could reduce this historical trend. Many of these efforts, however, were blocked or reversed by the COVID-19 pandemic, which both exposed the persistence of historical trends and contributed to the emergency of new forms of inequality in the region. The different chapters in this contributed volume adopt a multidimensional intersectional perspective to analyze both the persistence and the emergency of social devices of production and reproduction of inequalities in the diverse Latin American and Caribbean temporal spatialities. The issues analyzed in the different chapters revolve around four main axes: a) persistence of generational and intergenerational inequalities; b) structural gender inequality; c) intertwined social inequalities (race, class, and social structure); and d) historical and economic dimension of inequality. *Persistence and Emergencies of Inequalities in Latin America: A Multidimensional Approach* will be of interest to researchers interested in the study of social inequality and social justice in different fields of the human and social sciences, such as sociology, political science, history, economics, anthropology, and education. It will also be a valuable tool for policy makers and social activists engaged in the discussion, advocacy, and

implementation of public policies aimed at reducing social inequalities *Citizens of Fear* Susana Rotker, Katherine Goldman, 2002 Citizens in Latin American cities live in constant fear amidst some of the most dangerous conditions on earth In that vast region 140 thousand people die violently each year and one out of three citizens have been directly or indirectly victimized by violence Citizens of Fear in part assembles survey results of social scientists who document the pervasiveness of violence But the numbers tell only part of the story **Indicators of Quality of Life in Latin America** Graciela Tonon, 2016-03-21 This volume sheds new light on the use of quantitative qualitative and synthetic indicators for the measurement of quality of life in different countries of Latin America Organized in three parts the book presents the methodology for the construction of new indicators discusses quality of urban life from a geographical perspective and examines quality of life of different populations The book focuses on the social economic political geographical and demographic dimensions It covers a wide range of topics including the ways to measure social political and spatial inequalities the changes in urban quality of life the construction of a synthetic indicator for the assessment of habitability the measuring of spatial segregation in midsize and smaller cities by using thematic cartography and synthesis maps and the concept of habitability It includes research conducted on the quality of life of different population groups working boys and girls high school students and older people **International Handbook of Education for the Changing World of Work** Rupert Maclean, David Wilson, 2009-06-29 The aim of this Handbook is to review the developments that have occurred in Technical and vocational education and training TVET and that may help improve the field The Handbook provides information on TVET models that occur in different parts of the world reflects best and innovative practice and wherever possible uses case studies as examples The 220 authors are representative of the various regions of the world and major international organisations involved in TVET This volume presents the work of established researchers as well as the work of promising young researchers Intended as the universally accepted resource for the field the Handbook provides a comprehensive coverage of cutting edge developments in research policy and practice in TVET within a single source It will assist those involved in TVET at any level in making informed decisions and further advance and improve the field and to bridge the gap between vocational and academic education in the 21st century Urban Inequalities Graciela H. Tonon, 2024-07-20 This book proposes an interdisciplinary and multidimensional perspective of urban inequalities based on a range of theoretical methodological and professional approaches Chapters consider different types of inequalities in health education age housing energy space civic rights social exclusion ethnicity poverty segregation work status nutrition public policies democracy human rights technology digital learning subjective well being environment and climate change Contributions analyze the situation of different groups children youth and indigenous people The book highlights the importance of policy making to overcome inequalities and addresses the key role of citizen participation *Social Justice for Children in the South* Graciela H. Tonon, 2022-11-08 This book considers that contextual factors are important for the

achievement of social justice and it recognizes that vulnerability to which children are exposed is a phenomenon throughout the planet particularly in the South It presents a theoretical review of social justice as well as different situations of vulnerability children experience in their daily lives in which they can be injured affecting their well being and the exercise of their rights It examines the impact of the COVID 19 pandemic on children considered as a vulnerable group warranting special social policy considerations It also presents the need to change power structures in knowledge production and decision making processes to achieve social justice for children the importance of investing in children the exclusion of children from participation in certain activities and the shame of not being able to participate in equal conditions with others the lives of migrant children belonging to ethnic minorities exposed to language barriers and access to technological devices and the analysis of the process of social re integration of children from conditions of armed conflict The book concludes that governments need to assume social justice as part of universal human interests providing security conditions for well being and guaranteeing social justice for all children **La Nueva Era de la Humanidad** Jay Tatsay,2020-06-01 Qu es

de centralidad del trabajo como eje de la integración social el cambio tecnológico la heterogeneidad histórica de los sistemas de protección social y la evolución de los niveles de gasto social se conjugan con el examen a escala regional en América Latina en torno a las implicaciones sobre las agendas sociales de los dos giros políticos ocurridos en varios países durante el transcurso del presente siglo primero a la izquierda y luego a la derecha lo que lleva a plantear diferentes escenarios y proponer posibles rutas más progresistas Esta obra discurre alrededor de una crisis de poca busca contribuir a pensar desde América Latina el presente y el futuro de las sociedades contemporáneas y a analizar sus grandes problemas tanto aquellos que la historia arrastra sin resolver como los que se desprenden de la nueva constelación de riesgos sociales que caracterizan nuestra época La experiencia tras cuatro decenios de predominio del neoliberalismo permite observar los resultados de una apuesta fundamentalista por el mercado y los individuos recapitular sus efectos sobre la distribución social de recursos económicos políticos y simbólicos y el crecimiento exponencial y global de las desigualdades que conlleva una erosión peligrosa de la cohesión social en múltiples escalas Quienes colaboran en este libro dialogan y hacen una reflexión crítica alrededor de la agenda propuesta desde las Naciones Unidas a través de los Objetivos del Desarrollo Sostenible en temas cruciales como la eliminación de la pobreza la reducción de desigualdades el trabajo decente la igualdad de género paz justicia e instituciones sólidas y la protección del medio ambiente pero además revelan problemáticas centrales de la Cuestión Social en la actualidad provenientes de ciclos de reformas sociales contradictorias entre sí

Medicine, Risk, Discourse and Power John Martyn Chamberlain, 2015-11-19 This book critically explores from a comparative international perspective the role medicine plays in constructing and managing natural and social risks including those belonging to modern medical technology and expertise Drawing together chapters written by professional practitioners and social scientists from the UK South America Australia and Europe the book offers readers an insightful and thought provoking analysis of how modern medicine has transformed our understanding of both ourselves and the world around us but in so doing has arguably failed to fully recognize and account for its unintended and negative effects This is an essential read for social scientists practitioners and policymakers who want to better understand how they can develop new ways of thinking about how modern medicine can promote social goods and enhance public health
