Royal Commission on the Laws of Marriage,1868 Love, Power, and Gender in Seventeenth-Century French Fairy Tales Bronwyn Reddan,2020-12 Love is a key ingredient in the stereotypical fairy tale ending in which everyone lives happily ever after This romantic formula continues to influence contemporary ideas about love and marriage but it ignores the history of love as an emotion that shapes and is shaped by hierarchies of power including gender class education and social status This interdisciplinary study questions the idealization of love as the ultimate happy ending by showing how the conteuses the women writers who dominated the first French fairy tale vogue in the 1690s used the fairy tale genre to critique the power dynamics of courtship and marriage Their tales do not sit comfortably in the fairy tale canon as they explore the good the bad and the ugly effects of love and marriage on the lives of their heroines Bronwyn Reddan argues that the conteuses scripts for love emphasize the importance of gender in determining the right way to love in seventeenth century France Their version of fairy tale love is historical and contingent rather than universal and timeless This conversation about love compels revision of the happily ever after narrative and offers incisive commentary on the gendered scripts for the performance of love in courtship and marriage in seventeenth

century France A Royal Engagement Part 1 Matthew Winston-Lett, 2025-08-11 Be Our Guest to a royal event When Young Lady Anya has been selected to compete to win the heart of the Crowned Prince **Department of the Army Pamphlet**, 1970 Imagining World Order Chenxi Tang, 2018-12-15 In early modern Europe international law emerged as a means of governing relations between rapidly consolidating sovereign states purporting to establish a normative order for the perilous international world. However, it was intrinsically fragile and uncertain for sovereign states had no acknowledged common authority that would create, change, apply and enforce legal norms. In *Imagining World Order* Chenxi Tang shows that international world order was as much a literary as a legal matter. To begin with, the poetic imagination contributed to the making of international law. As the discourse of international law coalesced, literary works from romances and tragedies to novels responded to its unfulfilled ambitions and inexorable failures, occasionally affirming it, often contesting it, always uncovering its problems and rehearsing imaginary solutions. Tang highlights the various modes in which literary texts, some highly canonical like Shakespeare, Corneille, Lohenstein and Defoe, among many others, some largely forgotten yet worth rediscovering, engaged with legal thinking in the period from the sixteenth to the eighteenth century. In tracing such engagements, he offers a dual history of international law and European literature. As legal history, the book approaches the development of international law in this period, its so-called classical age, in terms of literary imagination. As literary history, Tang recounts how literature confronted the question of international world order and how, in the process, a set of literary forms common to major European languages—epic, tragedy, romance, novel—evolved. *Pictures and Royal Portraits Illustrative of English and Scottish History* Thomas Archer, 1882 Minority Groups in Thailand American Institutes for Research, Cultural Information Analysis Center, 1970 **The Journal of English and Germanic Philology**, 1914 **Chaucer: Essays and Studies** Oliver Farrar Emerson, 1929 *Historical Tales of Lancastrian Times* Henry Peter Dunster, 1864

Representing China on the Historical London Stage Dongshin Chang, 2015-02-11 This book provides a critical study of how China was represented on the historical London stage in selected examples from the late seventeenth century to the early twentieth century, which corresponds with the Qing Dynasty 1644–1911, China's last monarchy. The examples show that during this historical period the stage representations of the country were influenced in turn by Jesuit writings on China, Britain's expanding material interest in China, the presence of British imperial power in Asia, and the establishment of diasporic Chinese communities abroad. While finding that many of these works may be read as gendered and feminized, Chang emphasizes that the Jesuits' depiction of China as a country of high culture and in perennial conflict with the Tartars gradually lost prominence in dramatic imaginations to depictions of China's material and visual attractions. Central to the book's argument is that the stage representations of China were inherently intercultural and open to new influences, manifested by the evolving combinations of Chinese and English/British traits. Through the dramatization of the Chinese, other representations questioned, satirized, and put in sharp relief the ontological and epistemological bases of the
