# Rousseaus Social Contract A Conceptual Analysis

**Michael J. Thompson**

## **Rousseaus Social Contract A Conceptual Analysis:**

**Rousseau's Social Contract** John B. Noone,1980

**On the Social Contract** Jean-Jacques Rousseau,1988-11-15

Contents include a note on the translation introduction by Peter Gay and a bibliography **Jean-Jacques Rousseau and Adam Smith** Charles L Griswold,2017-10-02 Jean Jacques Rousseau and Adam Smith are giants of eighteenth century thought The heated controversy provoked by their competing visions of human nature and society still resonates today Smith himself reviewed Rousseau s Discourse on Inequality and his perceptive remarks raise an intriguing question what would a conversation between these two great thinkers look like In this outstanding book Charles Griswold analyzes compares and evaluates some of the key ways in which Rousseau and Smith address what could be termed the question of the self Both thinkers discuss what we are by nature in particular whether we are sociable or not who we have become whether we can know ourselves or each other how best to articulate the human condition what it would mean to be free and whether there is anything that can be done to remedy our deeply imperfect condition In the course of examining their rich and contrasting views Griswold puts Rousseau and Smith in dialogue by imagining what they might say in reply to one another Griswold s wide ranging exploration includes discussion of issues such as narcissism self falsification sympathy the scope of philosophy and the relation between liberty religion and civic order A superb exploration of two major philosophers Jean Jacques Rousseau and Adam Smith A Philosophical Encounter is essential reading for students and scholars of these two figures eighteenth century philosophy the Enlightenment moral philosophy and the history of ideas It will also be of interest to those in related disciplines such as political theory economics and religion *Jean-Jacques Rousseau and the 'Well-Ordered Society'* Maurizio Viroli,1988 This book studies a central but hitherto neglected aspect of Rousseau s political thought the concept of social order and its implications for the ideal society which he envisages The antithesis between order and disorder is a fundamental theme in Rousseau s work and the author takes it as the basis for this study In contrast with a widely held interpretation of Rousseau s philosophy Professor Viroli argues that natural and political order are by no means the same for Rousseau He explores the differences and interrelations between the different types of order which Rousseau describes and shows how the philosopher constructed his final doctrine of the just society which can be based only on every citizen s voluntary and knowing acceptance of the social contract and on the promotion of virtue above ambition The author also shows the extent of Rousseau s debt to the republican tradition and above all to Machiavelli and revises the image of Rousseau as a disciple of the natural law school *The General Will in the Modern Constitutional State* Joseph R. Reiser,2025-09-12 In *The General Will in the Modern Constitutional State* Joseph R Reiser challenges standard interpretations of Rousseau according to which his political theory either has nothing to offer the present but a radical critique or commends an illiberal plebiscitary democracy Reiser argues that the principles of political right Rousseau sets forth in *The Social Contract* are correct and that the political institutions of modern constitutional and democratic states

substantially satisfy them Rousseau's central normative commitments to popular sovereignty constitutional law representative government the rule of law periodic elections universal suffrage and equal basic rights for all correspond closely to our contemporary understanding of what political legitimacy requires Taking seriously Rousseau's claim that a sort of contract lies at the foundation of every political society Reisert offers a novel interpretation of willing a general will arguing that the experience of formulating and acting upon a general will is as common as are the experiences of membership in a civic association and of undertaking any collective activity as a member of such an organization Reisert expertly demonstrates that when we recognize that a nation's true constitution is the content of the people's general will we will be able to see how our political institutions mostly satisfy Rousseau's normative principles of political right and we will also discover new perspectives on constitutional politics and constitutional interpretation The General Will in the Modern Constitutional State will be of interest to those who study Rousseau's political thought history of political thought constitutionalism and constitutional theory

*Individualism in the United States* Stephanie M. Walls, 2015-02-26 A comprehensive look at the foundations and current state of individualism in the US including an assessment of the implications for American democracy and citizenship

**Conceptual Tension** Leon J. Goldstein, 2014-11-12 Conceptual Tension Essays on Kinship Politics and Individualism is a critical philosophical examination of the role of concepts and concept formation in social sciences Written by Leon J Goldstein a preeminent Jewish philosopher who examined the epistemological foundations of social science inquiry during the second half of the twentieth century the book undertakes a study of concept formation and change by looking at the four critical terms in anthropology kinship politics parliament and Rousseau's concept of the general will and sociology individualism The author challenges prevailing notions of concept formation and definition specifically assertions by Gottlieb Frege that concepts have fixed clear boundaries that are not subject to change Instead drawing upon arguments by R G Collingwood Goldstein asserts that concepts have a historical dimension with boundaries and meanings that change with their use and context Goldstein's work provides insight for philosophers historians political scientists anthropologists and Judaica scholars interested in the study and meaning of critical concepts within their fields

