The Beau Monde Hannah Greig,2013-09-26 The story of the world's first fashion obsessed society in 18th century London Caricatured for extravagance vanity glamorous celebrity and all too often embroiled in scandal and gossip 18th century London's fashionable society had a well deserved reputation for frivolity But to be fashionable in 1700s London meant more than simply being well dressed Fashion denoted membership of a new type of society the beau monde a world where status was no longer determined by coronets and countryseats alone but by the more nebulous qualification of metropolitan fashion Conspicuous consumption and display were crucial the right address the right dinner guests the right possessions the right jewels the right seat at the opera The Beau Monde leads us on a tour of this exciting new world from court and parliament to London's parks pleasure grounds and private homes From brash displays of diamond jewellery to the subtle complexities of political intrigue we see how membership of the new elite was won maintained and sometimes lost On the way we meet a rich and colourful cast of characters from the newly ennobled peer learning the ropes and the imposter trying to gain entry by means of clever fakery to the exile banned for sexual indiscretion Above all as the story unfolds we learn that being a Fashionable was about far more than simply being modish By the end of the century it had become nothing less than the key to power and exclusivity in a changed world
