Educational Crisis

and Reform Abbas Rashid (Executive director), Irfan Muzaffar, 2015 Comprising of contributions from India Pakistan Bangladesh Sri Lanka and Nepal this book examines the attempts to reform specific aspects of the education sector of the above mentioned countries of South Asia *Political Economic Perspectives of China's Belt and Road Initiative* Christian Ploberger, 2019-07-30 The book begins with an overview on China's Belt and Road Initiative highlighting its complex character as a domestic and international development strategy and offering an up to date evaluation of it In response to this complexity the book attempts to highlight the Belt and Road Initiative's double character and how it will address primary domestic development challenges that the Chinese government is facing by adding an international focus to a domestic development strategy This in turn supports the understanding of China's political economic policy and strategy formulation by reminding that supporting China's domestic development is still the primary task of its government Even as the domestic aspect of the Belt and Road Initiative is highlighted its regional and international relevance cannot be ignored either The Belt and Road Initiative will support a continuation of the persisting debate about the impact that China's rise generates and to what extent China can be characterised as a satisfied status quo power or a dissatisfied revisionist power In this context the book draws attention to the various impacts that the Belt and Road Initiative generates in different regional settings However the book also identifies some of the limitations that China's Belt and Road Initiative encounters despite the seemingly convincing economic goals it offers and explains why a few of the countries like India are resisting the lure *Global Perspectives on China's Belt and Road Initiative* Florian Schneider, 2025-10-01 The year 2013 saw the launch of the largest most influential investment initiative in recent memory China's Belt and Road Initiative BRI This globe spanning strategy has reshaped local economies and regional networks and it has become a contested subject for scholars and practitioners alike How should we make sense of the complex interactions that the BRI has enabled Understanding these processes requires truly global perspectives alongside careful attention to the role that local actors play in giving shape to individual BRI projects The contributions in *Global Perspectives on China's Belt and Road Initiative* Asserting Agency through Regional Connectivity provide both big picture assessments of China's role in regional and global interactions and detailed case studies that home in on the role agency plays in BRI dynamics Written by leading area studies scholars with diverse disciplinary expertise this book reveals how Chinese efforts to recalibrate the world are taken up challenged revamped and reworked in diverse contexts around the world *Voices On South Asia: Interdisciplinary Perspectives On Women's Status, Challenges And Futures* Emma J Flatt, Vani Swarupa Murali, Silvia Tieri, 2020-06-24 This book investigates the contemporary social political and economic issues faced by women in South Asia It focuses on the policies and practices that have challenged or perpetuated gender inequalities and the evolving role of women in South Asian societies With contributions from practitioners policy makers academics and civil society activists from across South Asia this volume provides a broad and diverse range of viewpoints on South Asian women's labour force participation political participation education and

health as well as country specific insights The volume is conceived as a stage for debate where specific insights act as a window into wider themes practices and policies Each essay is followed by policy relevant recommendations and suggestions for avenues to improve current practice This book will be relevant for undergraduate students and lecturers of South Asian studies development and policy studies as well as industry practitioners *India in South Asia*, 2021 **Islam in History and Politics** Roy Asim, 2006 **Human Development and Social Power** Ananya Mukherjee Reed, 2008-06-17 In South Asia and beyond human development continues to be in a state of crisis Each successive Human Development Report HDR and the pervasive global failure to achieve the Millennium Development Goals are constant reminders of this crisis An equally and even more distressing dimension of human development is its great unevenness Even in cou **Minorities and Populism - Critical Perspectives from South Asia and Europe** Volker Kaul, Ananya Vajpeyi, 2020-02-28 This volume assembles renowned scholars to address for the first time the relationship between minorities and populism in South Asia and Europe from a critical perspective Despite the very different and to some extent opposite historical and political trajectories there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe In India the Hindu majority rebels against wide ranging minority rights anchored in the Constitution In Europe the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy Despite all rhetoric there are obvious dangers of majoritarianism Populist parties are divisive partisan disregard minority rights engage in lynching social division stigmatization and exclusion turning minorities into second class citizens There is a profound structural connection between minorities and the current rise of populism in India and Europe But there remains a deep perplexity and also anxiety Does the presence of minorities necessarily have to trigger majoritarian policies Are there no solutions to this dilemma Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration But eventually they seem to have failed Why so Are multiculturalism and the recognition of differences still options today On the other hand most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west But is liberal democracy really so bad in dealing with pluralism This volume collecting a selection of the Reset DOC Venice Padua Delhi dialogue series is going to answer two fundamental questions First what precisely is the nexus between minorities and populism in South Asia and Europe Starting from those case studies the authors will also draw some general theoretical inferences about the nature of populism Secondly given the dangers of populism for minorities the volume will look for the most adequate and feasible solutions