**Rousseau, the Age of Enlightenment, and Their Legacies** Robert Wokler, 2012-04-08 Robert Wokler was one of the world's leading experts on Rousseau and the Enlightenment but some of his best work was published in the form of widely scattered and difficult to find essays This book collects for the first time a representative selection of his most important essays on Rousseau and the legacy of Enlightenment political thought These essays concern many of the great themes of the age including liberty equality and the origins of revolution But they also address a number of less prominent debates including those over cosmopolitanism the nature and social role of music and the origins of the human sciences in the Enlightenment controversy over the relationship between humans and the great apes These essays also explore Rousseau's relationships to Rameau Pufendorf Voltaire and Marx reflect on the work of

important earlier scholars of the Enlightenment including Ernst Cassirer and Isaiah Berlin and examine the influence of the Enlightenment on the twentieth century One of the central themes of the book is a defense of the Enlightenment against the common charge that it bears responsibility for the Terror of the French Revolution the totalitarian regimes of the twentieth century and the Holocaust      **Cambridge Companion to Rousseau's Social Contract** David Lay Williams,Matthew W. Maguire,2024-02-22 Opens up a masterpiece of political philosophy for a new generation including influential arguments about justice equality and freedom      *Democracy* Ross Harrison,2002-09-11 Democracy surrounds us like the air we breath and is normally taken very much for granted Across the world democracy has become accepted as an unquestionably good thing Yet upon further examination the merits of democracy are both paradoxical and problematic and the treasured values of liberty and equality can be used to argue both for and against it In the historical section of the book Ross Harrison clearly traces the history of democracy by examining the works of amongst others Plato and Aristotle Hegel and Marx Informed by facts and detailed knowledge of these famous thinkers Harrison provides a clear and cogent justification of democracy

*Understanding the Political Philosophers* Alan Haworth,2011-02-25 This absorbing study invites you to climb inside the heads of the major political philosophers as it were and to see the world through their eyes Beginning with Socrates and concluding with post Rawlsian theory Alan Haworth presents the key ideas and developments with clarity and depth Each chapter provides a concentrated study of a given thinker or group of thinkers and together they constitute a broad account of the main arguments in political philosophy There are chapters on Socrates Plato Aristotle Hobbes Locke Rousseau the Utilitarians Marx Rawls and post Rawlsian developments This is a fascinating lively and engaging look at the topic and will be appropriate for any student taking a course in political philosophy or political thought      Reimagining Justice, Human Rights and Leadership in Africa Everisto Benyera,2019-08-08 Failed attempts in Africa to develop democratise and instil virtues of a just state and society which promote benevolent leadership and advance political and economic rights and freedoms call for a new imagination By exploring a wide range of issues concerning justice human rights and leadership this book makes two major contributions to the extant literature in each of these areas Firstly as a project in decoloniality it constitutes an epistemic break from mainstream logics and approaches to understanding state society and development in Africa presenting an approach that is filtered through a Euro American lens that reifies the hegemony of a particular spatio temporality In other words it emphasises the importance of situatedness by thinking from rather than about or with Africa And secondly it addresses a fundamental shortcoming in decolonial thought which is often criticised for rejecting western paradigms of thought without providing viable alternatives The issues covered include state failure in Africa the geopolitics of US and NATO military interventions on the continent individual states responses to international law indigenous moral political leadership authentic inclusion of marginalised voices in development practice an endogenous approach to environmental ethics and a spiritualist reflection on the need for Africa to chart her own course to political social and

