*An End to All Disease* Lt. Lawrence F. Frego, 2006-07-19 We are at the crossroads of world health On the one hand we face the possibility of a world wide pandemic the likes of which has never been seen before We are likewise on the threshold of discovering natural cures for nearly every disease As choosing wisely may mean the difference between life and death this book is designed to help the reader choose alternative options that are seldom if ever in the news Jared Diamond in his groundbreaking work *Collapse How Societies Choose to Fail or Succeed* addresses the fact that only civilizations that recognize the threats against their existence and deal with the threat effectively survive Civilizations with their heads in the sand become extinct or are conquered by more vigorous nations The robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition They tore up cable car lines and public transportation so the public would have no other alternative except their oil Today the drug monopolies owned by the descendants of these same robber barons are nearly complete in their plot to eradicate all natural low cost remedies for disease prevention and treatment In the state of Florida naturopathic physicians were de licensed unless they also had a conventional medical license The powers that be want to create a drug induced society at an enormous financial and emotional cost to the public at large They are even trying to outlaw vitamins via European health treaties and side step the American constitution and the public The ever escalating cost of medical care created by lack of natural alternative options can only lead to the eventual total collapse of the entire medical system It is exceedingly difficult finding the truth about alternative medicine as the system has a vested interest in making profits and keeping the truth from you A few thousand deaths is an acceptable loss if a few billion dollars can be made And it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage The guardians of public health know which side their toast is buttered on also The career politicians and beltway bandits at the FDA know where the money is and they don't get it from you or providers of natural cures The drug monopolies pay the big bucks There have been no checks and balances Corruption has become so pronounced that the US House of Representatives is seeking to pass the Consumers Access to Health Information Act H R 2352 to ensure that accurate health claims ARE NOT SUPPRESSED Consumers would be given TRUTHFUL AND COMPLETE information about the curative mitigation treatment and prevention effects of foods and dietary supplements on disease or health related conditions The time to exercise your God given right to the health care of your choice is now [www.lef.org](http://www.lef.org) America has the finest emergency health care in the world Bar none However that is not the nature of the coming threat American baby boomers will soon be retiring in the tens

of millions Their health care needs will be staggering and costly However 92% of American health care providers are trained in emergency medicine and only 8% in long term preventative medicine As it takes a minimum of 6 7 years to obtain a medical degree America is unprepared for a crisis that is inevitable CANCER REMEDIES That the Medical Establishment Doesn't Want You to Use Carolyn D'Our,2016-05 This book is about the cancer industry s conspiracy to suppress alternative natural cancer therapies because they are not profitable It discusses and provides evidence of the medical industry s plot to destroy the work and therapies of alternative practitioner s It also list a number of successful cancer therapies and discusses techniques to aid in the prevention of cancer **Chemical Warfare on America** George Orville,2018-03-05 I received my bachelor of science degree in analytical chemistry from Wayne State University in Detroit Michigan My first full time employment after graduation was with Federal Food and Drug Administration The duties consisted of analyzing food and drugs that was being sold in the United States It also included in analyzing food products imported from foreign nations for any pest contamination The food products from large food producing manufacturers were also analyzed for pest contamination and content The drugs were analyzed for amount specified on labels There were numerous FDA laboratory districts established nationwide The Detroit district employed about forty analytical chemists and about forty to fifty inspectors Our district director emphasized on us the importance of our work Two of the important items mentioned to our occasional gathering emphasized the importance of FDA work One was the advent of sulfa drugs prior to antibiotics that were widely used and they were highly not soluble Someone at one of the manufacturing outfits figured out a way of dissolving the sulfa drugs in ethylene glycol car cooling system liquid highly poisonous This elixir was used on a ten year old boy who died due to the poison The other item he mentioned was an inspector at a tuna canning manufacturer observed how some decomposed sections of the fish were slowly incorporated into the final canned product It is a shame that these highly guarded human health districts have been closed This is why this book came about **The Handbook of Rife Frequency Healing** Nina Silver,2001 **Royal R.
