After Saddam Dina Badie, 2017-07-25 After Saddam American Foreign Policy and the Destruction of Secularism in the Middle East investigates the manner in which American foreign policy in Iraq artificially shifted the balance of power in the region and brought religious identities to the foreground Deposing Saddam Hussein resulted in a new regional order that diminished the strength of secular nationalism elevated Iran and Saudi Arabia as regional rivals and by implication established a new ideological paradigm that privileged competing religious factions over secular ideals The trend first manifested itself in Iraq during the American occupation with Iranian backed Shiites fighting Saudi supported Sunnis A similar dynamic is evident in current regional wars in Syria and Yemen By elevating particular groups through rhetorical financial and military support civil conflicts in the Middle East reflect the ideologies behind the Saudi Iranian rivalry This book therefore looks beyond popular narratives of intractable long standing Sunni Shia conflict to explain the source of current sectarian tension as a product of balance of power dynamics It also helps to explain the fracturing of the region that created a ripe environment for groups like the Islamic State to capitalize on sectarian grievances This book relies and builds on balance of power theorizing by looking at the way that traditional competition for power between states and nonstate actors shapes ideological competition For example during the Cold War the two major world powers the U S and the Soviet Union helped to shape international conflicts so that the narrative of capitalism vs communism played a prominent role in civil and international conflicts such as in Korea Nicaragua or Angola By meddling in the internal affairs of states arming rebel groups and lending support to competing factions the U S and U S S R shaped not only outcomes but also the ideas underpinning conflicts Today a similar dynamic can be discerned in the Middle East

Facing the Sea of Sand Barry Cunliffe, 2023 Northern Africa is dominated by the Sahara Desert stretching across the continent from the Atlantic Ocean to the Red Sea This book is about the people who lived around the edges of the Desert and the different ways in which they responded to its challenges establishing networks of communication across its expanse But the Sahara has not always been a desert From about 9000 BC the region began to enjoy a warm humid period allowing vegetation to flourish and wild animals to move in Humans soon followed practising pastoral economies but with the onset of harsher conditions once more around 3000 BC the desert reclaimed its own Since then fluctuations in climate have continued to affect the lives of people living around the desert fringes The communities occupying the North African Coast and in the Nile Valley have come under the

influence of the states dominating the Near East and the Mediterranean but those living in in the Sahel to the south of the desert have developed their own distinctive cultures The book tells the story of the growing links between the two worlds showing that Africa played a crucial part in the development of the Old World before it was drawn into the story of the New World

John Locke's Political Philosophy and the Hebrew Bible Yechiel M. Leiter, 2018-06-28 John Locke whose ideas helped give birth to the United States predicated his political theory on the Hebrew Bible Why *Seeking God in the Works of T. S. Eliot and Michelangelo* Harry Eiss, 2017-05-11 Do I dare disturb the universe It is a question recognized by people around the world If typed into the internet hundreds of examples appear Many know that it comes from one of the best known poems of the twentieth century T S Eliot s The Love Song of J Alfred Prufrock What many do not know is that Eliot dramatically shifted his views at the height of his fame for writing such dark poetry as this and his also famous The Wasteland becoming a sincere devoted Christian While his poetry is famous because it expresses the loss of a spiritual center in European civilization a careful reading of it reveals that he was struggling with his Christianity from the beginning not rejecting it but trying to make it fit into the contemporary world If a reader works through his love song for all of the esoteric meanings as he demands it quickly becomes evident that he intended it as a struggle between agape amour and eros Beginning it with a quote from Dante forces that into place Though the protestant forms of Christianity have changed their views on these the Roman Catholic holds fast Eliot references Michelangelo in the poem bringing in the great painter of the ceiling of the Sistine Chapel Most immediately recognize his name and work Many do not realize how he expressed a similar personal struggle between the desires of the flesh and the spirit Both of them admired Dante s Divine Comedy and its inclusion of amour as a means to salvation His work is generally seen as the greatest literature ever to come out of Italy sometimes referred to as the epic representation of St Thomas Aquinas Summa Theologica one of the central documents establishing Catholic doctrine This book explores how these brilliant men struggle with the highest meanings of life in their artistic expressions and perhaps manage to express what Rudolph Otto designates the *mysterium tremendum* the experience of a mystical awe what he calls the numinous or in more common terms the experience of God *Learning in a Crusader City* Jonathan Rubin, 2018-09-06 Did the Crusades trigger significant intellectual activity To what extent and in what ways did the Latin residents of the Crusader States acquire knowledge from Muslims and Eastern Christians And how were the Crusader states influenced by the intellectual developments which characterized the West in the twelfth and thirteenth centuries This book is the first to examine these questions systematically using the complete body of evidence from one major urban centre Acre This reveals that Acre contained a significant number of people who engaged in learned activities as well as the existence of study centres housed within the city This volume also seeks to reconstruct the discourse that flowed across four major fields of learning language and translation jurisprudence the study of Islam and theological exchanges with Eastern Christians The result is an unprecedentedly rich portrait of a hitherto neglected intellectual centre on the Eastern