economic redemption By searching for alternative paths to justice human rights and leadership this book represents an effort to actualise the core vision of the African Renaissance to find African solutions for African problems      **Rousseau's Social Contract** David Lay Williams,2014-01-13 Rousseau s Social Contract An Introduction offers a thorough and systematic tour of this notoriously paradoxical and challenging text      **Pathology Diagnosis and Social Research** Neal Harris,2021-04-24 The diagnosis of social pathologies has long been a central concern for social researchers working within and on the peripheries of Critical Theory As this volume will elaborate the pathology diagnosing imagination enables a thicker form of social critique fostering research that pushes beyond the parameters of liberal social and political thought Faced with impending climatic catastrophe the accelerating inequities of neoliberalism the ascent of authoritarian movements globally and one dimensional computational modes of thought a viable form of normative social critique is now more important than ever The central aim of this volume is thus to champion the pathology diagnosing imagination as a vehicle for conducting such timely social criticism      **Rethinking Modernity** Oana Șerban,2023-11-25 This edited collection examines alternative or entangled modernities as competitive narratives that blend ethics aesthetics and critical thinking to depict the human condition It includes chapters covering the rivalry between scientific and aesthetic revolutions contemporary trends in postmodernity and study cases on visual arts and cinema The collection applies a philosophical view of visual arts and cinema and competitive narratives of post modernity that arise from ethics and aesthetics as complementary fields Key audiences for the book are students PhD candidates and scholars from the field of philosophy aesthetics and cultural studies This volume emerges from contributions held at the International Conference Rethinking Modernity Transitions and Challenges organized by the Research Center for the History and Circulation of Philosophical Ideas of the University of Bucharest      *Descent of the Dialectic* Michael J. Thompson,2024-08-01 This book reconstructs the concept and practice of dialectics as a means of grounding a critical theory of society At the center of this project is the thesis of phronetic criticism or a form of reason that is able to synthesize human value with objective rationality This book argues that defects in modern forms of social reason are the result of the powers of social structure and the norms and purposes they embody Increasingly modern societies are driven not by substantive values concerning human good but by the technical imperatives of economic management leading to a cultural condition of nihilism that has eroded dialectical consciousness The first half of the book demonstrates the various ways that social power erodes and undermines critical rational forms of consciousness The second part of the book constructs an alternative basis for critical reason by showing how it requires seeing human value as essentially ontological that is constituted by objective forms of sociality that either promote human freedom or pervert our capacities and drive toward pathological forms of life The philosophical claim is that a critical theory of ethics must be rooted in these concrete forms of life and that this will serve as a critical vantage point for critical political judgment and transformational praxis *Descent of the Dialectic* will be of interest to researchers working in philosophy political theory social theory and critical

theory     **Making Citizens** Zev M. Trachtenberg, 2013-01-11 By analysing Rousseau's conception of the general will Zev Trachtenberg characterises the attitude of civic virtue Rousseau believes individuals must have to cooperate successfully in society Rousseau holds that culture affects political life by either fostering or discouraging civic virtue However while the cultural institutions Rousseau endorses would motivate citizens to obey the law they would not prepare citizens to help frame it Rousseau's view of culture thus works against his account of legitimacy and Trachtenberg concludes that Rousseau's political theory as a whole is inconsistent     Literature Criticism from 1400 to 1800, 1997 Presents literary criticism on the works of writers of the period 1400-1800 Critical essays are selected from leading sources including published journals magazines books reviews diaries broadsheets pamphlets and scholarly papers Criticism includes early views from the author's lifetime as well as later views including extensive collections of contemporary analysis     **God in the Corridors of Power** Michael Ryan, Les Switzer, 2009-08-25 God in the Corridors of Power Christian Conservatives the Media and Politics in America is a comprehensive study of Christian conservative power in America's political culture how it was achieved how it is maintained and where it is going It came about in part because of an enduring influence in the school room the seminary and in the pulpit and in part because conservatives are so skilled at using commercial and non-commercial media including religious media to disseminate their views to broader audiences Though their power has waxed and waned they continue to be a potent force in public policy today The authors argue that the astonishing electoral successes of Christian conservatives at all levels of national state and local government was made possible by linking political social media and religious interests with an emerging consensus about what constitutes a conservative mindset in American politics Christian conservatives unquestionably have been the most significant component in a coalition of religious conservatives traditionalist conservatives and neoconservatives that has driven the Republican Party now for almost two generations This multifaceted understanding of Christian conservative activists in religion and politics traces the impact Christian conservatives have had on American Christianity as a whole while also examining the limitations imposed on the Christian conservative agenda by American civil religion the Constitution and case law The authors explore women's reproductive rights in the debate over contraception and abortion and gay civil rights in the debate over gay marriage and family rights The debate over intelligent design and evolution is examined in the context of the campaign to transform public school education The run up to the wars in Afghanistan and Iraq is scrutinized against the background of the declared war on terrorism While the conservative religious and secular coalition within the Republican Party began to fragment even before the end of George W. Bush's first term in office it remained a powerful force in the 2004 and 2008 elections The book concludes with some thoughts about the impact of Christian conservatives in politics media and religion in the future     **Western Political Thought** Robert Eccleshall, Michael Kenny, 1995 This is a guide to the vast amount of literature on the history of political thought which has appeared in English since 1945 The editors provide an annotation of the content of many entries and where appropriate

indicate their significance controversial nature and readability

When somebody should go to the books stores, search opening by shop, shelf by shelf, it is essentially problematic. This is why we give the books compilations in this website. It will definitely ease you to see guide **Rousseaus Social Contract A Conceptual Analysis** as you such as.

By searching the title, publisher, or authors of guide you in fact want, you can discover them rapidly.
