Architectural Space in Eighteenth-Century Europe Meredith Martin, 2017-07-05 Architectural Space in Eighteenth Century Europe Constructing Identities and Interiors explores how a diverse pan European group of eighteenth century patrons among them bankers bishops bluestockings and courtesans used architectural space and decor to shape and express identity Eighteenth century European architects understood the client's instrumental role in giving form and meaning to architectural space In a treatise published in 1745 the French architect Germain Boffrand determined that a visitor could judge the character of the master for whom the house was built by the way in which it is planned decorated and distributed This interdisciplinary volume addresses two key interests of contemporary historians working in a range of disciplines one the broad question of identity formation most notably as it relates to ideas of gender class and ethnicity and two the role played by different spatial environments in the production not merely the reflection of identity at defining historical and cultural moments By combining contemporary critical analysis with a historically specific approach the book's contributors situate ideas of space and the self within the visual and material remains of interiors in eighteenth century Europe In doing so they offer compelling new insight not only into this historical period but also into our own

the globe trotting gemstone expert whose travels to India gave Cartier access to the world's best rubies, emeralds and sapphires inspiring the celebrated Tutti Frutti jewelry. Francesca Cartier Brickell whose great grandfather was the youngest of the brothers has traveled the world researching her family's history tracking down those connected with her ancestors and discovering long lost pieces of the puzzle along the way. Now she reveals never before told dramas, romances, intrigues, betrayals and more. The Cartiers also offers a behind the scenes look at the firm's most iconic jewelry: the notoriously cursed Hope Diamond, the Romanov emeralds, the classic panther pieces and the long line of stars from the worlds of fashion, film and royalty who wore them from Indian maharajas and Russian grand duchesses to Wallis Simpson, Coco Chanel and Elizabeth Taylor. Published in the two hundredth anniversary year of the birth of the dynasty's founder Louis François Cartier, this book is a magnificent definitive epic social history shown through the deeply personal lens of one legendary family.

The Story of French New Orleans Dianne Guenin-Lelle, 2016-02-04. What is it about the city of New Orleans? History, location and culture continue to link it to France while distancing it culturally and symbolically from the United States. This book explores the traces of French language, history and artistic expression that have been present there over the last three hundred years. This volume focuses on the French, Spanish and American colonial periods to understand the imprint that French socio-cultural dynamic left on the Crescent City. The migration of Acadians to New Orleans at the time the city became a Spanish dominion and the arrival of Haitian refugees when the city became an American territory oddly reinforced its Francophone identity. However, in the process of establishing itself as an urban space in the Antebellum South, the culture of New Orleans became a liability for New Orleans elite after the Louisiana Purchase. New Orleans and the Caribbean share numerous historical, cultural and linguistic connections. The book analyzes these connections and the shared process of creolization occurring in New Orleans and throughout the Caribbean Basin. It suggests French New Orleans might be understood as a trope for unscripted original Creole social and cultural elements. Since being Creole came to connote African descent, the study suggests that an association with France in the minds of whites allowed for a less racially bound and contested social order within the United States.

A Traveller in War-Time Churchill,2016-02-22 PREFACE I am reprinting here in response to requests certain recent experiences in Great Britain and France These were selected in the hope of conveying to American readers some idea of the atmosphere of what it is like in these countries under the immediate shadow of the battle clouds It was what I myself most

wished to know My idea was first to send home my impressions while they were fresh and to refrain as far as possible from comment and judgment until I should have had time to make a fuller survey Hence I chose as a title for these articles intended to be preliminary A Traveller in War Time I tried to banish from my mind all previous impressions gained from reading I wished to be free for the moment to accept and record the chance invitation or adventure wherever met with at the Front in the streets of Paris in Ireland or on the London omnibus Later on I hoped to write a book summarizing the changing social conditions as I had found them Unfortunately for me my stay was unexpectedly cut short I was able to avail myself of but few of the many opportunities offered With this apology the articles are presented as they were written I have given the impression that at the time of my visit there was no lack of food in England but I fear that I have not done justice to the frugality of the people much of which was self imposed for the purpose of helping to win the war On very good authority I have been given to understand that food was less abundant during the winter just past partly because of the effect of the severe weather on our American railroads which had trouble in getting supplies to the coast and partly because more and more ships were required for transporting American troops and supplies for these troops to France This additional curtailment was most felt by families of small income whose earners were at the front or away on other government service Mothers had great difficulty in getting adequate nourishment for growing children But the British people cheerfully submitted to this further deprivation Summer is at hand It is to be hoped that before another winter sets in American and British shipping will have sufficiently increased to remedy the situation