shores of the medieval Mediterranean The Rhetoric of Numbers in Gibbon's History F. P. Lock, 2012-09-28 Gibbon aspired to combine the critical analysis of the eighteenth century philosopher with the older traditions of the humanist and scholarly historian His different uses of numbers to inform and to persuade illustrate his remarkable fusion of these approaches This book the first to be devoted to a historian's use of numbers shows how carefully Gibbon interrogated and deployed the numerical evidence in his sources to create a more accurate historical narrative to demonstrate his own reliability and candor as a historian and to convince readers of the validity of his interpretations of characters and events

By Steppe, Desert, and Ocean Barry Cunliffe, 2015-09-24 By Steppe Desert and Ocean is nothing less than the story of how humans first started building the globalized world we know today Set on a huge continental stage from Europe to China it is a tale covering over 10 000 years from the origins of farming around 9000 BC to the expansion of the Mongols in the thirteenth century AD An unashamedly big history it charts the development of European Near Eastern and Chinese civilizations and the growing links between them by way of the Indian Ocean the silk Roads and the great steppe corridor which crucially allowed horse riders to travel from Mongolia to the Great Hungarian Plain within a year Along the way it is also the story of the rise and fall of empires the development of maritime trade and the shattering impact of predatory nomads on their urban neighbours Above all as this immense historical panorama unfolds we begin to see in clearer focus those basic underlying factors the acquisitive nature of humanity the differing environments in which people live and the dislocating effect of even slight climatic variation which have driven change throughout the ages and which help us better understand our world today *Christian Women in the Patristic World* Lynn H. Cohick, Amy Brown Hughes, 2017-10-03

From facing wild beasts in the arena to governing the Roman Empire Christian women as preachers and philosophers martyrs and empresses virgins and mothers influenced the shape of the church in its formative centuries This book provides in a single volume a nearly complete compendium of extant evidence about Christian women in the second through fifth centuries It highlights the social and theological contributions they made to shaping early Christian beliefs and practices integrating their influence into the history of the patristic church and showing how their achievements can be edifying for contemporary Christians Achaean Disputes Ugo Stornaiolo S., 2024-07-05 This study delves into the intricate succession landscape surrounding the medieval title of Prince of Achaia and the older associated dignity of King and Despot of Asia Minor tracing their historical roots and assessing its contemporary status if ever reclaimed by the Damalas family senior direct line heirs to the Genoese Zaccaria dynasty last sovereign house to have used it as rulers of Achaia The multidisciplinary research method used incorporates the review of recent genealogical studies analysis of historical sources and medieval accounts like the Chronicle of Morea and the Chronicle of the Tocco to establish the title's nature antiquity and succession history and the application of historical Roman Byzantine and Frankish Greek feudal law the Assizes of Romania in particular to assess the legitimacy of competing claims for the title over time particularly within the Zaccaria family and

later by the Tocco lineage and ultimately of modern comparative nobiliary law and elements of private law to discuss its theoretical rehabilitation in favor of the Damalas descendants of the Zaccaria Princes of Achaea **The Oxford**

Wales and the Crusades Kathryn Hurlock, 2011-10-15 This original study focussing on the impact of the crusading movement in medieval Wales considers both the enthusiasm of the Welsh and those living in Wales and its borders for the crusades as well as the domestic impact of the movement on warfare literature politics and patronage The location of Wales on the periphery of mainstream Europe and its perceived status as religiously and culturally underdeveloped did not make it the most obvious candidate for crusading involvement but this study demonstrates that both native and settler took part in the crusades supported the military orders and wrote about events in the Holy Land Efforts were made to recruit the Welsh in 1188 suggesting contemporary appreciation for Welsh fighting skills even though crusaders from Wales have been overlooked in modern studies By looking at patterns of participation this study shows how domestic warfare influenced the desire and willingness to join the crusade and the effect of such absences on the properties of those who did go The difference between north and south Wales Marcher lord and native prince Flemish noble and minor landholder are considered to show how crusading affected a broad spread of society Finally the political role of crusading participation as a way to remove potential troublemakers and cement English control over Wales is considered as the close of the peak years of crusading coincided with the final conquest of Wales in 1282
