Esthetic Experiments Marek Wojtaszek,2014-08-26 Contemporary American landscape is wrought with ongoing processes and phenomena of technicization observable at the intersections of multiple layers of society This book brings to attention their cultural and political aspects emphasizing timeliness and necessity of academic intervention into and evaluation of their specificity and ramifications Presenting critical and analytical account of cultural narratives which define speak of and use diverse technologies of writing sound media representations surveillance war the texts compiled in this volume investigate the coalescence between technological production on the one hand and the textual on the other The idea of the book responds to the current academic appeal inspired by postmodern questioning of the foundations and realized most importantly by deconstruction to dismantle one of the constitutive pillars of Western civilization namely between techne and episteme In their interpretative mode the texts proceed largely experimentally bridging the gap between techne and episteme In doing so they endeavor to reformulate and complexify an experience of American culture The book aims to clarify and exemplify that the junction of text and technology implies that meanings are embedded in a material Consequently the publication introduces and popularizes the assumption that American cultural experience emerges as a genuine experiment of an esthetic nature
