Political Expression and Ethnicity Kayleen M. Hazlehurst, 1993-02-28 Examination of the political manifestation of Maori ethnicity no Australian reference Political Expression and Ethnicity Kayleen M. Hazlehurst, 1993-02-28 Examination of the political manifestation of Maori ethnicity no Australian reference In Praise of the Beloved Language Joshua A. Fishman, 1997 CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students researchers and practitioners in all of the social and language related sciences carefully selected book length publications dealing with sociolinguistic theory methods findings and applications It approaches the study of language in society in its broadest sense as a truly international and interdisciplinary field in which various approaches theoretical and empirical supplement and complement each other The series invites the attention of linguists language teachers of all interests sociologists political scientists anthropologists historians etc to the development of the sociology of language **American Anthropology in Micronesia** Robert C. Kiste, Mac Marshall, 1999-01-01 American Anthropology in Micronesia An Assessment evaluates how anthropological research in the Trust Territory has affected the Micronesian people the U S colonial administration and the discipline of anthropology itself Contributors analyze the interplay between anthropology and history in particular how American colonialism affected anthropologists use of history and examine the research that has been conducted by American anthropologists in specific topical areas of socio cultural anthropology Although concentrating largely on disciplinary concerns the authors consider the connections between work done in the era of applied anthropology and that completed later when anthropology was pursued mainly for its own sake The focus then returns to applied concerns in more recent years and issues pertaining to the relevance of anthropology for the world of practical affairs It will be of essential interest to students and scholars of Pacific Islands studies and the history of anthropology Gangs and Youth Subcultures Kayleen M. Hazlehurst, Cameron Hazlehurst, Despite nearly a century of scholarly inquiry into street gangs and youth subcultures no single work systematically reflects on comparative international experiences with gangs Gangs and Youth Subcultures takes up this challenge Kayleen Hazlehurst and Cameron Hazlehurst argue that theories of gang behavior in immigrant communities and the influence of transnational crime syndicates are better tested in more than one host society Similar phenomena would be better understood if placed in a comparative context To this purpose the editors assembled expert scholars and policy advisers from North America Europe South Africa and Australasia Gangs and Youth Subcultures lays the ground work for an explanation of why gangs continue to grow in strength and influence and why they have spread to remote locations This book will interest scholars and teachers of criminology and sociology justice system administrators as well as law enforcement officers and youth workers internationally **The Thin Brown Line** Tahu Hera Kukutai, 2010 This study critically examines inequality within New Zealand's indigenous M ori population Specifically it asks whether strong ties to M ori identity incur higher socio economic costs Historical expository analysis is undertaken in concert with statistical analyses of data from the

New Zealand Census of Population and Dwellings 1996 2001 2006 and a longitudinal study of M ori households I find strong evidence of ethnic and socio economic segmentation within the M ori population In each census individuals identified exclusively as M ori by ethnicity are the most disadvantaged across a wide range of socio economic indicators Those identified as M ori solely by ancestry are the least disadvantaged Pronounced differences in M ori language ability and intra M ori partnering are also evident indicating that the association between M ori identification and disadvantage may be partially explained by ties to M ori identity Regression analyses of multi wave survey data reveal a complex set of relationships Changing patterns of identification suggest self designation as a M ori is best conceived as a fluid contingent process rather than a stable individual trait M ori identification is generally a less salient predictor of disadvantage than specific ties to M ori identity expressed through network ties language and practices However while some ties to M ori identity appear to incur high socio economic costs other ties are inconsequential or advantageous Taken together the analyses contribute new insights into patterns of inequality between M ori and highlight the need for more careful theorizing and interpretation of ethnicity variables in empirical analysis **Political Science** ,1998 Ethnic Forum ,1993 Akka Bakka Frank Heidemann,2006 **The Struggle to Preserve Turangawaewae** Holly YoungBear-Tibbetts,1996
