Instruments and Procedures, 1981 *Scorecasting* Tobias Moskowitz, L. Jon Wertheim, 2011-01-25 In *Scorecasting* University of Chicago behavioral economist Tobias Moskowitz teams up with veteran Sports Illustrated writer L. Jon Wertheim to overturn some of the most cherished truisms of sports and reveal the hidden forces that shape how basketball, baseball, football, and hockey games are played, won, and lost. Drawing from Moskowitz's original research as well as studies from fellow economists such as bestselling author Richard Thaler, the authors look at the influence home field advantage has on the outcomes of games in all sports and why it exists; the surprising truth about the universally accepted axiom that defense wins championships; the subtle biases that umpires exhibit in calling balls and strikes; in key situations, the unintended consequences of referees' tendencies in every sport to swallow the whistle; and more. Among the insights that *Scorecasting* reveals: Why Tiger Woods is prone to the same mistake in high-pressure putting situations that you and I are; Why professional teams routinely overvalue draft picks; The myth of momentum or the hot hand in sports and why so many fans, coaches, and broadcasters fervently subscribe to it; Why NFL coaches rarely go for a first down on fourth down situations even when their reluctance to do so reduces their chances of winning. In an engaging narrative that takes us from the putting greens of Augusta to the grid iron of a small parochial high school in Arkansas, *Scorecasting* will forever change how you view the game, whatever your favorite sport might be. *Winning Fantasy Football* Stephen Nover, 2013-09-25 With an estimated 20 to 30 million participants, fantasy football has burst into the mainstream of American pastimes. CBS, FOX, ESPN, and ABC devote significant airtime to fantasy predictions and advice, and there are over a dozen magazines devoted solely to the subject. Despite its meteoric rise in popularity, there has never been an authoritative and comprehensive book covering all aspects of the game. Until now. In this invaluable handbook, sports writer, handicapper, and gambling aficionado Stephen Nover presents a first of its kind guide for dominating your league year in and year out. First-time players and fantasy gurus alike will benefit and profit from the hard-won wisdom, insider tips, and battle-proven strategies found here. From off-season study and draft-day strategies to team maintenance and playoff mentality, this book delves deeper than any magazine to reveal the overall strategies and underlying philosophies that win every year. Behavioral Economics Edward Cartwright, 2018-01-23. Over the last few decades, behavioral economics has revolutionized the discipline. It has done so by putting the human back into economics by recognizing that people sometimes make mistakes, care about others, and are generally not as cold and calculating as economists have traditionally assumed. The results have been exciting and fascinating and have fundamentally changed the way we look at economic behavior. This textbook introduces all the key results and insights of behavioral economics to a student audience. Ideas such as mental accounting, prospect theory, present bias, inequality aversion, and learning are explained in detail. These ideas are also applied in diverse settings such as auctions, stock market crashes, charitable donations, and health care to show why behavioral economics is crucial to understanding the world around us. Consideration is also given to what makes people happy and how we can potentially nudge people to be happier. This new edition contains expanded and updated coverage of contract theory, bargaining in the family, time and risk, and stochastic reference points among other topics to ensure that readers are kept up to speed with this fast-paced field. The companion website is also updated with a range of new questions and worked examples. This book remains the ideal introduction to behavioral economics for advanced undergraduate and graduate students.
