Royal Historical Society Annual Bibliography of British and Irish History Austin Gee, 2002 The Royal Historical Society's Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year. It is available before the end of the following year. The volume is divided into sections to cover all periods of British and Irish history from Roman Britain to the end of the twentieth century and is arranged alphabetically. It also includes sections on imperial and commonwealth history. Over two hundred journals are searched annually and the editor's aim is to list all relevant books and articles published in the UK. Each section is edited by a specialist in the field; the whole is edited by Austin Gee for the Royal Historical Society. The book's contents are indexed by author, by place, by personal name, and by subject. The subject keywords enable scholars to trace publications in which they are interested beyond the information conveyed in the title. The Annual Bibliography is the most complete and up to date bibliography of its type and an indispensable tool for historians.

itself at the summit of the world and by some measures this was indeed true It had become the largest empire in history its political stability positioned it as the leader of the new global economy and allowed it to construct the largest navy ever built And yet it was also a society permeated with doubt fear and introspection Repeatedly politicians and writers felt themselves to be staring into the abyss and what is seen as an era of irritating self belief was in fact obsessed with its own fragility whether as a great power or as a moral force Victorious Century is a comprehensive and extraordinarily stimulating history its author catches the relish humor and staginess of the age but also the dilemmas faced by Britain s citizens ones we remain familiar with today **Forthcoming Books** Rose Arny,2003 **Serials Catalog** Iowa State University.
