Visual Persuasion Paul Messaris, 1996-12-05 Paul Messaris is an extremely thoughtful commentator on the world of visuals He has studied advertising visuals for many years and his insights are always stimulating and sometimes even controversial This book makes an important contribution to the literature in two fields visual communication and advertising I recommend it for faculty and students as well as professionals in the advertising field Sandra Moriarty Professor University of Colorado With an informal writing style and examples both thoughtful and illustrative Paul Messaris in his Visual Persuasion leads the reader through the often complex field of visual literacy related to advertising images with high style and intellect When so much information is conveyed through quickly edited and carefully controlled mass media images Visual Persuasion is a vital book toward understanding the impact on individuals cultures and society of persuasive visual messages Paul Martin Lester Ph D Author of Visual Communication with Messages A smartly reasoned and elegantly written treatment of visual argumentation authored by one of America s most respected authorities on visual communication James Lull The pictures in TV commercials magazine ads and other forms of advertising often convey meanings that cannot be expressed as well or at all through words or music Visual Persuasion is an exploration of these unique aspects of advertising By virtue of their ability to simulate the appearance of the physical world pictures can become surrogate objects of desire or other emotions which ads subsequently associate with products By exploiting viewers assumptions of a direct automatic connection between photography and reality images can serve as proof of advertising claims Because of the implicit nature of visual argumentation and the relative lack of social accountability that images enjoy in comparison with words pictures can be used to make advertising claims that would be unacceptable if they were spelled out verbally Using these characteristics of visual persuasion as a starting point this important book analyzes a variety of commercial political and social issue advertisements A separate chapter examines the role of pictures in cross cultural advertising Visual Persuasion is recommended for upper level undergraduate students and graduate students in communication and media studies It also contains insights that will be valuable to students in courses in cultural studies sociology anthropology and advertising

Persuasion in Advertising ,2004 A practical and in depth guide to the art of advertising persuasion this book explains how advertising works and sets out strategies for advertisers to adopt drawing on research concepts and case examples from the US and Europe

The Language of Persuasion in Advertising. A Corpus-based Critical Discourse Analysis Seda Evirgen, 2021-05-04 Master

s Thesis from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 0 Justus Liebig University Giessen language English abstract The thesis at hand puts a special emphasis on the use of persuasive language in online native advertisements from The New York Times After careful examination the corpus will be compiled of three native advertisements from the field of technology by the sponsors Intel Dropbox and Slack The limitation to these native advertisements and persuasive linguistic devices and techniques was necessary with regard to the scope of this thesis As no linguistic analysis of native advertisements could be found there also was no reference to follow Therefore the thesis at hand lays the foundation for further research in this area The aim is to conduct a corpus based Critical Discourse Analysis in order to investigate and answer two main questions 1 Do online native advertisements make use of the same persuasion methods as previously researched for other advertising types 2 What are the most prominent persuasive linguistic devices and techniques in the online native advertisements from The New York Times In addition to the CDA the corpus based approach is expected to provide quantitative evidence of the existence of discourse and to identify repetitive linguistic patterns of persuasive language use in native advertising The thesis will be structured as follows First the theoretical framework provides general information about the functions and characteristics of advertising while further focusing on native advertisement and the language of advertising It continues with explaining the concept of persuasive language on the basis of ethos logos and pathos and introduces some powerful persuasive techniques in advertisement Further linguistic devices of persuasive language on the phonetic lexical morphological and syntactic level will be defined Additionally the concept of Critical Discourse Analysis will be explained in detail as the thesis at hand follows the CDA framework of Fairclough The data collection method and data analysis procedure will be outlined in Chapter 3 This is followed by an analysis of three online native advertisements from the publisher The New York Times After the analysis the results will be presented and evaluated in order to assess the hypothesis Finally the conclusion provides a summary of the findings and suggests further research opportunities

Advances in Intelligent Networking and Collaborative Systems Leonard Barolli, 2024-09-14 This book provides latest research findings innovative research results methods and development techniques from both theoretical and practical perspectives related to intelligent social networks and collaborative systems intelligent networking systems mobile collaborative systems and secure intelligent cloud systems as well as reveals synergies among various paradigms in such a multi disciplinary field of intelligent collaborative systems With the fast development of the Internet there is a shift from the traditional sharing of information and applications as the main purpose of the Web to an emergent paradigm which locates

people at the very center of networks and exploits the value of people's connections, relations and collaboration. Social networks are also playing a major role in the dynamics and structure of intelligent Web-based networking and collaborative systems. Virtual campuses, virtual communities and organizations strongly leverage intelligent networking and collaborative systems by a great variety of formal and informal electronic relations such as business-to-business, peer-to-peer and many types of online collaborative learning interactions including the emerging e-learning systems. This has resulted in entangled systems that need to be managed efficiently and in an autonomous way. In addition, latest and powerful technologies based on grid and wireless infrastructure as well as cloud computing are currently enhancing collaborative and networking applications a great deal but also facing new issues and challenges. The principal purpose of the research and development community is to stimulate research that will lead to the creation of responsive environments for networking and at longer term the development of adaptive, secure, mobile and intuitive intelligent systems for collaborative work and learning.

Digital Video Advertising Strategies Nirma Jayawardena, Mitchell Ross, Sara Quach, Park Thaichon, Abhishek Behl, 2025-07-10 A comprehensive guide to navigating the complex world of digital marketing. From 3D video and augmented reality AR to virtual reality VR, mixed reality MR, artificial intelligence AI, blockchain and high definition video. **Economic Growth** Edward A. Hudson, 2020-10-06 How does economic growth work? Beginning with the history of leading countries over the past 2000 years, Economic Growth finds which countries have achieved sustained growth and how they did it. The effects of growth are examined on a human scale. The benefits of growth are enormous in terms of life, health, education, leisure and opportunity while the downsides can be managed by appropriate policies. Economic Growth develops a new theory of growth. This new theory is based on careful analysis of actual growth; it covers the causes and mechanisms as well as the results of growth. This new theory extends conventional theory by operating at the industry level and by placing demand considerations at the forefront of growth. Demand growth based on product innovation, marketing, credit and the consumer society drives the economy forward while supply growth based on investment and process innovation sustains the growth in spending and incomes. Growth is not automatic but in the right conditions demand and supply expansion work together to generate sustained growth. Economic Growth offers a new view of growth, unique in its combination of historical depth, intellectual clarity and practical relevance. Its original insights will interest academic and professional economists while its comprehensive treatment and lucid explanations make it an excellent guidebook for anyone interested in economic growth.
