Royal Occasions John Castle,1992 *Military Drawings and Paintings in the Collection of Her Majesty the Queen: Text* Archibald Elliot Haswell Miller,Nicolas Payan Dawnay,1966 **Collecting Prints and Drawings** Sylvia Heudecker,Andrea M. Gáldy,2019-01-22 Cabinets of prints and drawings are found in the earliest art collections of Early Modern Europe From the sixteenth century onwards some of them acquired such fame that the necessity for an ordered and scientific display meant that a dedicated keeper was occasionally employed to ensure that fellow enthusiasts as well as visiting diplomats courtiers and artists might have access to the print room Often collected and displayed together with drawings the prints formed a substantial part of princely collections which sometimes achieved astounding longevity as a specialised group of collectibles such as the Florentine Gabinetto Disegni e Stampe at the Uffizi GDSU Prints and drawings both bought and commissioned were collected by princes and by private amateurs Like the rest of their collections the prints and drawings were usually preserved and displayed as part of or near the owner s library in close proximity to scientific instruments cut gems or small sculptural works of art Both prints and drawings not only documented an encyclopaedic approach to the knowledge available at the time but also depicted parts of the collections in the form of a paper museum Prints and drawings also served as a guide to the collections They spread their fame and the renown of their owners across Europe and into new worlds of collecting both East and West This volume explores issues such as when how and why did cabinets of prints and drawings become a specialised part of princely and private collections How important were collections of prints and drawings for the self representation of a prince or connoisseur among specialists and social peers Is the presentation of a picture hanging in a gallery for example by Charles Eisen for the Royal Galleries at Dresden to be treated as documentary evidence Are there notable differences in the approach to collecting presentation and preservation of prints and drawings in diverse parts of the world What was the afterlife of such collections up to the present day **Apollo** ,1929 Includes section Book reviews The Victorian Watercolours and Drawings in the Collection of Her Majesty the Queen Delia Millar,1995

Drawing & Painting Portraits in Watercolour David Thomas,2016-01-05 Portraiture is one of the most rewarding painting disciplines In this book experienced portrait artist David Thomas shows that it need not be intimidating Learn to use watercolour pencil and charcoal to produce fresh and approachable portraits invested with life and character *Official Illustrated Catalogue of the English Water Colors and Works in Black and White ...* Museum of Fine Arts, Boston,1885 **Art in Ulster: Hewitt, J. Paintings, drawings, prints and sculpture for the last 400 hundred [sic] years to 1957** John Harold Hewitt,Mike Catto,1977 *Queen Victoria* John Plunkett,2003 The nineteenth century saw the arrival of the mass media high volume illustrated newspapers and magazines photography and the telegraph which connected every part of the Empire From the beginning royalty was an essential subject for the media Victoria s reign was documented in a detail never known before her accession and coronation her very public marriage her travels at home and abroad her Jubilees and

ultimately her death and funeral John Plunkett's book is the first to study the role of the media in Queen Victoria's reign. He argues that the development of popular print and visual media in the nineteenth century helped to reinvent the position of the monarchy in national life. He reveals how the royal family was one of the principal beneficiaries of the growth of cheap newspapers and illustrated periodicals and the advent of new media. He brings to light a wealth of previously unexamined material including a detailed account of the emergence of royal journalism and the role of functionaries like the Court Newsman and shows how photographs of Victoria were routinely retouched and manipulated in the latter decades of the century.

Canadian Reference Sources Mary E. Bond, Martine M. Caron, 1996. This bibliography cites those Canadian and foreign reference sources that describe Canadian people, institutions, organizations, publications, art, literature, languages, and history. It lists books of a general nature as well as works in the disciplines of history and the humanities. These large divisions are then broken down by subject, genre, type of document, and province or territory. Titles of national, provincial, territorial, or regional interest are included in every subject area when available. The contents of the book are indexed four ways: by name, title, French subject, and English subject. And to facilitate browsing, the major reference books, those dealing with more than one subject or a large geographical region, are also cross-referenced. Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include citation in the language of the publication and a bilingual annotation. The annotations are descriptive and provide information on the content, arrangements, and indexing of works, the availability of non-print formats, previous editions, and title changes, and related works. Canadian Reference Sources will be an invaluable reference tool for future scholars and researchers.
