Rouben Mamoulian:

Defining Cinema Michael Slowik, 2024 *Defining Cinema* Rouben Mamoulian and Hollywood Film Style 1929-1957 takes a holistic look at Mamoulian's oeuvre by examining both his stage and his screen work and also brings together insights from his correspondence, his theories on film, and analysis of the films themselves. It presents a filmmaker whose work was innovative and exciting, who pushed hard on cinema's potential as an art form and who in many ways helped move cinema towards the kind of entertainment that it remains today.

Peerless Kurt Jensen (Writer on film), 2024 *Rouben Mamoulian* Tom Milne, 1970 *Mamoulian* David Lührssen, 2013 In this meticulously researched biography David Lührssen paints the influential director Mamoulian as a socially conscious artist who sought to successfully combine art and commercial entertainment.

Rouben Mamoulian, 1971 *The Song Is You* Bradley Rogers, 2020-10-15 Musicals: it is often said burst into song and dance when mere words can no longer convey the emotion. This book argues that musicals burst into song and dance when one body can no longer convey the emotion. Rogers shows how the musical's episodes of burlesque and minstrelsy model the kinds of radical relationships that the genre works to create across the different bodies of its performers, spectators, and creators every time the musical bursts into song. These radical relationships borne of the musical's obsessions with bad performances of gender and race are the root of the genre's progressive play with identity and thus the source of its subcultural power. However, this leads to an ethical dilemma: Are the musical's progressive politics thus rooted in its embrace of regressive entertainments like burlesque and minstrelsy? *The Song Is You* shows how musicals return again and again to this question and grapple with a guilt that its joyous pleasures are based on exploiting the laboring bodies of its performers. Rogers argues that the discourse of integration, which claims that songs should advance the plot, has functioned to deny the radical work that the musical undertakes every time it transitions into song and dance. Looking at musicals from *The Black Crook* to *Hamilton*, Rogers confronts the gendered and racial dynamics that have always undergirded the genre and asks how we move forward.

Love Me Tonight Geoffrey Holden Block, Distinguished Professor of Music History and Humanities Emeritus, Geoffrey Block, 2024 In this Oxford Guide to Film Musicals, renowned author Geoffrey Block introduces scholars, students, and general readers to the remarkable musical film *Love Me Tonight* (1932) from a accessible musicological perspective, giving readers of all stripes new ways to hear this classic film.

Hollywood on the Hudson Richard Koszarski, 2008 Thomas Edison invented his motion picture system in New Jersey in the 1890s, and within a few years most American filmmakers could be found within a mile or two of the Hudson River. They planted themselves there because they needed the artistic and entrepreneurial energy that D.W. Griffith realized New York had in abundance. But as the going rate for land and labor skyrocketed and their business grew more industrialized, most of them moved out. The way most historians explain it, the role of New York in the development of American film ends here. In *Hollywood on the Hudson*, Richard Koszarski rewrites an important part of the history of American cinema. During the 1920s and 1930s, film industry

executives had centralized the mass production of feature pictures in a series of gigantic film factories scattered across Southern California while maintaining New York as the economic and administrative center But as Koszarski reveals many writers producers and directors also continued to work here especially if their independent vision was too big for the Hollywood production line East Coast filmmakers Oscar Micheaux Rudolph Valentino Ben Hecht Charles MacArthur Paul Robeson Gloria Swanson Max Fleischer and others quietly created a studio system without back lots long term contracts or seasonal production slates They substituted newsreel photography for Hollywood glamour targeted niche audiences instead of middle American families ignored accepted dramatic conventions and pushed the boundaries of motion picture censorship Rebellious and unconventional they saw the New York studios as laboratories not factories and used them to pioneer the development of new technologies from talkies to television new genres new talent and ultimately an entirely new vision of commercial cinema

Harnessing the Technicolor Rainbow Scott Higgins, 2009-02-17 Like Dorothy waking up over the rainbow in the Land of Oz Hollywood discovered a vivid new world of color in the 1930s The introduction of three color Technicolor technology in 1932 gave filmmakers a powerful tool with which to guide viewers attention punctuate turning points and express emotional subtext Although many producers and filmmakers initially resisted the use of color Technicolor designers led by the legendary Natalie Kalmus developed an aesthetic that complemented the classical Hollywood filmmaking style while still offering innovative novelty By the end of the 1930s color in film was thoroughly harnessed to narrative and it became elegantly expressive without threatening the coherence of the film's imaginary world *Harnessing the Technicolor Rainbow* is the first scholarly history of Technicolor aesthetics and technology as well as a thoroughgoing analysis of how color works in film Scott Higgins draws on extensive primary research and close analysis of well known movies including *Becky Sharp* *A Star Is Born* *Adventures of Robin Hood* and *Gone with the Wind* to show how the Technicolor films of the 1930s forged enduring conventions for handling color in popular cinema He argues that filmmakers and designers rapidly worked through a series of stylistic modes based on the demonstration restraint and integration of color and shows how the color conventions developed in the 1930s have continued to influence filmmaking to the present day Higgins also formulates a new vocabulary and a method of analysis for capturing the often elusive functions and effects of color that in turn open new avenues for the study of film form and lay a foundation for new work on color in cinema
